Curriculum

Special Programming - Legacy 2000 (L2K)

L2k is a rigorous four-year program designed to develop the tangible and intangible skills and experiences that assist students interested in preparing themselves for a career involving mathematics, science, and technology. The four-year course objectives include career and technology exploration, research practice, job shadowing, and a final project presentation. This project encapsulates real-world experience, professional codes of conduct, and adherence to the regulations and procedures inherent to successful companies.
