

Mr. King

Howdy! I'm Mr. King. This will be my first full year at WMS. I joined the team last school year mid-way through, and I am beyond stoked to be back teaching 8th Grade Math. I value problem solving and critical thinking in the classroom, and supporting students with their own learning autonomy. Establishing a space where they can feel belonging, grow through learning, and achieve their potential is a huge goal of mine.
