SCHOOL-to-HOME CONNECTIONS

Chapter 10

Numbers to 120

Dear Family,

In this chapter, your child will work with numbers to 120. Skills your child will practice include:

- counting from 41 to 120
- reading and writing from 41 to 120 in numbers and in words
- using a place-value chart to show numbers to 100
- representing numbers to 100 as tens and ones
- comparing and ordering numbers to 100

Math Practice

At the end of this chapter, you may want to carry out this activity with your child. This activity will help to strengthen your child's number sense.

Activity 1

- Gather 120 plastic straws and 12 rubber bands.
- Scatter the straws on a flat surface and have your child make bundles of 10, using a rubber band to secure each bundle.
- Remove the rubber band from one bundle of 10 to make 'ones'.
- Select any number of bundles and any number of ones and ask your child to count, starting with groups of 10.
- Repeat the above step several times.

Math Talk

Scatter paper clips or other small identical objects on a flat surface. Ask your child to help you make groups of 10, calling them by name. Begin with **ten**, **twenty**, **thirty**, and continue through **one hundred and twenty**.
