Reflections & Directions

*The paradox of education is precisely this - that as one begins to become conscious one begins to examine the society in which he is being educated.
The purpose of education, finally, is to create in a person the ability to look at the world for himself, to make his own decisions...*

James Baldwin, "A Talk to Teachers," 1963

I'm on the edge of glory, and I'm hanging on a moment of truth.
Lady Gaga

Aspirations

- Make a positive, meaningful difference
- Build strong and nurturing relationships
- Be reliable and work to do better

*I believe the children are our future
Teach them well and let them lead the way
Show them all the beauty they possess inside
Give them a sense of pride to make it easier
Let the children's laughter
Remind us how we used to be*

Lyrics by Linda Creed – as performed by Whitney Houston
