

Title 1 Parent Compact For

MATH CLUB

Clear Springs Elementary
Jenna Staunton

Deephaven Elementary
Julie Queenan

What is a Parent Compact?

A Parent Compact is an agreement between parents, students and teachers. It explains how parents and teachers will work together to make sure all students get the individual support they need to reach and exceed their target growth goals.

Criteria to Receive Support

Your child has been selected to receive additional math support based on:

- ♦ NWEA Test Scores
- ♦ Math Benchmark (FastBridge)
- ♦ Teacher Input
- ♦ Classroom Performance

The math interventionist will work closely with your child's teacher to provide the support needed. Students will meet in small groups for 20-30 minutes, 2 to 5 days per week. Small group time will focus on three main components:

- ♦ Provide deeper understanding of concepts
- ♦ Provide additional practice in specific skill areas
- ♦ Teach developmentally appropriate strategies and skills
- ♦ Help to build student confidence
- ♦ Strengthen test taking strategies

Math Intervention

Minnetonka math interventionists will incorporate the *Bridges Intervention* curriculum to teach critical numeracy and computation skills at all grade levels. Bridges uses a strengths-based approach that builds on each student's abilities – starting with manipulatives, then moving to two-dimensional Representations, and mental images. In addition, Bridges utilizes assessment data to provide strategic intervention that aligns with core instruction.

Activities to Support Partnerships

Conferences

October 8th & 9th
March 4th & 5th

Meeting with the Math Interventionist

During the school year, if you are interested in meeting with your child's math intervention teacher, please email at:

Jenna.Staunton@minnetonkaschools.org
Julie.Queenan@minnetonkaschools.org

Communicating about Learning

Minnetonka is committed to communicating regularly with families about children's learning. Some of the ways you can expect us to communicate are:

- Periodic Emails
- Monthly Newsletters

Teachers, Parents, Students – Together for Success

Minnetonka Math Intervention Teachers

Math intervention teachers will provide high-quality curriculum & instruction in a supportive and effective learning environment. Teachers will work with students and their families to support students' success in math. Our key connection with families will be monthly newsletters. These will include: helpful tips, take-home materials/resources, or access to activities and websites for practice and reinforcement of concepts.

Minnetonka Math Support

Minnetonka Parents

Minnetonka parents can support student math success by:

- Having fun with math! Talk about how we see and interact with math in everyday life.
- Attending conferences.
- Playing games with new math concepts and finding ways to integrate math in daily family conversations.
- Encouraging students to use the valuable resources sent home to help build fact fluency.

Minnetonka Students

Minnetonka students will strive to improve their math success by:

- Talking with their family about new math strategies and concepts.
- Bringing home newsletters and/or activities.
- Establishing a routine of practicing math fact fluency.

Permission Slip

Please complete the Math Club permission form at:
