Safety

The Governing Board recognizes the importance of providing a safe school environment that is conducive to learning and promotes student safety and well-being. Appropriate measures shall be implemented to minimize the risk of harm to students, including, but not limited to, protocols for maintaining safe conditions on school grounds, promoting safe use of school facilities and equipment, and guiding student participation in educational programs and school-sponsored activities.
The Superintendent or designee shall regularly review current guidance regarding cybersecurity and digital media awareness and incorporate recommended practices into the district's processes and procedures related to the protection of the district's network infrastructure, and the monitoring and response to suspicious and/or threatening digital media content.

District staff shall be responsible for the proper supervision of students at all times when students are subject to district rules, including, but not limited to, during school hours, school-sponsored activities, before and after-school programs, morning drop-off and afternoon pick-up, and while students are using district provided transportation.

Additionally, district employees, volunteers, and contractors shall promote safe environments for student learning and engagement that maintain appropriate boundaries among and between students. (Education Code 32100)

Appropriate boundaries shall be maintained between students and school employees, adult volunteers, and school contractors, and among and between adults employed, volunteering, or under contract with the district, in accordance with Board Policy 4119.21/4219.21/4319.21 - Professional Standards and Board Policy 4119.24/4219.24/4319.24 - Maintaining Appropriate Adult-Student Interactions.

In addition, school facilities, including classroom and nonclassroom environments, shall be constructed and furnished in order to promote safe environments for learning and engagement that are easily supervised by district staff. (Education Code 32100)

The Superintendent or designee shall ensure that students receive appropriate instruction on topics related to safety and emergency procedures, as well as injury and disease prevention.

Crossing Guards/Student Safety Patrol

To assist students in safely crossing streets adjacent to or near school sites, the Board may employ staff and/or establish a student safety patrol at any district school. The Superintendent or designee shall periodically examine traffic patterns within school attendance areas in order to identify locations where crossing assistance may be needed.
