Maintenance Task Summary

Information from Chris Grammar (HES)

- “The HES maintenance staff has still been busy completing numerous work orders and helping personnel in the schools.
- Painting projects have been done in Riverdale, Nottoway, High School, Middle School, and Central Office.
- They've had to help new staff move from one office to another and, in other cases, one school to another.
- They've been responding to plumbing issues, power issues, HVAC issues, and other concerns.”

Current K-12 Enrollment Data – 2187

School	Students Projected	Students - 7/31/26
Capron Elementary	162	162
Meherrin Elementary	204	196
Nottoway Elementary	199	204
Riverdale Elementary	516	471
Southampton Middle	456	479
Southampton High	650	612
TOTALS	2187	2124

Maintenance Task Summary – July 1, 2026 through August 10, 2026

Information from Dr. Thompson

Location	Issue	Action Steps
Nottoway Elementary	Air compressor burned out, which caused the fire alarm to go off, which caused the sprinkler system to leak and flood the mechanical room.	Principal Kea was able to turn off the sprinkler system, and HES Maintenance staff cleaned up the water in the classrooms. HES was not able to fix the air compressor, so Dr. Thompson called Old Dominion to repair the compressor and sprinkler pipe.
Meherrin Elementary	Water intrusion (my assumption is that it is due to improper drainage), which occurs after large rains, which causes water to seep up into the classroom floors and now tiles are popped up	Principal Fowler has submitted a work order for new flooring. Note: Principal Fowler explained to Dr. Thompson that repairs have not yet been completed in the Cafeteria from the malfunction in the sprinkler system that occurred in Spring 2026 and caused building to flood. (Remediation was completed and invoiced on 6/16/26).
Riverdale Elementary	Sewer line backed up into 2 classrooms and one hallway	Mr. Clements and Dr. Thompson called HES maintenance to report and custodians at Riverdale to remove all water from classrooms and clear the line.
Capron Elementary	Toilets need to be replaced and was directed to do the replacement in July 2026; however, the needed supplies were not sent to Dr. Thompson to order until	Dr. Thompson and Mr. Clements and Mrs. Harrell ordered the supplies, which will be shipped to Capron for installation.
