

FERGUSON-FLORISSANT SCHOOL DISTRICT
Office of the School Nurse
Parent Authorization for Specialized Health Care

As the parents/guardians of _____
(Student's Name) _____ (DOB)

We request that the following healthcare service(s) be administered to our child. We understand that a qualified designated person(s) will be performing the health care service. It is our understanding that in performing this service, the designated person(s) will be using a standardized procedure which has been approved by our physician. **We give permission for the exchange of confidential information between the school nurse/designee and the prescribing physician regarding our child's health care needs.**

(Physician's Name) (Address) (Phone)

Health care service request:

We will notify the school immediately if the health status of our child changes, we change physicians, or there is a change or cancellation of the procedure.

We understand that it is our responsibility to provide all supplies and equipment necessary for this procedure.

We understand that the above procedure should be scheduled before or after school hours whenever possible.

We have read and fully understand the Plan of Treatment as it is written and have had the opportunity to ask questions regarding the Plan. We authorize the treatments and medications to be given as ordered.

(Parent/Guardian) (Date)

(Home Phone) (Work Phone) (Cell Phone)

School Nurse must check that all requirements are completed and attached to this document:

____ **Parent Authorization** *Date Received:* _____

____ **Prescription for Care** *Date Received:* _____

____ **Health Care Plan** *Date Completed:* _____

Distribution: Student Health Record

Specialized Health Care Procedure Guidelines

Before a Specialized Health Care Procedure can take place in the school, the following must occur:

1. Parent must complete a Parent Authorization For Specialized Health Care form.
2. A written prescription from the student's qualified licensed physician must be obtained and on file prior to procedure being done at school.
3. A Specialized Health Care Plan (**N25HP**) must be written and implemented for all students receiving specialized health care services at school. This plan outlines how the district intends to meet the student's specialized health care needs and serves as general understanding between the student's parents(s)/guardian(s), health care providers(s), and school personnel.
4. Parent must supply all supplies and equipment for the Specialized Health Care Procedure.

All components must be in place before the procedure is done by the district employee.
