VARSITY FOOTBALL AT ELLIS STADIUM

Visiting Team Procedures:

- Visiting teams will be responsible for supplying their own water bottles &/or cups.
- One 50-gallon Frio Hydration unit will be provided for the visiting sideline. It is in the visiting athletic trainer facility should you choose to fill and use it.
- A large tub for cold water immersion will be set up in the home athletic training facility to be utilized in the event of exertional heat stroke when heat protocols are in place.
- A misting fan will be provided on your sideline when heat protocols are in place. If it isn't already set out on the sideline, it will be located just inside the door of the field house. If you use it, please ensure the tank stays full so as not to burn up the pump.
- EMS will be on site for all varsity games & stationed in the southeast corner of the field. The Coordinator of Sports Medicine or the home team athletic trainers will carry a radio to communicate with EMS should they be needed on the field.
- A team physician will be on the home sideline for all games.
- There is an athletic training facility in the same hallway as the locker rooms designated for the visiting team. You will have a sink, exam & taping tables, an ice machine and a water source in this facility.
- There are water and electrical connections on the visiting sideline. Please give advance notice if you will need water hoses or extension cords provided.
- There is a large iron table on the visitor sideline. There are also a folding tables in the hallway of the field house that you may take out if needed. Please be sure to return it inside after the game.
- There will be a cart designated for the visiting team to transport equipment to the sideline.
- In the event of inclement weather, the visiting team will be directed to their locker room to allow for shelter.
- The visiting team will have a designated entrance/exit separate from the fans and home team. From Sixth Street, you will enter through the east parking lot and drive behind the visiting stands (towards the scoreboard/field house). There will be a manned gate in the southeast corner that leads to a parking lot on the east side of the field house. This is where you and your team will park. Your locker room is on the east side of the field house.
- The closest emergency department is BSW Irving and is 3 miles away from the stadium. The closest level 1 trauma emergency departments are Children's Dallas or Parkland Hospital and both are 6.5 miles away from the stadium.
