Introduction of all members and what SHAC is

Healthy School Environment/Policy

- Discussion of the Landon Payton Act (Senate Bill 865) which is a Texas law that must be implemented in the 2026-2027 school year. This mandate focuses on the schools cardiac emergency preparedness. Campus nurses are working with Cooks Children's through Project Adam to become a certified Heart Safe School. Many of the protocols listed in the senate bill are already in place for the district such as certain employees being CPR certified, monthly AED checks, Cardiac Emergency Response Plan (CERP) in place. Nurses are working with campus admin on identifying an emergency response team for each campus with individualized roles, and conducting two cardiac emergency response drills.

Counseling/Guidance

- Red Ribbon Week October 26-30th. Each campus will host activities that will focus on substance abuse prevention, promoting healthy lifestyle choices, and organizing age-appropriate student engagement initiatives during the week. Middle school will have a presentation by Buffy "Mr. Magic" Coleman, a motivational speaker to educate students on drug awareness and healthy living.
