Dear Parent/Guardian

All students entering or attending school in NYS, including remote school attendance, must be immunized. Your child may be missing one or more immunizations (shots) for school. Please share the attached documents with your child's health care provider (MD, NP, PA) so they can provide the immunizations (shots) your child needs. The age at which immunizations are given must match the [NYSDOH Immunization Requirements for School Entrance/Attendance Chart](#).

The following are the immunization requirements for your child age group.

Tdap vaccine requirements:

- Students in 6th are required to have a dose no earlier than 10 years old.
- All Students 11 years old or older entering grades 6 -12 are Required to have One dose of Tdap.

Meningococcal Conjugate vaccine requirements:

- Students in 7th grade are required to have the first dose no earlier than 10 years of age.
- Students in 12th grade are required to have a 2nd dose, no earlier than 16 years old.

Schools can accept the following immunization records as proof of immunization:

- An immunization record from your healthcare provider or health department.
- An official copy of the immunization record sent directly from your child's previous school with the dates given.
- A NYSIIS/NYCIR Immunization Registry record.

Please provide your child's immunization record to the School Health Office.

Thank you,

Katrina Townsend RN School Nurse
