Director's Note

The musical EVITA raises a lot of questions. However, they are not the ones you would typically expect.

In analyses of EVITA, scholars have characteristically noted that the central conflict of the story lies in the storytelling. Those on the bottom of the socio-economic ladder viewed Eva Peron as a saint while those on top characterized her as a greedy cunning anathema.

Hence, the central battle becomes how to tell the story of Eva Peron. Is she a classic *Cinderella* or more *Cruella de Vil*? This complication is what makes the story so fascinating; yet it also mars her legacy. There is an inability to truly know which story is more or less reliable as the conflict remains in tact throughout the entire show.

Will there be such doubt when our individual legacies are assessed? And that is the question I hope EVITA forces our students to ponder. If they are to leave Archbishop Stepinac an inheritance upon the end of their high school tenure, what will it be?

Will administrators, faculty, staff, and peers fondly recall their contributions to the community? Will there contributions be marked by good works? Good words that demonstrated respect, tolerance, empathy, and gratitude? Will they have attempted to see the face of God in each person they encountered in a hallway or classroom – on the field or stage?

I pray that when each of our student's stories is told - no ambiguity will exist as to the characterization of their legacy. For the answers to the aforementioned questions will be a "qualified YES!" And then, history will be kinder to them than it has been to Eva Peron.
