

GET STARTED & MANAGE COURSES IN SCHOOLLOGY

Create your course, organize content, and give students the right access.

1. CREATE A COURSE

2. GET STUDENTS IN

You can manually add students – or just email them the Access Code and let them join.

MANUALLY ADD STUDENTS

OR

SHARE THE ACCESS CODE

Tip: The Access Code is an easy way for students to join your course!

3. ADD MATERIALS & ORGANIZE CONTENT

Click Add Materials

Create Folders for your content

Later, add content to folders, such as files or links.

Folders help keep your course organized and easy to navigate!

4. ASSIGN FOLDERS TO SPECIFIC STUDENTS

Students now can see only the folders you assigned to them.

BEST PRACTICE: Use folders and individual assignment to keep content relevant, organized, and accessible for every student.
