

In Schoology – go to Courses – My Courses

 <p>Click Create Course</p>	
<ol style="list-style-type: none">1. Name your course2. Select Subject Area3. Select Level4. Select Grading Period – any BOLD one is active – but if you scroll down there is one called ZZPD that will last forever5. Click Create	
	<p>To get students in, you can manually add them – or just email them the Access Code and let them join that way.</p>
<ol style="list-style-type: none">1. Click Add Materials2. Create Folders for your content3. Later you can add content to folders, such as files or links.	
	<ol style="list-style-type: none">1. Select the Gear for each folder2. Select Individually Assign <p>This will allow you to present different content to different groups of students</p>

Select which students should see that folder

Select Students

Select at least one student or grading group to individually assign this folder.

SELECT STUDENTS

☐ Select All

☐ Joseph

☐ Brandy

Click Next then click Assign

Select Students

Select at least one student or grading group to individually assign this folder.

SELECT STUDENTS

Confirm Your Information

This folder will be individually assigned to the following students. If new students join your class, you will need to individually assign this folder to them.

STUDENTS:

Joseph

Students now can see only the folders you assigned to them

Your Course Name: Section 1

Pittsburgh Public Schools

 Grade 9
