

MOORPARK UNIFIED SCHOOL DISTRICT
RFQ# 2027-01
Architecture and Engineering Services
ADDENDUM NO. 1
September 28,2026

This Addendum forms a part of and modifies the Request for Qualifications ("RFQ") 2027-01 Architectural and Engineering Services dated April 29, 2026 and subsequent addenda.

Requests For Information and Responses

1. QUESTION 001: Regarding the SOQ submittal due date. Item I lists October 13. Page 2, Item II lists October 15. Can you please clarify the due date?

RESPONSE: The SOQ submittal date is Oct. 15, 2026.

2. QUESTION 002: The RFQ states that the District seeks to establish a pool of qualified architectural and engineering firms providing services including Architectural, Mechanical, Electrical, Civil, Structural, and Landscape Architecture. It also later references firms submitting for specialty work. However, the RFQ also states that the District intends to establish a pool of qualified architects. Would you please clarify whether an engineering firm may submit directly as a prime respondent for engineering services only, such as mechanical and electrical engineering, or whether engineering firms are expected to participate as subconsultants to an architectural prime?

RESPONSE: An engineering firm may submit an SOQ as a Prime and/or as a subconsultant. The engineering firm shall clarify if they are submitting as a prime, subconsultant or both.
