Verona Area School District
Employee Health Clinic
in partnership with SSM Health at Work

EMPLOYEE HEALTH CLINIC PROVIDER BIOS

Primary Care Provider
Dan Shapiro *(scheduling available Monday - Wednesday and every other Friday)*
My clinical experience spans over 10 years in both urgent care and primary care settings, though my passion for helping fellow humans has been lifelong. I live in Sun Prairie with my high school sweetheart (Amy) who is a special education teacher at Henderson Elementary in the MMSD, our 4-year-old son (Jack), and two small dogs (Olaf the newly-blind Pug and Pearl the spastic Chihuahua). Outside of work, I love anything outdoors, particularly when it involves my family and dogs. I am quite physically active, and I have played a variety of stringed instruments since middle school.

Primary Care Provider
Joan Uminski *(scheduling available Monday, Wednesday, Thursday and every other Friday)*
As the daughter, granddaughter, and goddaughter of Wisconsin elementary school teachers, connecting with families and providing medical education is one of the most rewarding parts of her work as a family practice PA. Joan brings more than 15 years of experience providing outpatient primary and urgent care in the Madison area. She graduated from UW-Madison and earned her Physician Associate degree and Master of Medical Science from Yale School of Medicine. She lives with her son, daughter, and two very well-traveled dogs. Her family is always ready to head “up north” to northern Wisconsin or hit the road to discover their next national park together.

Behavioral Health Provider
Amanda Parker
I bring a background in mental health that spans emergency and crisis response, integrated care in medical clinics, and community-based services. Over the years, I’ve worked in hospitals, non-profits, and private practice, supporting individuals and helping shape systems of care. My approach is relational and trauma-informed, and I love collaborating with others to create meaningful change. I’m looking forward to getting to know everyone and being part of this incredible community!

Registered Nurse
Brenna Dwyer
Hello! My name is Brenna and I have been a registered nurse for 6 years. I recently moved back to Wisconsin after spending the last 3 years in Oregon. I've worked in different settings over the years including the hospital, urgent care and the clinic. In my free time I enjoy biking, cooking, making jewelry, paddleboarding and going on adventures with my pup, Henry. I'm super excited for this opportunity to work with the Verona Area School District and look forward to meeting new faces!

Medical Assistant
Aneysha Cupp
I've been a Medical Assistant for the past 7 years and am passionate about providing care to people to make them feel comfortable and giving them a positive experience. When I’m not working, I like to spend time outdoors with friends, family, and my dog. I am very excited to be a part of the Verona Area School District and look forward to contributing to your healthcare!
