

Academic Achievement Goals

District Level

The mission of Claiborne County Schools is to provide our students an opportunity to receive a high quality academic education and career and technical experience which will enable them to continue their education or enter employment upon graduation from high school.

School Level

Our students will acquire the skills necessary to succeed at their grade level which will enable them to become life-long learners. By uniting parents, faculty, and community members, we will utilize our community resources to their fullest to help us achieve this goal.

As a school, we will...

- Develop homework assignments that will allow parents to participate in their child's learning.
- Welcome parent feedback to the teachers about assignments and student learning.
- Post student assignments on our Google Classroom to keep parents connected to their child's school work.
- Post grades and notes on ASPEN Portal so parents and students can monitor grades and attendance
- Provide parents access to our interactive Homework Hotline which is fantastic and free!
