

Welcome to 6th grade math at CVE! I am excited to begin another school year with you. This year marks my twelfth year of teaching at CVE, and seventeenth years total. I feel very fortunate to continue working with such a supportive community of students and families.

In our math class, students will not only build their skills but also learn how math connects to real life. My goal is to create a classroom environment where students feel safe to take risks, ask questions, and work hard toward success. We will work as a team and celebrate progress together throughout the year.

Here is a little about me! I love spending time with my family and cheering on my kids at their sporting events. I also coach 7th grade girls' basketball and enjoy playing golf and being outdoors whenever I can.

Here's to a fantastic year!

Sincerely,
Mrs. Pugmire
