

SECOND GRADE

Subject	Objectives	Resources
Bible	• Learn God created people to be His children to praise His glory and how He created people to need Him for everything. • Explore how sin causes separation and disharmony between people and God and how Jesus died to restore fellowship and harmony between people and God. • Engage in activities teaching the character traits of joy, trust, humility, and compassion. • Focus on God's Word, specifically the Books of Exodus, the Egyptian captivity, Moses, and wandering in the wilderness.	Summit Ministries Building on the Rock Grade 2
Language Arts	• Explore the world of reading, comprehension strategies, writing, speaking, and listening and how we can use these skills to honor God. • Engage in language learning activities and gain an intuitive sense of language structure. • Grammar: parts of speech (nouns, verbs, etc.), sentence structure, and mechanics (capitalization, punctuation). • Explore the writing process (Plan, Draft, Revise, Proofread, Publish) in various writing genres/projects such as friendly letters, make-believe stories, instructions, personal narratives, and a research report.	Harcourt Trophies Grade 2 BJU English 2 A Reason For Handwriting- Level B IXL Learning A-Z
Mathematics	• Large whole numbers (up to 1,000), addition and subtraction within that range. • Use of <i>bar models</i> to represent addition and subtraction & help with word problems. • Multiplication and division basics, including multiplication tables. • Measurement: length, mass; also, time and money (telling time, understanding coins). • Data: graphs, line plots; shape and geometric understanding.	Math in Focus (Singapore Math)
Science	• Build on knowledge of science and scientific concepts. • Apply knowledge of comparison, contrast, describe, identify, etc. • Identify the existence of science in the world.	BJU Science 2

SECOND GRADE

Subject	Objectives	Resources
Social Studies	• Study both the past and present local community. • Explore United States history with a focus on Colonial America, and national holidays and symbols. • Explore the geographical relationship between the physical environment and human activities, continue to develop map and globe skills. • Expand understanding of economic concepts on money, goods and services, and trade. • Utilize historical analysis skills to interpret data and timelines.	Abeka: Our America History/Geography Reader

In addition to the six core subjects, second graders attend special's classes once/twice a week on a four-day rotation.
