

NUEROSCIENCE CLUB

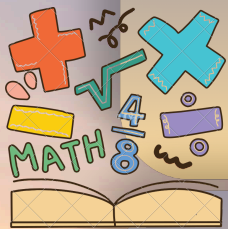

Competitive Excellence

Prepare to compete in the USA Brain Bee with an expert-led, 15-week structured curriculum.

Global Network

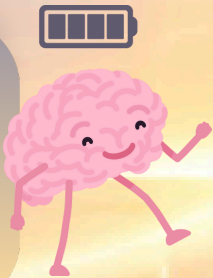

Join the school's first internationally affiliated International Youth Neuroscience Association (IYNA) chapter.

Hands-On Medical Skills

Participate in exclusive workshops covering basic medical response, CPR/BLS alignment, and stroke-symptom recognition

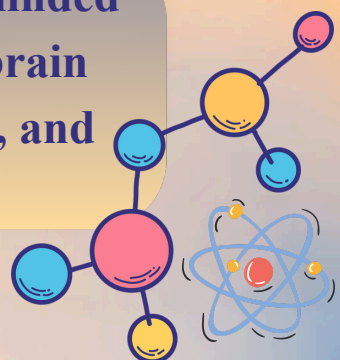

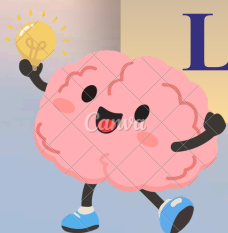

Extension of STEM curriculum

Explore advanced topics like neuroplasticity, cognitive control, and brain imaging through peer-led discussions and collaborative research initiatives

Community/Leadership

Build a network of like-minded peers passionate about brain science, clinical research, and medical careers.
