

East Aurora Preschool Program

Collective Agreements

We support individual student needs by cultivating a positive relationship with each student.

We create a play-based environment that promotes biliteracy and an educational foundation for optimal academic and developmental growth.

We establish authentic relationships and communicate with families to build a home-school partnership, while embracing all essential participants to foster a lifelong educational journey for every child.

We maintain a learning community that promotes professional reflection, adaptation and implementation of best practices to ensure we are preparing students for the future.
