

Student Infraction Response Reporting (PD 8)

Attn: DDCs

August 20, 2026

ESB Helpdesk: DWTShelp@esboces.org

Beginning in the 2025-26 school year, the Student Infraction Response template will be available to report disciplinary removal data for students with disabilities through age 21 (up to their 22nd birthday).

- Student Infraction Response is only required for students with disabilities
 - If General Education students are reported via the SIRS, those data will migrate to Level 2 but will not be used to populate the corresponding L2RPT report.
- Student Infraction Response includes fields and removal types that are specific to students with disabilities and have historically been reported annually in the PD-8 form.
 - Removal data will continue to populate the PD-8 form and should be certified in the PD System by the LEA with CSE/CPSE responsibility.
- This will be a dual collection for the 2025-26 and 2026-27 school years.
 - Data will be reported from the Student Management System (SMS) **AND** the Special Ed. Management System (Frontline/Clear Track)
 - For 25-26 & 26-27 the data reported from your SMS will be compared by NYSED against the data reported from your Special Ed Management System to monitor for accuracy
- **Data Submission Instructions**
 - The PD8 must be submitted to the State Education Department through the PD Data System at <http://pd.nysed.gov>. Paper copies will not be accepted.
 - Log into the PD Data System and select PD8 from the “PD Forms” menu. Enter your data and then save and submit it. If there were no suspensions or removals of students with disabilities during the school year, submit the report with zeroes in the cells.
 - Once your data have been submitted, certify the report as complete and accurate. The report is not complete until it has been certified..
 - If you require assistance in completing this report, or if you have certified it in error, please email Information and Reporting Services (IRS) at se-datasupport@nysed.gov and include “PD8” in the subject line.

Non-data reporting questions regarding the new requirements may be directed to the Office of Special Education at speced@nysed.gov
