The SBG REFRESHED Proficiency Scale

The scale describes the evidence, not the student.

4	**Exceeds Expectations**	The student consistently demonstrates what students are expected to learn at this grade level and successfully applies the learning in new or unfamiliar situations. The student may also connect the learning to other subjects or real-world situations.
3.5	**Above Proficient** *High School Only*	The student consistently demonstrates what students are expected to learn at this grade level and shows some success with more advanced work.
3	**Proficient**	The student demonstrates what students are expected to learn at this grade level and shows the knowledge and skills needed to meet the learning goal.
2.5	**Approaching Proficiency** *Secondary Only*	The student demonstrates part of what students are expected to learn at this grade level but has not yet shown consistent understanding of all parts of the learning goal.
2	**Partially Proficient**	The student demonstrates some basic understanding, building-block skills, or key words but is not yet meeting what students are expected to learn at this grade level.
1	**Does Not Yet Meet the Learning Goal**	The student does not yet demonstrate the basic understanding and skills needed to meet what students are expected to learn at this grade level. The student needs additional instruction and support.
IE	**Insufficient Evidence**	There is not yet enough completed evidence to determine the student's level of proficiency. This may result from missing or incomplete assessments or assignments.
