SCHOOL-to-HOME CONNECTIONS

Chapter 8

Addition and Subtraction Within 40

Dear Family,

In this chapter, your child will add and subtract within 40. Skills your child will practice include:

- adding with and without regrouping
- subtracting with and without regrouping
- solving real-world problems involving addition and subtraction
- relating repeated addition to multiplication

Math Practice

At the end of this chapter, you may want to carry out these activities with your child. These activities will help to strengthen your child's understanding of addition and subtraction within 40. Take turns playing. Lead the first round to show your child how to play.

Activity 1

- Make a number chart up to 40 as shown on the next page or go online to print a free hundreds chart and cut off the extra rows.
- Gather a counter and a number cube.
- Put a counter on any number up to 34.
- Roll the number cube and count on to add.
- Remove the counter before your child leads the next round.

Activity 2

- Make a number chart up to 40 as shown on the next page or go online to print a free hundreds chart and cut off the extra rows.
- Gather a counter and a number cube.
- Put a counter on any number up to 40.
- Roll the number cube and count back to subtract.
- Remove the counter before your child leads the next round.

Math Talk

Write an addition problem using a 2-digit number and a 1-digit number, such as 18 + 4. Ask your child to demonstrate how to **count on by ones** from the greater number 18 to find the answer 22. Then write a subtraction problem, such as 23 – 4. Ask your child to demonstrate how to **count back by ones** from the greater number to find the answer 19.
