Annual Distraction Free Schools Policy Enforcement Report

Reporting Year: 2025-2026

Date Published: September 24, 2026

Policy Overview

The Board of Education's Use of Internet-Enabled Devices During the School Day Policy requires all PreK-12 students to power off and store personal technology, including cell phones, smartwatches, and other internet-enabled devices, in administrator-directed locations upon arrival. Devices must remain stored for the entire instructional day, including lunch, hallway transitions, and study halls. The policy is enforced through the disciplinary measures outlined in the Code of Conduct.

Enforcement Summary Data

Action Taken	Number of Students
Device Return to Locker/Parent Notification	47
Device Confiscation	14
Detention and Parent Pickup	4
Turn Phone into Main Office Everyday	1
In-School Suspension	0
Out-of-School Suspension	0

Demographic and Equity Review

The District reviewed enforcement data by applicable demographic groups, including race/ethnicity, gender, students with disabilities, English Language Learners, and economically disadvantaged students.

The District reviewed the available enforcement data and considered whether there was evidence of a disparate enforcement impact among student demographic groups. Based on the data available for this reporting period, the District did not identify a statistically significant disparate enforcement impact requiring a mitigation action plan.

Next Steps and Ongoing Commitment

The District will continue to monitor implementation of the policy annually to promote consistent and equitable enforcement across all schools.
