

Hello!

I am Betty McDaniel, I teach the 3rd/4th grade blend at Coquille Valley Elementary. This is my 7th year working in the Coquille School District, and before that I taught in several school districts around the state.

I love anything outdoors! Hiking, kayaking, fishing, hunting, camping and beach combing are my favorite activities. I love crocheting (even though I am not very good at), I love reading, and most importantly, I love my family and spending time with them.

I am so happy to be a teacher, and working at CVE. I believe having fun while learning is the best way for young minds to embrace knowledge. 3rd/4th grades are those pivotal grades where students move at a much faster pace than the lower grades, and we're learning higher level mathematics, digging deep into literature, and prepping for the state test near the end of the school year. In 3rd/4th grade students are no longer learning to read, they are reading to learn!
