

NEW K-8 MAGNET

CENTER FOR EMERGING TECHNOLOGIES

K-8 EXPERIENCE

Through robotics challenges, coding projects and themed learning experiences, students engage in opportunities that spark creativity, encourage teamwork, and empower them to share ideas beyond the classroom.

PARTNERSHIP

Through a unique partnership with Great Explorations Children's Museum, students will engage in immersive hands-on learning experiences at school today and in a future Discovery Center.

CREATE

Learners innovate, create prototypes and bring ideas to life using emerging technologies.

CURATE

Teams explore, evaluate, and make meaningful connections to develop critical thinking skills and become creative problem solvers.

COMMUNICATE

Leaders amplify their voice through storytelling, digital media, and presentations that inform, inspire, and connect them with others.

STOP BY FOR A SCHOOL TOUR

Tuesdays at 8:45 am (Oct-Dec)

Register: bit.ly/K8ParentTours
