

Download and Onboard the Raptor Safe App

Raptor Safe makes your school experience easier, faster, and more secure by bringing the benefits of Raptor VisitorSafe and Raptor DismissalSafe right to your fingertips. For visitors, the app provides a quick and secure way to verify your identity and check in using a simple QR code. For parents and guardians, managing your child's dismissal plans and carpools is effortless, giving you peace of mind and one less thing to worry about. Designed with convenience and safety in mind, Raptor Safe helps streamline your interactions with the school while keeping everyone protected.

Download for iOS Device

To download **Raptor Safe** onto your iOS device, perform the following steps:

1. Select the  (**App Store**) icon to open the App Store from your iPhone or iPad.
2. Search for and select **Raptor Safe**.

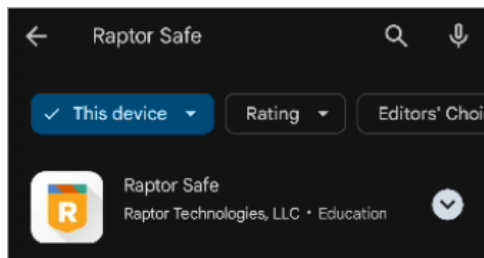

3. Select **Get** to download the **Raptor Safe** app.
4. Select **Open** to launch the **Raptor Safe** app.

Download for Android Device

To download **Raptor Safe** onto your Android device, perform the following steps:

1. Select the  (**Play Store**) icon to open the Google Play Store from your mobile Android device.
2. Search for and select **Raptor Safe**.

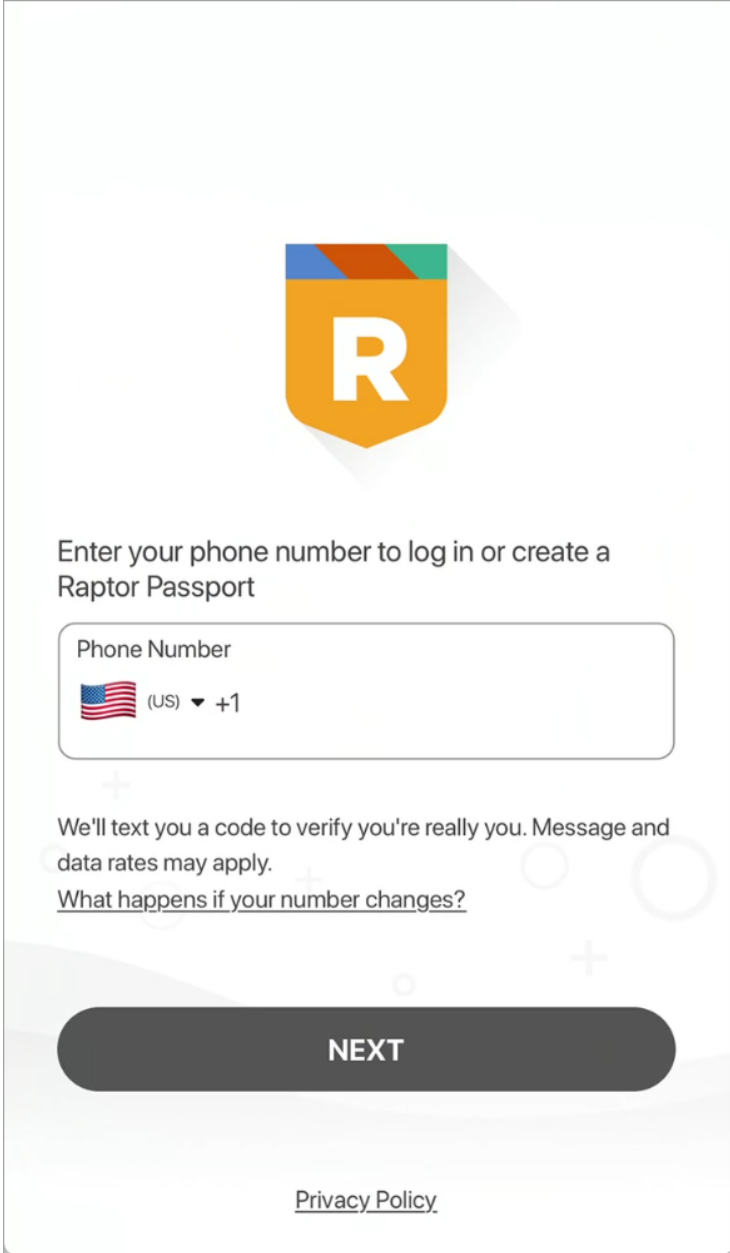

3. Select **Install** to install the **Raptor Safe** app.
4. Select **Open** to launch the **Raptor Safe** app.

Onboarding Process

Once the **Raptor Safe** app is downloaded and launched on your iOS or Android device, perform the following steps:

1. Enter your **Phone Number** and press **Next** to create a Raptor Passport.

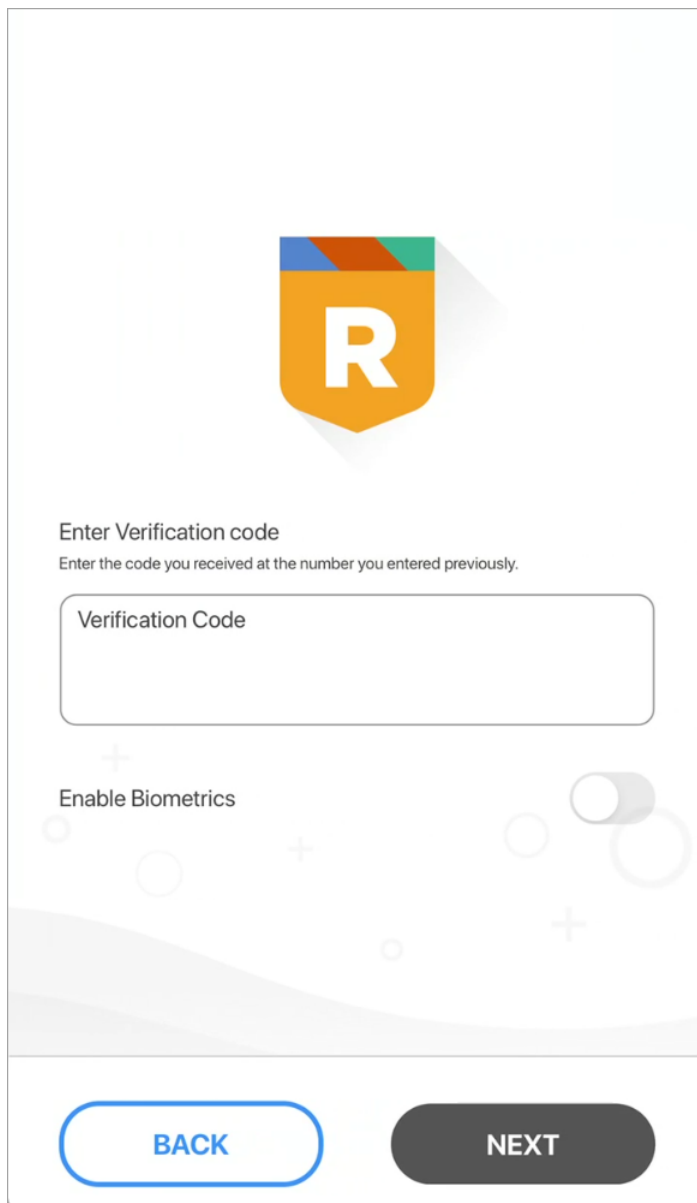

The image shows the onboarding screen of the Raptor Safe app. At the top is the Raptor Technologies logo, which consists of the word "RAPTOR" in large orange letters with a registered trademark symbol, "TECHNOLOGIES" in smaller grey letters below it, and the tagline "THE GOLD STANDARD IN SCHOOL SAFETY" in even smaller grey letters at the bottom. Below the logo is a thick orange horizontal bar. The main screen has a light grey background with a large orange shield icon containing a white letter "R" in the center. Below the icon, the text "Enter your phone number to log in or create a Raptor Passport" is displayed. Underneath this is a rounded rectangular input field. Inside the field, the text "Phone Number" is at the top. Below it is a small American flag icon followed by "(US)" and a dropdown arrow, and then "+1". Below the input field, there is a line of text: "We'll text you a code to verify you're really you. Message and data rates may apply." followed by a link: "[What happens if your number changes?](#)". At the bottom of the screen is a large, dark grey rounded rectangular button with the word "NEXT" in white capital letters. At the very bottom, centered, is a link: "[Privacy Policy](#)".

2. Enter the **Verification Code** you received at the number you entered previously and press **Next**.

Note:

There is an option to **Enable Biometrics** to keep you signed in.

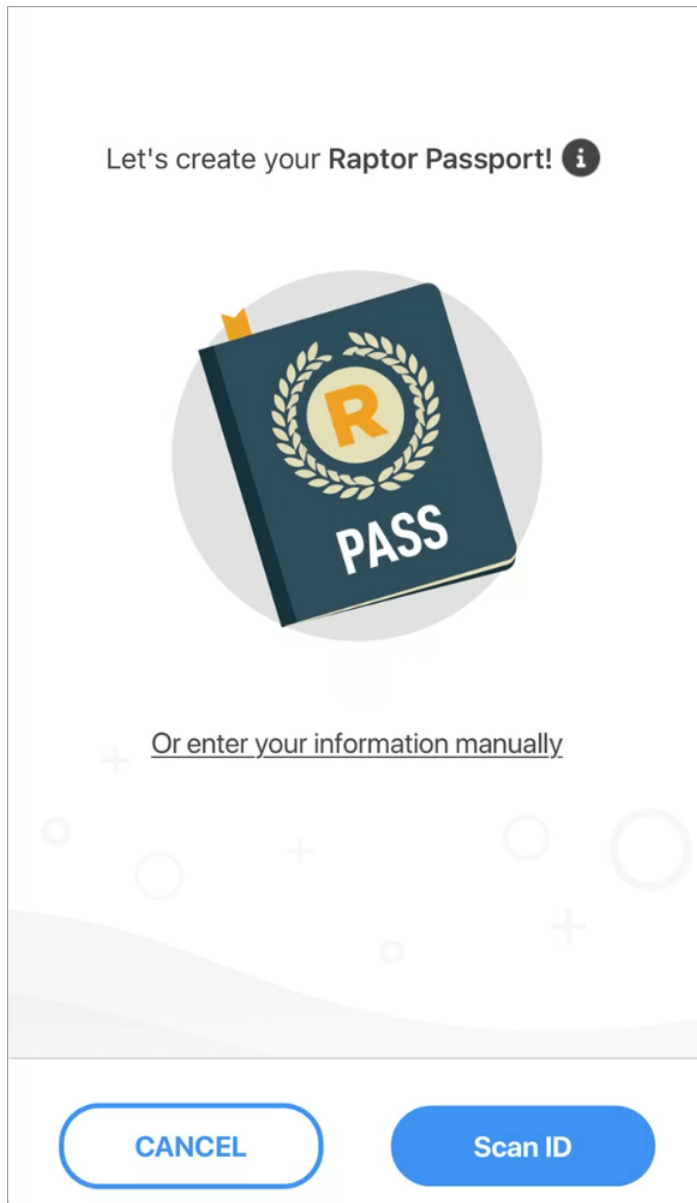

The screenshot shows a mobile application interface for Raptor Technologies. At the top is the Raptor logo, a shield with a white 'R' on an orange background, topped with blue, red, and green segments. Below the logo, the text 'Enter Verification code' is followed by a smaller instruction: 'Enter the code you received at the number you entered previously.' A large, rounded rectangular input field is labeled 'Verification Code'. Below this field is a toggle switch for 'Enable Biometrics', which is currently turned off. The bottom of the screen features two buttons: a blue-outlined 'BACK' button and a dark grey 'NEXT' button. The background of the app has a light grey wavy pattern at the bottom and faint plus signs and circles.

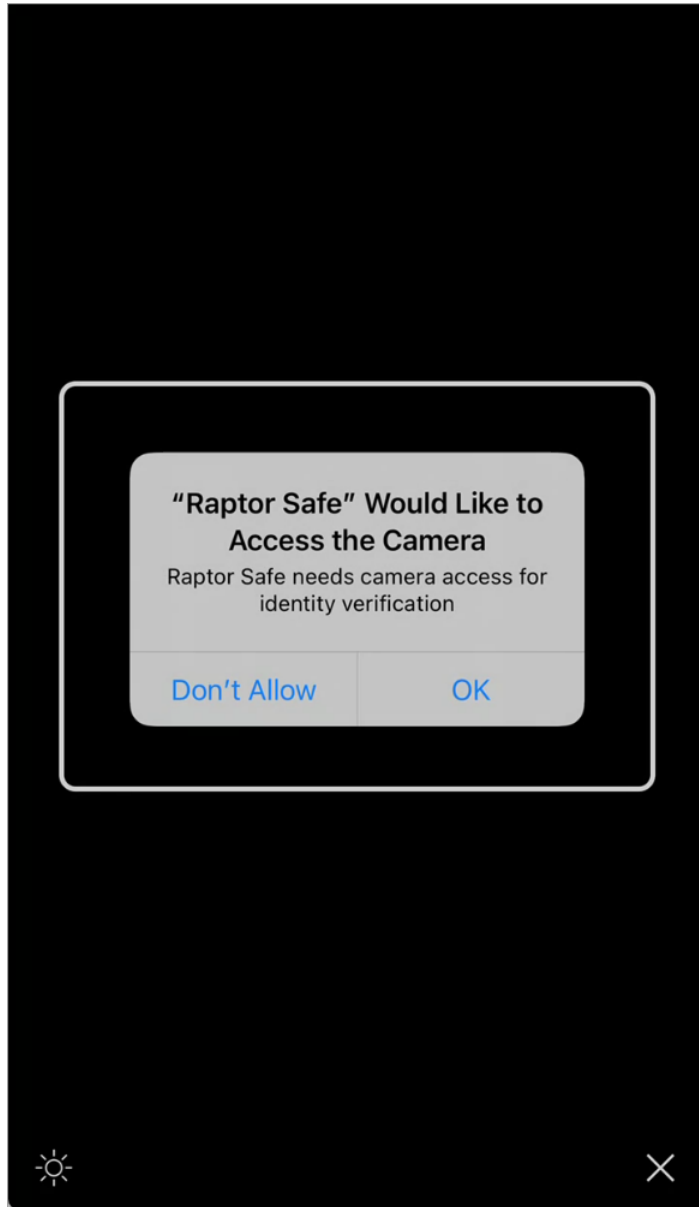

3. Press **Scan ID** to set up your Raptor Passport by scanning your drivers' license, official state ID, or National Passport.

Note:

To enter your information manually, press **Or enter your information manually.**

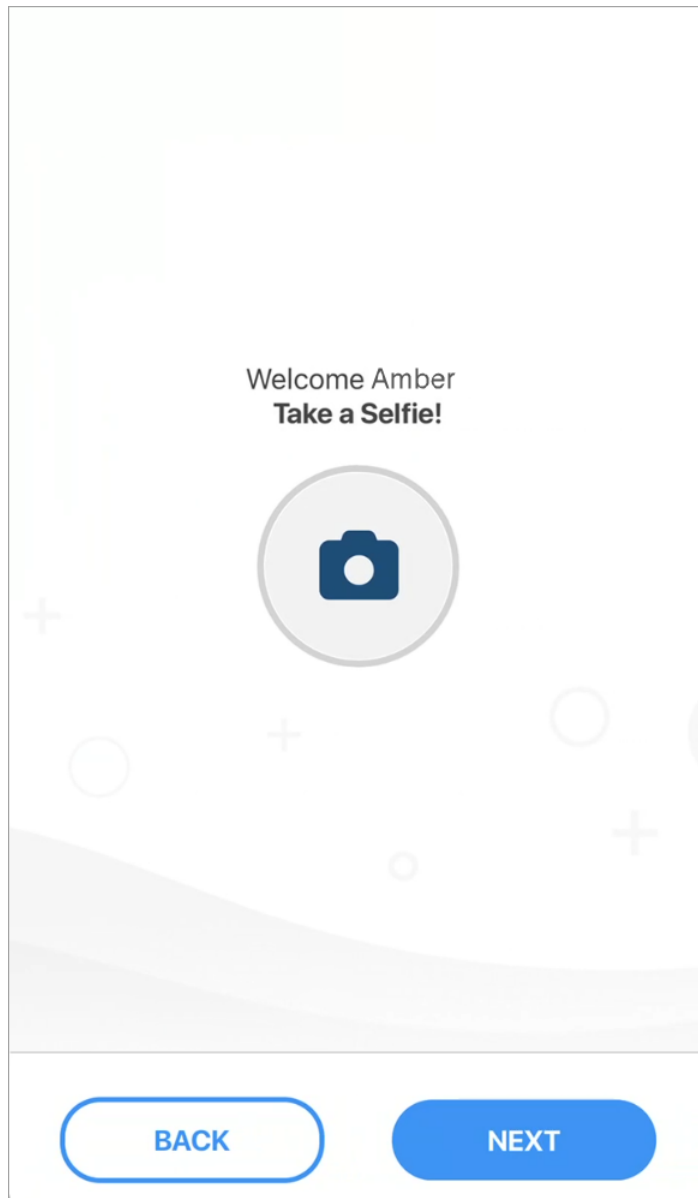

4. Press **OK** to allow Raptor Safe access to your camera to capture the ID's data.

5. Hold up and fit the front of the ID within the white box to be scanned.
6. Once the front of the ID is scanned and the app asks you to "Please provide the next page", flip the ID around and scan the back.
7. Press **Next** to walk through taking a selfie.

Note:

You will be asked to move your head around while taking the selfie. This verifies that you are a live person and someone isn't using a picture of you to create an account.

8. Be sure to read the directions and press **Go**.

Note:

You will need to take off any hats, headphones, and glasses that are not present in the ID picture.

9. Center your face and follow the instructions.
10. Once the selfie has been take, verify your information is accurate.
