POLICY STATEMENT

This policy applies to Bury Grammar School ("the School") which includes the EYFS setting. This policy is reviewed and updated annually (as a minimum) and will also be reviewed whenever there are changes to statutory guidance, local safeguarding arrangements or school procedures and is available on the School website <https://www.burygrammar.com/about-us/current-policies>.

This policy has regard to the following guidance and advice:

- *Keeping Children Safe in Education* (September 2026) (KCSIE)
 - *KCSIE incorporates the additional statutory guidance Disqualification under the Childcare Act 2006* (September 2018)
 - *KCSIE also provides links to various toolkits and additional advice and support*
- *Working Together to Safeguard Children* (March 2026) ("WT")

- Information Sharing Duty: Statutory guidance for safeguarding organisations and their practitioners (September 2026), relating to the new information sharing duty under section 16LA of the Children Act 2004, as inserted by the Children's Wellbeing and Schools Act 2026.
- *Prevent duty guidance: Guidance for specified authorities in England and Wales December 2023.* Prevent is supplemented by a briefing note:
 - *How social media is used to encourage travel to Syria and Iraq (July 2015)*
- *Relationships Education, Relationships, and Sex Education (RSE) and Health Education (September 2021).*
- *Behaviour in schools (February 2024)*
- *Working together to improve school attendance: statutory guidance for maintained schools, academies, independent schools and local authorities (July 2026)*
- *Children Missing Education (August 2024)*
- *Digital and technology standards in schools and colleges (March 2025)*
- Filtering and Monitoring Standards for Schools and Colleges (DfE)
- *After school clubs, community activities, and tuition (safeguarding guidance for providers) (September 2023)*
- The Charity Commission guidance *Safeguarding and protecting people for charities and trustees* (June 2022)
- *Early Years Foundation Stage Statutory Framework for group and school-based providers (September 2026)*
- *Human Rights Act 1998 and UN Convention on the Rights of the Child*
- *The Children's Wellbeing and Schools Act 2026*

This policy also takes into account the procedures and practice of Bury Council as part of the multi-agency safeguarding arrangements set up by the Bury Safeguarding Partnership. This policy will be implemented from 1 September 2026 and reflects the statutory requirements of Keeping Children Safe in Education 2026. It will be reviewed earlier than the annual review cycle should statutory guidance or local safeguarding arrangements change.

Safeguarding concerns rarely occur in isolation and staff will consider the child's lived experience, wishes and feelings alongside any presenting concern. Effective safeguarding requires professional curiosity, timely information sharing and collaborative working with families and partner agencies.

EQUALITY ACT 2010

The School understands and recognises their obligations under the Equality Act and that the School must not discriminate against pupils because of a protected characteristic including sex, race, disability, religion or belief, gender reassignment, pregnancy, maternity, or sexual orientation. In the context of safeguarding, the School will consider how to support pupils with regard to particular protected characteristics in order to meet their specific needs. The School will also consider their duty to make reasonable adjustments for disabled pupils.

The School also complies with its legal duties under the Equality Act 2010, including putting special provision in place to support dialogue with children who may not be able to convey their wishes and feelings as they may want to. This might include, for example, those who have communication difficulties and those who do not speak English or for whom English is not their first language.

The School recognises that children with protected characteristics, disabilities, communication needs, neurodivergence or additional vulnerabilities may face additional barriers to recognising, disclosing or reporting abuse. Staff will take account of individual needs when planning safeguarding responses. Staff should recognise that abuse may present differently in children with SEND, communication needs, neurodivergence, socio-economic disadvantage or other protected characteristics, and should avoid making assumptions that may prevent concerns from being recognised or acted upon.

CONCERNS ABOUT A CHILD

The School has a duty to consider at all times the best interests of the pupil and take action to enable all pupils to achieve the best outcomes. Safeguarding and promoting the welfare of children is everyone's responsibility. The School adopts a 'whole school' approach to safeguarding. This means involving everyone in the School or college, and ensuring that, safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development.

Parents are encouraged to raise any concerns directly with the School, if necessary, using this safeguarding policy for concerns about the safety and/or welfare of children. Parents may contact the ISI directly if they wish.

Where concerns do not meet the threshold for statutory intervention, the DSL will consider whether Family Help, targeted Early Help or other community-based support would better meet the child's needs.

The School adopts a **WARM** approach when dealing with concerns for a pupil's welfare:

- **Welfare concern raised on CPOMS or directly to DSL**
- **Assessment by DSL**
- **Response** No action; continued monitoring; pastoral support; referral for Family Help support or referral to the Multi-Agency Safeguarding Hub (MASH), Strategy Discussion
- **Monitoring** (until it is deemed that the referral can be closed).

Usually, concerns are resolved quickly and sensitively through discussion with the pupil and/or parent.

The School will consider whether a family group decision-making forum is appropriate to determine the help and support the family network can provide for a pupil where concerns have been raised about their safety or wellbeing.

DEFINITIONS OF CHILD PROTECTION AND SAFEGUARDING AND TYPES AND SIGNS OF ABUSE

Safeguarding and promoting the welfare of children is defined as providing help and support to meet the needs of children as soon as problems emerge; protecting children from maltreatment, whether that is within or outside the home, including online; preventing impairment of children's mental and physical health or development; ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and taking action to enable all children to have the best outcomes. Child protection is part of safeguarding and promoting the welfare of children and is defined as activity that is undertaken to protect children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online.

No single practitioner can have a full picture of a child's needs and circumstances. All staff therefore have a responsibility to identify concerns, share information promptly and take appropriate action so that children receive the right help at the right time.

Abuse is a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse, including where they see, hear or experience its effects. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (e.g. via the internet). Abuse can take place wholly online, or technology may be used to facilitate offline abuse. They may be abused by an adult or adults or by another child or children. Abuse can be:

- physical abuse;
- emotional abuse;

- sexual abuse; and/or
- neglect.

Children may also be harmed through exploitation, including child criminal exploitation (CCE), child sexual exploitation (CSE), financial exploitation, modern slavery and trafficking. Exploitation is a form of abuse and may occur alongside other forms of abuse or neglect. Staff should always consider whether exploitation is a feature of any safeguarding concern.

Staff should be aware that abuse, neglect and exploitation are rarely standalone events and that multiple safeguarding issues often overlap. Assessments should therefore consider the wider context of a child's life and experiences.

Staff are referred to Appendix 1 of this policy for further detail of the types of abuse and possible signs of abuse, as well as further information regarding specific safeguarding issues such as child criminal and/or sexual exploitation.

PROCEDURES FOR DEALING WITH CONCERNS ABOUT A CHILD

If any member of staff has a concern about a child's welfare, however small, or receives a disclosure or allegation of abuse, neglect or exploitation from a child or any other person, they must act immediately in accordance with this policy. Staff must not assume that somebody else will take action and should share information promptly where it may be critical to keeping a child safe. Staff should also remain alert to patterns of low-level concerns which, when viewed collectively, may indicate that a child is experiencing abuse, neglect, exploitation or unmet needs requiring further assessment.

If you have a concern about a pupil, no matter how small, you should report these concerns at the earliest opportunity using CPOMS or directly to the DSL. The DSL will review the concern and assess the child's needs and level of risk with reference to the current Bury Safeguarding Partnership local safeguarding arrangements and Continuum of Need, applying professional judgement to determine the most appropriate response.

- **Level 1** - represents children with no identified additional needs. Their needs are met through universal services.
- **Level 2** - represents children with additional needs that requires specific support in addition to universal services. Usually involves a single agency.
- **Level 3** - represents children with additional and complex needs requiring co-ordination of multi-agency help and support by a Lead Professional.
- **Level 4** - represents children with additional, complex needs, including potential risk requiring an assessment of need, a multiagency plan developed with the family and a social work lead professional coordinating multiagency help and support.

- **Level 5** - represents children with additional, complex needs, including risk at the highest level of vulnerability that will be met by multi-agency support from specialist services led by Social Care (Safeguarding/Looked after Children).

Bury Continuum of Need

Children may enter any level at any age or stage of development and may move between levels as their circumstances and needs change. Thresholds should not be viewed as fixed and professional judgement should always be exercised when determining the most appropriate safeguarding response.

- i. In most cases it is anticipated that following the assessment a single agency approach will be sufficient to resolve the concern and the School will normally aim to contact the parents/guardians at an early stage in an attempt to work together to address the concern.
- ii. Where a welfare issue remains unresolved or where it is clear that there are additional unmet needs or that a multi-agency approach will be required, the School will consider working with the family using a Family Help Assessment. This may result in a Team Around the Family Meeting (TAF) at a later stage involving professionals from additional agencies to ensure that all agencies are fully aware of the unmet needs, share appropriate information and decide upon how best to proceed. The use of Family Help assessment and support will usually require consent and cooperation from parents and the pupil and a member of staff acting as the lead professional.
- iii. From 30 September 2026, the School will comply with the statutory information sharing duty introduced by the Children's Wellbeing and Schools Act 2026 and contained in section 16LA of the Children Act 2004. The duty applies where the School holds information about a child, or information about another individual which relates to a child, and considers that information relevant to safeguarding or promoting the welfare of a child. Where the duty applies, the School must share relevant information with another organisation or practitioner within scope of the duty where the School considers that disclosure may facilitate the recipient in assessing need or risk, making a decision, providing support or taking action to safeguard or promote the welfare of a child.
The information sharing duty is not dependent upon a child reaching a particular level of the Continuum of Need or a threshold of significant harm. Relevant information may therefore need to be shared in relation to emerging or additional needs and Family Help, as well as where there are child protection concerns.
When considering whether the statutory information sharing duty applies, the School will consider:

- whether the information is relevant to safeguarding or promoting the welfare of a child
- whether sharing the information may facilitate the recipient's relevant safeguarding or welfare functions
- whether, exceptionally, sharing the information would be more detrimental to the child than not sharing it.

Where these criteria are met, relevant information will be shared. Consent from a parent/carer or child is not required for information sharing under the statutory duty. This is distinct from consent or agreement to participate in a particular service or intervention, which may still be required

Wherever it is safe, appropriate and practicable, the School will be open and transparent with the child and/or their parents/carers about what information is being shared and why. The wishes and feelings of the child will be taken into account, where known, but the child's safety and welfare remain paramount.

A decision not to share information because disclosure is considered more detrimental to the child than not sharing it should be exceptional. The decision and rationale must be clearly recorded and kept under review.

iv. Where, on balance, the child's situation is not improving despite Family Help assessment and support the DSL will review the level of need and consider whether further Family Help support or a referral to local authority children's social care is required. Consent and cooperation will normally be sought for participation in Family Help services where this is required. However, consent to participate in a service is distinct from consent to share information. Where the statutory information sharing duty applies, relevant safeguarding and welfare information will be shared in accordance with that duty whether or not consent to information sharing has been provided. A referral may therefore include relevant information shared under the statutory duty without consent where the criteria for the duty are met. All decisions and the rationale for them will be recorded.

v. Where on balance, the assessment is that the concern no longer exists because steps have been taken to successfully address the concern, the welfare log will be endorsed on CPOMS. The concern could be opened again should the situation worsen

Information Sharing

The School will have regard to *Information Sharing Duty: Statutory guidance for safeguarding organisations and their practitioners* (Department for Education,

September 2026), relating to the statutory information sharing duty introduced by the Children's Wellbeing and Schools Act 2026 and contained in section 16LA of the Children Act 2004.

The governing body recognises that effective information sharing between practitioners and local agencies is essential for safeguarding and promoting the welfare of children. No single practitioner may hold the complete picture of a child's circumstances and information which appears limited or inconclusive when considered in isolation may become significant when combined with information held by another organisation.

The School will therefore consider relevant information holistically and will not delay or withhold information solely because:

- A concern does not meet a particular level of the local Continuum of Need;
- There is not yet evidence or suspicion of significant harm;
- The information appears low-level or inconclusive when viewed in isolation;
- A parent/carers or child has not consented to information sharing; or
- The School does not itself hold a complete safeguarding picture.

The information sharing duty applies both where the School proactively identifies information that should be shared and where the School receives a request for relevant information from another organisation or practitioner within scope of the duty.

Relevant information may relate directly to a child or may concern another individual connected to a child, including a parent/carers, sibling, peer or other adult or child, where that information is relevant to safeguarding or promoting the welfare of a child.

This includes information about a child who may pose a risk to another child. Information will not be withheld solely because the child to whom the information relates is not themselves considered to be at risk. The School will take a holistic approach to safeguarding and promoting the welfare of all children involved.

Requests for safeguarding information should normally be referred promptly to the DSL or a DDSL. The School will establish, as appropriate, the identity and role of the requestor, the safeguarding or welfare purpose for which the information is sought, and what information is relevant and proportionate to that purpose.

Where the statutory criteria are met, relevant information will be shared without unnecessary delay.

The statutory duty requires the sharing of relevant information and does not necessarily require the disclosure of an entire case file, pupil file or CPOMS record. Where an extract, summary or specified information is sufficient to meet the safeguarding or welfare purpose, the School will share that information rather than unnecessarily disclosing a complete record.

Information will be shared securely, lawfully and proportionately and in accordance with applicable data protection legislation. Appropriate safeguards, access controls and governance arrangements will be maintained to protect personal information.

Wherever safe, appropriate and practicable, the School will be transparent with children and/or parents/carers about information that has been shared and why. Transparency with families should not be confused with seeking consent where consent is not required.

The child's wishes and feelings, where known, will remain under active consideration when decisions are made about information sharing, but their safety and welfare will be paramount.

Where the School receives information under the statutory information sharing duty, it will only use that information for the safeguarding and welfare purpose for which it was shared unless further processing is otherwise permitted by law.

If staff are in doubt about information which may need to be shared, they must speak promptly to the DSL or a DDSL.

Information sharing should always be necessary, proportionate, relevant, accurate, timely, lawful and secure, and should never be delayed where doing so may place a child at risk of harm.

The governing body will ensure that staff understand the relevant data protection principles which allow them to share (and withhold) personal information, including:

- being confident of the processing conditions which allow them to store and share information for safeguarding purposes, including information, which is sensitive and personal and should be treated as 'special category personal data'
- understanding that data protection law does not prevent the lawful sharing of personal information for safeguarding and welfare purposes, including special category personal data where the appropriate lawful basis and processing condition are met.
- Consent is not required for information sharing under section 16LA of the Children Act 2004 where the statutory criteria are satisfied. Where it is safe, appropriate and practicable to do so, the School will be open and transparent with children and parents/carers about information sharing, but will not seek or

present consent as a prerequisite to fulfilling the statutory information sharing duty.

- Not providing pupils' personal data where the serious harm test is met.

All staff should:

- listen carefully
- avoid asking leading questions
- observe their behaviour
- reassure the individual that the allegation/complaint will be taken seriously and that they will be supported and kept safe
- ensure that the individual is not made to feel ashamed for making the report or given the impression that they are creating a problem by making the report
- not guarantee absolute confidentiality (as this may ultimately not be in the best interests of the child) and explain that the information needs to be passed to the appropriate person who will ensure that the correct action is taken
- be aware that the individual may not feel ready or know how to tell someone that they are being abused, exploited or neglected, and/or may not recognise their experiences as harmful.
- build trusted relationships with children and young people to encourage communication and disclosure.
- maintain professional curiosity throughout, recognising that abuse, neglect and exploitation rarely present as isolated incidents and that children may not always recognise or be able to communicate what is happening to them.

All concerns, discussions, and decisions (including the rationale for those decisions) made under these procedures should be recorded on CPOMS. This includes instances where referrals were or were not made to another agency, such as children's social care or the Prevent programme. This will help if/when responding to any complaint about the way a case has been handled. The record should include a clear and comprehensive summary of the concern, details of how the concern was followed up and resolved and a note of any action taken, the decision reached and the outcome. A guide to record keeping and CPOMS is provided at Appendix 2.

Where information has been shared externally, or a decision has been made not to share information, the safeguarding record should also record, where appropriate:

- What information was considered;
- Why the information was considered relevant to safeguarding or promoting the welfare of a child;
- The organisation or practitioner with whom information was shared or from whom a request was received;

- How sharing may facilitate the recipient's safeguarding or welfare functions;
- What information was actually disclosed;
- Any consideration of whether disclosure could be more detrimental to the child than non-disclosure and any steps taken to mitigate potential detriment;
- The child's wishes and feelings, where known;
- Whether the child and/or parent/carer was informed and, where they were not informed, the reason; and
- Any acknowledgement, feedback, outcome or further safeguarding action arising from the information sharing.

Decisions not to share information under the statutory duty should be exceptional and the rationale must be clearly recorded and kept under review.

The DSL will regularly review safeguarding records and chronologies to identify cumulative concerns, recurring themes, patterns of behaviour or escalation of risk, ensuring that safeguarding decisions are informed by the child's lived experience over time rather than isolated incidents.

Records should be factual, accurate, timely and include the rationale for decisions made, actions taken, outcomes and any professional challenge or escalation where disagreement exists between agencies.

The information should be kept confidential and stored securely, ensuring that the file is only accessible to those who need to see it, and is shared in accordance with the guidance set out in Parts one and two of *KCSIE*.

Where the allegation relates to harmful sexual behaviours, if possible, the disclosure should be managed with two members of staff present (preferably one of them being the DSL or their deputy).

Where there is a safeguarding concern, the School will ensure the pupil's wishes and feelings are taken into account when determining what action to take and what services to provide. This is particularly important in the context of harmful behaviours, such as sexual harassment and sexual violence. The School manages this by ensuring that there are systems in place, that are well promoted, easily understood and easily accessible for children to confidently report abuse, knowing their concerns will be treated seriously, and knowing they can safely express their views and give feedback.

The School implements a child-centred approach to safeguarding. Whilst the School are committed to working collaboratively, and in partnership, with parents and carers as far as possible the wishes and feelings of the child and what is in their best interest is always central to the School's decision-making process.

The School will ensure that pupils are listened to, taken seriously and supported to participate in decisions affecting them wherever appropriate. Staff will recognise that some pupils may communicate their wishes and feelings through behaviour, attendance, presentation or emotional wellbeing rather than direct disclosure and alert to non verbal communication, particularly for EYFS children, those with SEND, ASC and other communication needs.

The school recognises that children may experience prejudice-based harm, including racism, faith-based prejudice, and other forms of discrimination. Such experiences may affect a child's welfare, wellbeing, mental health, and willingness to seek help. Staff should be alert to the signs and impact of prejudice based harm and ensure that concerns are considered within safeguarding practice where appropriate.

CONTEXTUAL SAFEGUARDING

Safeguarding incidents and/or behaviours can be associated with factors outside the School and can occur between children outside school. All staff, but especially the DSL and any deputies, should consider the context within which such incidents and/or behaviours occur. The School will as part of the wider assessment of children, consider whether environmental factors are present in a child's life that are a threat to their safety and/or welfare. The School will share as much information with Children's Social Care as possible as part of the referral process to enable consideration of all the available evidence and the full context of any abuse.

The DSL will consider whether concerns are linked to extra-familial harm, including peer groups, online spaces, public places, transport routes, community locations- e.g., parks, shopping centres, fast food outlets, exploitation, serious youth violence, harmful sexual behaviour or other risks outside the family home.

The School recognises that extra-familial harm is a form of contextual safeguarding and that effective safeguarding responses may require partnership working beyond the family, including with children's social care, police, health services and other safeguarding partners.

FAMILY HELP

Any child may benefit from additional support at any stage in their life. However, some children have an increased risk of abuse, neglect or exploitation because of their individual needs, family circumstances or wider environmental factors.

- Is disabled or has certain health conditions and has specific additional needs
- Has special educational needs (whether or not they have a statutory education, health, and care plan)
- Has a mental health need
- Is a young carer
- Is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement as association with organised crime groups or county lines
- Is frequently missing/goes missing from education, home or care
- Is misusing drugs and/or alcohol themselves
- Is at risk of modern slavery, trafficking, and/or sexual or criminal exploitation
- Is in a family circumstance presenting challenges for the child, such as substance abuse, adult mental health problems or domestic abuse
- Is at risk of being radicalised or exploited
- Has a parent or carer in custody, or is affected by parental offending
- Is a privately fostered child
- Is at risk of 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage
- Is pregnant and/or a parent
- Has exhibited early signs of abusive, violent or harmful behaviour
- Has been repeatedly removed from the classroom, experienced multiple suspensions, is on a part-time timetable or is at risk of permanent exclusion or in Alternative Provision or a Pupil Referral Unit
- Has certain medical conditions requiring additional safeguarding consideration
- Children living in temporary accommodation or homelessness

Family Help means providing support as soon as a problem emerges at any point in a child's life. This may include community-based Family Help and targeted early help services or other multi-agency support, depending on local thresholds and the child's needs. The School will follow Bury Safeguarding Partnership arrangements and will work with families and partner agencies to provide or access the right support at the right time.

The School has effective measures in place to identify emerging problems and potential unmet needs of individual pupils. All staff undertake appropriate training to ensure that they know when to share information with other agencies and what action to take to support early identification and assessments.

In the first instance, staff identify a pupil who may benefit from family help and should discuss this with the School's DSL. If appropriate, the DSL will work with the Bury Safeguarding Partnership to undertake an assessment of the need for Family Help support. The DSL will support staff in liaising with external agencies and professionals in an inter-agency assessment, as appropriate. Further guidance on Family Help can be found in Working Together to Safeguard Children (2026)

Where Family Help support is provided, the School will work with the relevant lead practitioner or professionals involved to ensure that support is coordinated, reviewed and focused on improving outcomes for the child. The matter will be kept under review and consideration given to a referral to children's social care if the pupil's situation does not appear to be improving.

YOUNG CARERS

The School recognises that a young carer is a child or young person who provides care for, or intends to provide care for, another person. Young carers may have additional needs arising from their caring responsibilities and these responsibilities may affect their physical or mental health, wellbeing, attendance, educational attainment and/or development.

Staff should remain alert to circumstances which may indicate that a pupil has caring responsibilities, including where these have not previously been identified or disclosed. Where a young carer may require additional support, the DSL will consider the child's needs and circumstances and, where appropriate, work with the child, their family and relevant local services to identify and provide appropriate support, including Family Help.

CHILDREN WITH MEDICAL CONDITIONS

The School recognises that children with certain medical conditions may have additional safeguarding needs. A medical condition may increase a child's dependency on adults, affect their ability to recognise or communicate abuse, neglect or exploitation, or create additional barriers to disclosure.

Staff will consider a child's medical needs alongside any wider safeguarding information and will remain alert to changes in attendance, presentation, behaviour, treatment or care which may indicate an unmet need or safeguarding concern. Where appropriate, the DSL will work with parents and carers, health professionals and other relevant agencies to ensure that safeguarding and medical needs are considered together.

WHAT STAFF SHOULD DO IF THEY HAVE CONCERNS ABOUT A CHILD

If staff (including governors, supply staff, agency staff and volunteers) have any concerns about a child (as opposed to a child being in immediate danger), they should, where possible, speak with the School's DSL to agree a course of action, although staff can make a direct referral to children's social care.

As set out above, staff should not assume that somebody else will take action and share information that might be critical to keep a child safe; they should maintain an attitude of "it could happen here". If anyone other than the DSL makes a referral, they should inform the DSL as soon as possible that a referral has been made. If a child's situation does not appear to be improving, the DSL should press children's social care for reconsideration. Staff should challenge any inaction and follow this up with the DSL and children's social care as appropriate. Staff should also challenge, or escalate and use professional disagreement resolution procedures where they believe a child's needs are not being recognised, where thresholds are unclear, or where the response does not appear proportionate to the level of risk. All concerns, discussions and decisions made and the reasons for those decisions should be recorded in writing. Safeguarding records will clearly record the concern, professional analysis, rationale for decisions, action taken, outcomes and any information shared with other agencies.

Staff should feel professionally confident to challenge decisions made by other agencies where they believe a child remains at risk. Where professional disagreement cannot be resolved informally, the School will use the Bury Safeguarding Partnership's professional challenge and escalation procedures where appropriate.

WHAT STAFF SHOULD DO IF A CHILD IS IN DANGER OR AT RISK OF HARM

If staff (including governors, supply staff, agency staff and volunteers) believe that a child is in immediate danger or at risk of harm, they should make an immediate referral to children's social care and/or the police. Anyone can make a referral. Any such referral must be made immediately and without delay. Where there is an immediate risk of harm, staff must not delay making a referral in order to consult the DSL or obtain parental consent. If anyone other than the DSL makes a referral, they should inform the DSL as soon as possible that a referral has been made. The local authority social worker should acknowledge receipt of the referral to the referrer within one working day and determine the next steps and type of response required. Staff should challenge any inaction and follow this up with the DSL and children's social care as appropriate. All concerns, discussions and decisions made and the reasons for those decisions should be recorded in writing.

Staff should not delay taking action because the DSL is unavailable. Where there is immediate risk of harm, staff should contact children's social care and/or the police without delay and inform the DSL as soon as practicable.

The School works in accordance with the multi-agency safeguarding arrangements of Bury Safeguarding Partnership. A full copy of their local procedures can be found in their complex safeguarding policy:

<https://burysafeguardingpartnership.bury.gov.uk/asset-library/bscp-complex-safeguarding-strategy-2023.pdf>

WHAT STAFF SHOULD DO IF A CHILD IS SEEN AS AT RISK OF RADICALISATION

Staff should follow the School's normal referral processes when there are concerns about children who may be susceptible to radicalisation into terrorism. This may include a Prevent referral or referral to children's social care depending on the level of risk. However, if staff have concerns that there is an immediate/significant risk of a child being drawn into terrorism they must call 999 or for information, advice or for questions about whether to make a referral call the GMP Prevent Team on 0161 856 6362 or fill in the Prevent referral form and email it to channel.project@gmp.police.uk and gmchannel@manchester.gov.uk and childwellbeing@bury.gov.uk Advice and support can also be sought from children's social care.

The School, in recognition that pupils may be susceptible to being drawn into terrorism or other forms of extremism, carries out appropriate risk assessments (following consultation with local partners, such as the police) which assess how their learners or staff may be at risk of being radicalised into terrorism, including online. Such risk assessments are discussed with the Principal, DSL and DDSL and with the governors who are responsible for safeguarding to ensure the School's safeguarding arrangements are sufficiently robust to ensure that those at risk of radicalisation are identified and appropriate support is provided and is regularly revised as needed.

Prevent concerns will be considered within the wider safeguarding context. The DSL will consider whether concerns about radicalisation may also indicate online harms, exploitation, mental health needs, family circumstances, social isolation, contextual safeguarding or other vulnerabilities requiring Family Help, children's social care or other multi-agency support.

Staff should recognise that radicalisation may increasingly occur through online environments. This may include exposure to extremist or harmful content promoted by recommendation algorithms on social media and video-sharing platforms, participation in encrypted messaging services or private online groups, gaming platforms with chat or voice communication functions, and other online communities. The School will consider these online influences alongside wider contextual safeguarding risks when assessing concerns and determining appropriate intervention.

The School's Prevent arrangements are informed by local and regional intelligence, including Bury Prevent Team updates, Greater Manchester Police, Greater Manchester Channel arrangements and weekly Prevent tension reports where provided.

WHAT STAFF SHOULD DO IF THEY DISCOVER AN ACT OF FEMALE GENITAL MUTILATION ("FGM")

Staff must report to the police cases where they discover that an act of FGM appears to have been carried out. Unless the member of staff has a good reason not to, they should still consider and discuss any such case with DSL and involve children's social care as appropriate. Staff are referred to Appendix 1 of this policy for the procedure to be followed where they suspect that a pupil may be at risk of FGM.

WHAT STAFF SHOULD DO IF THEY HAVE CONCERNS THAT CHILDREN ARE AT RISK FROM OR INVOLVED WITH SERIOUS VIOLENT CRIME

All staff should be aware of the indicators which may signal that children are at risk from or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, signs of assault or unexplained injuries.

The DSL should also consider whether the child may be experiencing exploitation, including child criminal exploitation, county lines or contextual safeguarding concerns requiring multi-agency intervention.

If staff have any concerns about a child (as opposed to a child being in immediate danger), they should, where possible, speak with the School's DSL to agree a course of action, although staff can make a direct referral to children's social care.

HOW SHOULD STAFF RESPOND TO AN INCIDENT OF NUDES AND SEMI-NUDES BEING SHARED BY PUPILS

All members of staff in an education setting have a duty to recognise and refer any incidents involving nudes and semi-nudes and will be equipped with the necessary safeguarding training and support to enable them to recognise concerns.

For this purpose, 'sharing nudes/semi-nudes' means the sending or posting of nude or semi-nude images, videos, or live streams by persons under the age of 18 online. This could be via social media (including Snapchat), gaming platforms, chat apps (including WhatsApp and iMessage) or forums. It could also involve sharing between devices via services like Apple's AirDrop which works offline. The sharing of nudes and semi-nudes may happen publicly online, in 1:1 messaging or via group chats and/or via closed social media accounts. The images, videos or live streams may include more than one child. The term 'nudes' is used as it is most commonly recognised by young people and more appropriately covers all types of image sharing incidents. Alternative terms used by children and young people may include 'dick pics' or 'pics'.

Many professionals may refer to 'nudes and semi-nudes' as:

- youth produced sexual imagery or 'youth involved' sexual imagery
- indecent imagery. This is the legal term used to define nude or semi-nude images and videos of children and young people under the age of 18.
- 'sexting'. Many adults may use this term, however some young people interpret sexting as 'writing and sharing explicit messages with people they know' rather than sharing images
- image-based sexual abuse. This term may be used when referring to the nonconsensual sharing of nudes and semi-nudes

Terms such as 'revenge porn' and 'upskirting' are also used to refer to specific incidents of nudes and semi-nudes being shared. However, these terms are more often used in the context of adult-to-adult non-consensual image sharing offences outlined in s.33-35 of the Criminal Justice and Courts Act 2015, Voyeurism (Offences) Act 2019 and s.67A of the Sexual Offences Act 2003.

Terms such as 'deep fakes' and 'deep nudes' may also be used by adults and young people to refer to digitally manipulated and AI-generated nudes and semi-nudes. Any direct disclosure by a child will be taken seriously and staff will ensure the child is feeling comfortable and will only ask appropriate and sensitive questions, in order to minimise further distress or trauma to them.

AI-generated, digitally manipulated or synthetic sexual imagery involving a child will be treated as a safeguarding concern, whether or not a real image of the child was used to create it.

Filtering and monitoring alerts will be treated as potential safeguarding information. The DSL will review relevant alerts alongside CPOMS records, attendance, behaviour, pastoral and SEND information to identify patterns, vulnerabilities or emerging risks.

If staff are notified or become aware of an incident of nudes or semi-nudes being shared by a pupil or of a pupil, they should refer the incident to the DSL as soon as possible.

The DSL will follow the DDMSC / UKIS guidance "*Sharing nudes and semi-nudes: advice for education settings working with children and young people*" (March 2024) when responding to a report of sharing nudes and/or semi-nudes. This will include:

- Holding an initial review meeting with appropriate staff. This may include the staff member(s) who heard the disclosure and the safeguarding or leadership team who deal with safeguarding concerns.
- Carrying out interviews with the children involved (if appropriate).
- Informing parents and carers at an early stage and keep them involved in the process in order to best support the pupil unless there is good reason to believe that involving them would put the child at risk of harm. Any decision not to inform

them should be made in conjunction with other services such as children's social care and/or the police, who would take the lead in deciding when they should be informed.

- Carrying out a risk assessment to determine whether there is a concern that a child has been harmed or is at risk of immediate harm at any point in the process.
- The assessment will consider coercion, blackmail, grooming, sextortion, online exploitation, peer pressure, harmful sexual behaviour, mental health, SEND, attendance concerns and wider safeguarding vulnerabilities.

An immediate referral to police and/or children's social care through the MASH or equivalent will be made if any of the following points apply:

- The incident involves an adult. Where an adult poses as a child to groom or exploit a child or young person, the incident may first present as a child-on-child incident.
- There is reason to believe that a child or young person has been coerced, blackmailed or groomed, or there are concerns about their capacity to consent (for example, owing to special educational needs).
- The images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent.
- The images involves sexual acts and any child or young person in the images or videos is under 13.
- There is reason to believe a child or young person is at immediate risk of harm owing to the sharing of nudes and semi-nudes, for example, they are presenting as suicidal or self-harming.

If none of the above apply, the School may decide to respond to the incident without involving the police or children's social care. All incidents relating to nudes and semi-nudes being shared need to be recorded, whether they have been referred externally or not. The decision to respond to an incident without involving the police or children's social care will only be made in cases where the DSL (or equivalent) is confident that they have enough information to assess the risks to any child or young person involved and the risks can be managed within the School's pastoral support and disciplinary framework. Any decision in this regard will be made by the DSL (or equivalent) with input from the Principal. The decision will be made and recorded in line with this Policy and will be based on consideration of the best interests of any child or young person involved. Any decision will take into account proportionality as well as the welfare and protection of any child or young person. The decision will be reviewed throughout the process of responding to the incident. If doubts remain local safeguarding arrangements will be followed.

Technology-facilitated abuse may include online bullying, harassment, coercive control, grooming, sextortion, image-based abuse, AI-generated, digitally manipulated or synthetic imagery ("deepfakes"), online misogyny, radicalisation, financial exploitation and abuse occurring through social media, messaging services, gaming platforms, online communities and emerging technologies, including AI-enabled services. Staff should recognise that children may engage with AI-enabled tools and conversational technologies and that these may, in some circumstances, be used to facilitate manipulation, exploitation, misinformation or other safeguarding risks.

Staff should remain alert to emerging technologies and online behaviours that may present safeguarding risks, recognising that the digital environment continues to evolve rapidly.

This guidance does not apply to the sharing of images of persons under 18 by an adult over 18 as this constitutes child sexual abuse. In the event that staff become aware of such an incident, they should notify the DSL immediately, who should always inform the police as a matter of urgency.

WHAT STAFF SHOULD DO IF A CHILD IS ABSENT FROM EDUCATION

Children who are absent from education particularly on repeat occasions and/or for prolonged periods, and children missing education can act as a vital warning sign to a range of safeguarding issues, including neglect and child sexual and/or criminal exploitation, particularly county lines. It is important that the School's response to persistently absent pupils and children missing education supports identifying such abuse, and in the case of absent pupils, helps prevent the risk of them becoming a child missing education in the future.

The School recognises that persistent absence, severe absence, repeated absence and prolonged absence may be indicators of unmet need rather than the presenting issue itself. Attendance concerns will therefore be considered alongside safeguarding, mental health, SEND, family circumstances, contextual safeguarding and exploitation risks.

Attendance concerns should always be considered alongside the child's voice, lived experience and any known safeguarding history recorded on CPOMS.

The School's procedures for unauthorised absence and for dealing with children who are absent, repeatedly and/or for prolonged periods, and children missing from education are set out in the Attendance Policy to be used for searching for, and if necessary, reporting, any pupil missing from education. Further detail can also be found at Appendix 1 of this policy.

Any part-time timetable will be used only in exceptional circumstances, for the shortest possible time, with clear objectives, parental involvement, safeguarding consideration, regular review and appropriate notification or consultation with relevant agencies where required. Part-time timetables will not be used as an informal exclusion or as a long-term attendance management strategy.

Where a pupil leaves the School to become electively home educated, the School will satisfy itself that all statutory notification requirements have been met and, where there are existing safeguarding concerns, will liaise with the Local Authority in accordance with Children Missing Education guidance and local safeguarding procedures.

Where reasonably possible, the School will hold more than one emergency contact number for each pupil to provide the School with additional options to make contact with a responsible adult particularly when a child who is repeatedly absent and/or absent for prolonged periods is also identified as a welfare and/or safeguarding concern.

Where a pupil is absent repeatedly, for a prolonged period, or there are concerns that they may be missing from education, the School will follow statutory Children Missing Education guidance and local authority notification procedures.

The School will report to Bury Council a pupil who fails to attend school regularly or has been absent from school without the School's permission for a continuous period of 10 school days or more.

When working with local authority children's services where school absence indicates safeguarding concerns the School will have regard to the statutory DfE guidance *'Working together to improve school attendance: statutory guidance for maintained schools, academies, independent schools and local authorities (2026)'* and to the EYFS Statutory Framework for children aged 0-5 years.

WHAT STAFF SHOULD DO IF A CHILD NEEDS A SOCIAL WORKER (CHILDREN IN NEED AND CHILD PROTECTION PLANS)

Children may need a social worker due to safeguarding or welfare needs. Children may need this help due to abuse, neglect, exploitation and complex family circumstances. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour, and mental health.

Local authorities should share the fact a child has a social worker, and the DSL should hold and use this information so that decisions can be made in the best interests of the child's safety, welfare, and educational outcomes. This should be considered as a matter of routine.

Where children need a social worker, this should inform decisions about safeguarding (for example, responding to unauthorised absence or missing education where there are known safeguarding risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).

WHAT STAFF SHOULD DO IF A CHILD REQUIRES MENTAL HEALTH SUPPORT

The School has an important role to play in supporting the mental health and wellbeing of its pupils. Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff should remember that only appropriately trained professionals should attempt to diagnose mental health conditions. School staff are well placed to observe children day-to-day and identify where behaviour suggests that a child may be experiencing a mental health problem or be at risk of developing one.

Staff can access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies. More information can be found in the DfE *Mental Health and Behaviour in Schools* guidance. Public Health England has produced a range of resources to support school teachers to promote positive health, wellbeing, and resilience among young people.

The School's Mental Health Lead is Mrs Kay Robinson.

WHAT STAFF SHOULD DO IF THEY HAVE SAFEGUARDING CONCERNS ABOUT ANOTHER STAFF MEMBER

If staff have safeguarding concerns about another staff member (including supply staff, agency staff, trainee teachers, volunteers and contractors), then this should be referred to the Principal. Where there are concerns about the Principal, this should be referred to the Chair of Governors. In the event of allegations of abuse being made against the Principal, staff are referred to the procedures below regarding managing allegations of abuse against staff (including supply staff, agency staff, trainee teachers, volunteers, and contractors) and refer the matter directly to the designated officer(s) at Bury Council.

WHAT STAFF SHOULD DO IF THEY HAVE CONCERNS ABOUT SAFEGUARDING PRACTICES IN THE SCHOOL

The School aims to ensure there is a culture of safety and raising concerns and an attitude of 'it could happen here'. Where staff have concerns about poor or unsafe practices and potential failures in the School's safeguarding systems, these should be

raised in accordance with the School's whistleblowing procedures which can be found in the Whistleblowing Policy. There will be no disciplinary action taken against a member of staff for making such a report provided that it is done in good faith.

If staff and volunteers feel unable to raise an issue with the School or feel that their genuine concerns are not being addressed, they may use other whistleblowing channels, such as the NSPCC whistleblowing advice line. Contact details for the NSPCC helpline can be found on the Key Contacts page at the start of this policy.

Where appropriate, staff may also raise safeguarding concerns directly with the Local Authority Designated Officer (LADO), Ofsted (in relation to the EYFS), the Independent Schools Inspectorate (ISI), the police or children's social care where they believe this is necessary to protect a child or where concerns have not been appropriately addressed through the School's procedures.

The School will work with children's social care, police, health, Family Help services, education welfare, CAMHS, local authority services and other safeguarding partners where appropriate. Information sharing will be timely, relevant, proportionate, lawful and secure and will support the safeguarding and promotion of the child's welfare.

ARRANGEMENTS FOR DEALING WITH CHILD-ON-CHILD ABUSE, INCLUDING HARASSMENT AND VIOLENCE

Child-on-child abuse is abuse by one or more children against another child. It can be standalone or as part of wider abuse and can happen both inside and outside of school, and online. It can manifest itself in many ways and can include abuse within intimate partner relationships, bullying (including cyber bullying, prejudice-based and discriminatory bullying), physical abuse (such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm), initiation/hazing type violence and rituals, upskirting, sexting, consensual and non-consensual sharing of nudes and/or semi-nudes, including AI-generated, digitally manipulated or synthetic sexual imagery, sexual assault, gender-based issues, sexual behaviours including child on child sexual violence and sexual harassment, causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party and include discriminatory behaviour, including racism, faith-targeted abuse, and other prejudice based incidents. It can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

The School recognises that child-on-child abuse is preventable. Early identification of concerning behaviours, timely intervention, education, pastoral support and appropriate safeguarding responses can reduce the likelihood of harmful behaviours escalating.

These arrangements apply to all reports and concerns of child-on-child abuse, whether they have happened in school or outside of it, and/or online. Abuse that occurs online or outside of school should not be downplayed and should be treated equally seriously.

The School takes a zero-tolerance approach and abusive comments and interactions should never be passed off or dismissed as "banter" or "part of growing up". Nor will harmful sexual behaviours, including sexual comments, remarks or jokes and online sexual harassment, be dismissed as the same or "just having a laugh" or "boys being boys". Staff will also challenge physical behaviours (that are potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them.

The School recognises that harmful sexual behaviour exists on a continuum. Responses will be developmentally appropriate, recognising the age, understanding, developmental stage and individual needs of the children involved while ensuring that all concerns are taken seriously and responded to proportionately.

The school recognises that racism, faith-targeted abuse, and other forms of discriminatory behaviour may have a significant impact on a child's welfare, wellbeing and sense of safety and should be considered within safeguarding practice where appropriate.

The School recognises that even where there have been no reported cases of child-on-child abuse in relation to pupils within the School, such abuse may still be taking place and is simply not being reported. The School will ensure that children are aware of how they can report abuse, and that they are aware of the procedures that the School will follow once a report has been made. These procedures will be well promoted and in a format that is easily accessible and easily understood by children.

Children will be reassured that they will be supported, kept informed wherever appropriate and that their wishes, feelings and lived experience will be considered when decisions are made about how to respond.

The School recognises that a child is likely to disclose an allegation to someone they trust: this could be any member of staff. By making such a disclosure the pupil is likely to feel that the member of staff is in a position of trust. The School also recognises that children may not find it easy to tell staff about their abuse verbally and that instead they may show signs or act in ways they hope adults will notice and react to. It is also recognised that an incident may come to a member of staff's attention through a report of a friend, or by overhearing conversations. It is therefore important that all staff are clear on the School's policy and procedures with regards to child on child abuse, and

can recognise the indicators and signs of child on child abuse and know how to identify it and how to respond to reports.

The School recognises that a first disclosure to a trusted adult may only be the first incident reported. It is not necessarily representative of a singular incident. Staff will take all reports of abuse seriously regardless of how long it has taken for the child to come forward. Staff will act immediately and will support the victim when they raise a concern.

The School recognises that children with special educational needs and disabilities (SEND) or certain health conditions are three times more likely to be abused by their peers, can face additional safeguarding challenges and may be more prone to peer-on-peer group isolation or bullying (including prejudice-based bullying) than other children. The School will consider extra pastoral support for those children with SEND. The type of support available to those pupils with SEND is set out in the School's SEND policy. The School also recognises that certain children may face additional barriers to reporting an incident of abuse because of their vulnerability, disability, sex, ethnicity and/or sexual orientation.

The School takes steps to minimise the risk of child-on-child abuse as set out in the School's Child-on-child abuse policy.

Where an issue of pupil behaviour or bullying gives 'reasonable cause to suspect that a child is suffering, or is likely to suffer, harm', staff should follow the procedures below rather than the School's Anti-Bullying and Behaviour policies:

A pupil against whom an allegation of abuse has been made may be suspended from the School during the investigation. The School will take advice from the Bury Safeguarding Partnership on the investigation of such allegations and will take all appropriate action to ensure the safety and welfare of all pupils involved including the alleged victim and perpetrator(s). If it is necessary for a pupil to be interviewed by the police in relation to allegations of abuse, the School will ensure that, subject to the advice of the Bury Safeguarding Partnership, parents are informed as soon as possible and that the pupils involved are supported during the interview by an appropriate adult and until the investigation is completed. Confidentiality will be an important consideration for the School and advice will be sought as necessary from the Bury Safeguarding Partnership and/ or the police as appropriate. The School will have regard to the procedures set out in *KCSIE* at all times.

The victim may ask the School not to tell anyone about the sexual violence or sexual harassment. Advice should be sought from the DSL or DDSL who should consider: parents or carers should normally be informed unless doing so would put the victim at greater risk; the basic safeguarding principal that if a child is at risk of harm, is in immediate danger, or has been harmed, a referral should be made to local authority

children's social care; and whether a crime has been committed. Ultimately, the DSL or DDSL will balance the victim's wishes against their duty to protect the victim and other children.

Where a report of sexual violence or other potentially criminal harmful sexual behaviour is made, the DSL will consider the need for referral to children's social care and/or the police in accordance with KCSIE, local safeguarding arrangements and the circumstances of the individual case. Reports of rape, assault by penetration and sexual assault will be referred to the police. Where a report is made to the police, the School will consult the police and agree what information can be disclosed to staff and others, particularly the alleged perpetrator(s) and their parents or carers. If the DSL decides to make a referral to children's social care and/or a report to the police against a victim's wishes, the reasons should be explained to the pupil and appropriate specialist support offered. The DSL may also decide that the children involved may benefit from family help and may make the necessary referral

The School will follow the DDMSC / UKIS guidance 'Sharing nudes and semi-nudes: advice for education settings working with children and young people' (March 2024) when responding to an allegation that nudes and/or semi-nudes have been shared.

In the event of disclosures about child-on-child abuse, all children involved (both victim(s) and perpetrator(s)) will be treated as being at risk, and safeguarding procedures in accordance with this policy will be followed. Victims will be supported by the DSL/Pastoral team and support from external agencies will be sought, as appropriate.

When responding to child-on-child abuse, the DSL will consider whether either child has wider safeguarding needs relating to attendance, SEND, mental health, contextual safeguarding, exploitation, family circumstances or Family Help support.

When there has been a report of sexual violence, the DSL will make an immediate risk and needs assessment. Where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis. The risk and needs assessment should consider:

- the victim;
- whether there may have been other victims;
- the alleged perpetrator(s); and
- all the other children (and, if appropriate, staff) at the School especially any actions that are appropriate to protect them from the alleged perpetrator(s), or from future harms.

Risk assessments will be recorded (written or electronic) and reviewed whenever circumstances change and at agreed review points until the safeguarding concerns

have been resolved. In relation to a report of sexual violence or sexual harassment, the DSL (and indeed all staff) will reassure any victim that they are being taken seriously and that they will be supported and kept safe. The victim will never be made to feel ashamed for making a report nor will they be given the impression that they are creating a problem by reporting sexual violence or sexual harassment; nor would a victim ever be made to feel ashamed for making a report or have their experience minimised. The School will explain to the child in a way that avoids alarming or distressing them that the law is in place to protect children rather than to criminalise them. The School will consider the age and the developmental stage of the victim, the nature of the allegations and the potential risk of further abuse. The School acknowledges that, by the very nature of sexual violence and sexual harassment, a power imbalance is likely to have been created between the victim and alleged perpetrator(s). The DSL will consider the risks posed to pupils and put adequate measures in place to protect them and keep them safe and to ensure their educational attainment is not adversely affected as far as is possible. This may include careful consideration of the proximity of the victim and alleged perpetrator and considerations regarding shared classes, sharing School premises (including during any before or after school-based activities), and school transport. The School will also consider the risks posed to the victim from other health needs, including physical, mental and sexual health problems, as well as unwanted pregnancy which may arise as a result of the incident, and will consider recommending additional support.

The School will consider intra familial harms and whether any support for siblings is necessary following an incident.

The School will keep a written record of all concerns, discussions and decisions made. The School will reflect on reported concerns, including the decisions made and actions taken, in order to identify any patterns of concerning, problematic or inappropriate behaviour which may indicate an unacceptable culture, or any weaknesses in the School's safeguarding system which may require additional training or amendments to relevant policies. Where a pattern is identified the School will decide on an appropriate course of action.

In the event that a report is proven to be false, unsubstantiated, unfounded or malicious, the DSL will consider whether the child and/or the person who has made the allegation is in need of help or may have been abused by someone else and this is a cry for help. In such circumstances, a referral to children's social care may be appropriate. If a report is shown to be deliberately invented or malicious, the Principal will consider whether any disciplinary action is appropriate against the individual who made it in accordance with the School's behaviour policy.

Where there is an allegation or incident of sexual abuse or sexual violence, the victim is entitled to anonymity by law; therefore, the School will consult its policy and agree on what information will be disclosed to staff and others, in particular the alleged perpetrator and their parents.

Where a report of sexual violence or sexual harassment is progressing through the criminal justice system, the School will do all it can to protect the anonymity of the pupils involved in the case.

Concerns and reports will be handled sensitively and information will only be disclosed internally to those staff who require it for an appropriate safeguarding, welfare or operational purpose. Information shared externally will be relevant and proportionate to the safeguarding or welfare purpose and will be shared in accordance with the statutory information sharing duty under section 16LA of the Children Act 2004, or where sharing is otherwise permitted or required by law. During the disclosure of a concern by a pupil, staff members will not promise confidentiality and will, wherever safe, appropriate and practicable, explain what information may need to be shared, with whom and why.

Where the statutory information sharing duty applies, relevant information may be shared without the victim's consent. Information may also be shared without consent where another lawful basis applies. The victim's wishes and feelings will be taken into account and the School will explain any decision to share information against their wishes wherever it is safe and appropriate to do so. Any such sharing will be handled carefully and appropriate support will be offered.

Depending on the nature of a concern, the DSL will discuss the concern with the parents of the pupils involved. Discussions with parents will not take place where they could potentially put a pupil at risk of harm. Discussion with the victim's parents will relate to the arrangements being put in place to safeguard the victim, with the aim of understanding their wishes in terms of support arrangements and the progression of the report. Discussion with the alleged perpetrator's parents will have regards to the arrangements that will impact their child, such as moving classes, with the reasons behind decisions being explained and the available support discussed. External agencies will be invited to these discussions where necessary. Where confidentiality or anonymity has been breached, the School will implement the appropriate disciplinary procedures as necessary and will analyse how damage can be minimised, and future breaches be prevented.

Where a pupil is leaving the School, the DSL will consider whether it is appropriate to share any information with the pupil's new provider, in addition to the child protection file, that will allow the new provider to support the pupil and arrange appropriate support for their arrival.

DEALING WITH SAFEGUARDING CONCERNS OR ALLEGATIONS MADE ABOUT STAFF INCLUDING SUPPLY TEACHERS, TRAINEE TEACHERS, VOLUNTEERS AND CONTRACTORS

The School's procedures for managing safeguarding concerns or allegations about staff, including supply staff, agency staff, trainee teachers, volunteers and contractors, whether working in a paid or unpaid capacity, follow Part Four of KCSIE and Bury Safeguarding Partnership arrangements.

- Behaved in a way that has harmed a child, or may have harmed a child; and/or
- Possibly committed a criminal offence against or related to a child; and/or
- Behaved towards a child or children in a way that indicated that they may pose a risk of harm if they were to work regularly or closely with children; and/or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children, including behaviour that may have happened outside of school.

In this section reference to 'allegations' also covers concerns. Allegations that do not meet the above harm test should be dealt with using the School's procedure for handling low level concerns set out below.

Allegations against a teacher who is no longer teaching should be referred to the police. Historical (non-recent) allegations of abuse should be referred to the police and also the LADO. Non-recent allegations made by a child will be reported to the LADO in line with the local authority's procedures for dealing with non-recent allegations. The LADO will coordinate with children's social care and the police.

If an allegation is made against anyone working with children in the School, before contacting the LADO, the School will conduct initial fact-finding in line with local procedures to establish the facts in order to determine whether there appears to be any foundation to the allegation. The School should not undertake their own investigation of the allegation(s) without prior consultation with the LADO or, in the most serious cases, the police, so as not to jeopardise statutory investigations.

When dealing with an allegation about a staff member the School will apply common sense and judgment, deal with allegations quickly, fairly and consistently and will support the person subject to the allegation.

1. Allegations which appear to meet the above reporting criteria are to be reported straight away to the 'case manager' who is the Principal. If an allegation is reported to the DSL, the DSL will keep the Principal informed. Where the Principal or DSL is absent or is the subject of the allegation, reports should be made to the Chair of Governors. Where the Principal or DSL is the subject of the allegation, the Principal or DSL must not be informed of the allegation prior to contact with the Chair of Governors and LADO. However, staff may consider discussing any concerns/allegations with the DSL and may make any referral via them.

Information will only be shared with those who need to know in order to protect children, ensure a fair process and comply with statutory guidance.

2. The case manager should immediately discuss the allegation with the LADO and consider the nature, content and context of the allegation and agree a course of action including any involvement of the police. (Where the case manager deems there to be an immediate risk to children or there is evidence of a possible criminal offence, or it is an emergency situation, the case manager should contact children's social care and as appropriate the police immediately.) All discussions should be recorded in writing, and any communication with both the individual and the parents of the child(ren) agreed. The LADO should be informed within one working day of all allegations that come to the School's attention and appear to meet the criteria or that are made directly to the police and/or children's social care. The DSL is responsible for ensuring the child is not at risk. If the LADO is not available, then a senior member of the MASH team or a police officer (Bury Public Protection Investigation Unit) should be contacted. This must happen within one working day of the report being made to the Principal or Chair of Governors. Consent from parents is not required before reporting a matter to the LADO.
3. Where the case manager is concerned about the welfare of other children in the community, or the member of staff's family, they will discuss these concerns with the LADO and make a risk assessment of the situation. It may be necessary for the LADO to make a referral to children's social care.
4. When to inform the individual who is the subject of the allegation will be considered on a case-by-case basis and with guidance from the LADO, and if appropriate, the police and/or children's social care. Subject to any objection, the case manager will ensure that the individual who is subject of the allegation is informed as soon as possible and given an explanation of the likely course of action. The case manager will appoint a named representative to keep the individual informed of the progress of the case and will consider what other support is appropriate for the individual. Throughout the management of any allegation, the School will ensure that appropriate welfare support is available for both the child making the allegation and the member of staff who is the subject of the allegation. Safeguarding procedures will be conducted fairly, transparently and sensitively, ensuring that the welfare of children remains paramount whilst recognising the need to provide appropriate support to all individuals involved.
5. The case manager should give careful consideration as to whether the circumstances of the case warrant suspension from contact with children at the School or whether alternative arrangements should be put in place until the allegation is resolved. The following alternative arrangements should be considered by the case manager before suspending a member of staff:

- redeployment within the School so that the individual does not have direct contact with the child or children concerned;
- providing an assistant to be present when the individual has contact with children;
- redeploying to alternative work in the School so the individual does not have unsupervised access to children;
- moving the child or children to classes where they will not come into contact with the member of staff, but this decision should only be made if it is in the best interest of the child or children concerned and takes account of their views. It should be made clear that this is not a punishment and parents have been consulted; or,
- temporarily redeploying the member of staff to another role in a different location, for example to an alternative school where available.

These alternatives allow time for an informed decision regarding the suspension, this will, however, depend upon the nature of the allegation.

Suspension should not be an automatic response when an allegation is reported. It should be considered only in cases where there is cause to suspect a child or other children at the School is/are at risk of harm, or the case is so serious that it might be grounds for dismissal. The case manager will give due weight to the views of the LADO, *WT* and *KCS/E* when making a decision about suspension (including with respect to considering alternatives). Where the individual is suspended, the case manager will confirm the decision within one working day, and will ensure they know who their point of contact is in the School and shall provide them with their contact details. The case manager will also record the rationale and justification for the suspension, including what alternatives were considered and why they were rejected.

6. Where further enquiries are required to enable a decision about how to proceed, the LADO and case manager should discuss how and by whom the investigation will be undertaken. The LADO will provide advice and guidance to the School to ensure that an appropriate investigation is carried out. In straightforward cases, the investigation should usually be undertaken by a senior member of staff at the School. Where there is lack of resource, or the nature or complexity of the allegation requires it, an independent investigator may be appointed to undertake the investigation.
7. The case manager will ensure that parents are informed as soon as possible and kept informed about progress of the case, subject to any advice from children's social care or the police. Parents and others will be made aware that there are restrictions on publishing information which may lead to the identification of the teacher subject to the allegation.

8. The case manager will monitor the progress of cases to ensure they are dealt with as quickly as possible in a thorough and fair process. The outcome of the investigation of an allegation will record whether it is substantiated (sufficient evidence to prove it), unsubstantiated (insufficient evidence either to prove or disprove it), false (sufficient evidence to disprove it), malicious (sufficient evidence to disprove it and that there has been a deliberate act to deceive or cause harm to the person subject of the allegation) or unfounded (to reflect cases where there is no evidence or proper basis which supports the allegation being made).
9. Reviews are conducted at fortnightly or monthly intervals, depending on the complexity of the case. The first review will take place no later than four weeks after the initial assessment and subsequent review dates will be set at the review meeting.
10. The case manager will discuss with the LADO whether a referral to the Disclosure and Barring Service or Teaching Regulation Agency should be made where an allegation is substantiated and the person is dismissed or the School ceases to use their services, or the person resigns or otherwise ceases to provide their services. The School has a legal obligation to report promptly to the Disclosure and Barring Service any person (whether employed, contracted, a volunteer or a student) who has harmed, or poses a risk of harm, to a child, or if there is reason to believe the member of staff has committed one of a number of listed offences, and who has been removed from working (paid or unpaid) in regulated activity, or would have been removed had they not left. Further, or in the alternative, if an investigation leads to the dismissal or resignation prior to dismissal of a member of teaching staff specifically, the School must consider making a referral to the Teaching Regulation Agency and a prohibition order may be appropriate (because that teacher has displayed unacceptable professional conduct, conduct that may bring the profession into disrepute or a conviction at any time for a relevant offence).
11. On conclusion of the case, the case manager should review the circumstances of the case with the LADO to determine whether there are any improvements to be made to the School's safeguarding procedures or practices to help prevent similar events in the future. Learning lessons where the allegation is concluded to be either, unfounded, false, malicious or unsubstantiated, the case manager (and if they have been involved, the LADO) should consider the facts and determine whether any lessons can be learned and if improvements can be made. The School will also consider whether any changes are required to safeguarding training, induction, supervision, policy or procedures following the conclusion of any allegation.

Where an individual is removed from regulated activity, or would have been removed had the individual not left, including when they are suspended, redeployed to work that is not regulated activity, are dismissed, or have resigned, and the individual has engaged in relevant conduct in relation to children and/or adults, and/or satisfied the harm test in relation to children and/or vulnerable adults, and/or been cautioned or convicted of a relevant (automatic barring either with or without the right to make representations) offence, the School will make a referral to the DBS.

The School has a duty of care to its staff, and whilst the welfare of a child is paramount, the School must offer appropriate welfare support to the adult subject to the investigation and potentially their family. The School will also make every reasonable effort to maintain confidentiality and guard against unwanted publicity whilst an allegation is being investigated or considered. Information will also not ordinarily be shared with other staff or with children or parents who are not directly involved in the investigation.

The School also recognises its duty of care to the child or children involved and will ensure that appropriate safeguarding, pastoral and educational support continues throughout any investigation.

Where initial discussions lead to no further action, the case manager and the LADO should record the decision and justification for it and agree on what information should be put in writing to the individual concerned, and by whom.

Allegations found to be malicious or false will be removed from the individual's personnel records unless the individual gives consent for retention of the information. In all other circumstances a written record will be made of the decision and retained on the individual's personnel file in accordance with *KCSIE* and a copy will only be provided to the individual concerned. The information to be kept on file includes a clear and comprehensive summary of the allegation, details of how the allegation was followed up and resolved, a note of any action taken, decisions reached and the outcomes, and a declaration on whether the information will be referred to in any future reference. All records should be retained until the accused has reached pension age, or for a period of 10 years from the date of the allegation, whichever is longer. Records should be reviewed at the end of the retention period in case it is necessary to keep it for longer.

Allegations proven to be false, unsubstantiated, unfounded or malicious will not be included in employer references. If an allegation is shown to be deliberately invented or malicious, the DSL should consider whether the child and/or the person who has made the allegation is in need of help or may have been abused by someone else and this is a cry for help. In such circumstances, a referral to children's social care may be appropriate. If a report is shown to be deliberately invented or malicious, the Principal will consider whether any disciplinary action is appropriate against a pupil who made

it in accordance with the School's behaviour policy; or whether the police should be asked to consider if action might be appropriate against the person responsible even if they are not a pupil.

In all cases where there are concerns or allegations of abuse, the School will make a serious incident report to the Charity Commission whenever the Commission's guidelines deem it appropriate to do so.

PROCEDURE FOR MANAGING AND ALLEGATIONS ABOUT SUPPLY TEACHERS AND CONTRACTORS

The School's procedures for managing allegations against staff above also apply to staff not directly employed by the School, for example, supply teachers provided by an employment agency or business ('the agency'). The School will usually take the lead but agencies should be fully involved (because they have their own policies and procedures) and co-operate with any enquiries from the LADO, police and/or children's social care.

In no circumstances will the School decide to cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the LADO to determine a suitable outcome. The School will discuss with the agency (or agencies where the supply teacher is working across a number of schools) whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the School, whilst they carry out their investigation.

The School will advise supply teachers being investigated to contact their trade union representative if they have one, or a colleague for support. The allegations management meeting which is often arranged by the LADO should address issues such as information sharing, to ensure that any previous concerns or allegations known to the agency are taken into account by the School during the investigation.

When using an agency, the School should inform the agency of its process for managing allegations but also take account of the agency's policies and their duty to refer to the DBS as personnel suppliers. This should include inviting the agency's human resource manager or equivalent to meetings and keeping them up to date with information about its policies.

Where the agency dismisses or ceases to use the services of a teacher because of serious misconduct, or might have dismissed them or ceased to use their services had they not left the School first, the School must consider whether to refer the case to the Secretary of State (via the Teaching Regulation Agency).

These arrangements also apply to trainee teachers. The School will liaise with the trainee's employing school, initial teacher training provider or other responsible

organisation, as applicable. The School will not cease to use the services of a supply teacher, trainee teacher or contracted worker because of a safeguarding concern without establishing the facts and consulting the LADO.

DEALING WITH SAFEGUARDING CONCERNS AND ALLEGATIONS ABOUT ORGANISATIONS OR INDIVIDUALS USING SCHOOL PREMISES

The School may receive an allegation or concern relating to an incident that happened when an individual or organisation was using the School premises for the purposes of running activities for children and/or vulnerable adults (for example community groups, sports associations, or service providers that run extra-curricular activities). As with any safeguarding allegation, the School will follow their safeguarding policy and procedures, including informing the LADO.

When services or activities at the School are provided under the direct supervision or management of School staff, this Policy will apply in relation to any safeguarding concerns or allegations. Where services or activities are not under the direct supervision or management of the School, the School will seek assurance that any individual or organisation has appropriate safeguarding and child protection policies and procedures in place (and the School will inspect these as needed); and ensure that there are arrangements in place for the provider to liaise with the School on these matters where appropriate. The School will expect, where appropriate, providers to fully comply with the DfE guidance *After school clubs, community activities, and tuition (safeguarding guidance for providers)* (September 2023) and will seek assurance in this regard.

The School has arrangements in place for the use of school premises for non-school activities including the availability of the DSL or DDSL and how they can be contacted.

DEALING WITH CONCERNS OR ALLEGATIONS (THAT DO NOT MEET THE HARM THRESHOLD)

A low-level concern is any concern that an adult working in or on behalf of the School may have acted in a way that:

- is inconsistent with the staff code of conduct, including inappropriate conduct outside of work; and
- does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the LADO.

A 'low-level' concern does not mean that it is insignificant. A concern may be a low-level concern, no matter how small, even if it does no more than give a sense of unease or a "nagging doubt". Such behaviour can exist on a wide spectrum, from the inadvertent or thoughtless, or behaviour that may look to be inappropriate, but might

not be in specific circumstances, through to that which is ultimately intended to enable abuse (for example, grooming-type behaviours).

Low-level concerns should be reported even where the member of staff reporting is uncertain whether the behaviour meets the threshold, as patterns may only become apparent when concerns are viewed collectively.

The School takes all concerns about safeguarding seriously and recognises that addressing even low-level concerns is important to create and embed a culture of openness, trust and transparency in which the School's values and expected behaviour of its staff are constantly lived, monitored and reinforced by all staff.

The School has a separate Low-Level Concerns Policy which enables all staff to share concerns – no matter how small – about their own or another member of staff's behaviour

The School's Behaviour Policy can be found on the School website. The aim of the Behaviour Policy is to provide clear guidance about the standards of appropriate behaviour and actions of its staff so as to not place pupils or staff at risk of harm or of allegation of harm to a pupil. All staff are expected to comply with the standards contained within this policy at all times.

The procedure for sharing confidentially any such concerns is set out in the Low-Level Concerns Policy. The Principal is the ultimate decision-maker in respect of all low-level concerns.

Staff must share all concerns with the Principal without delay so that it can be recorded and dealt with appropriately, sensitively, and proportionately and in a timely manner. Where a low-level concern is raised about the Principal, it should be referred to the Chair of Governors.

Staff are also encouraged to self-refer in the event that they have found themselves in a situation which may be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in a way that may be considered to fall below the expected professional standard. All concerns will be handled sensitively and will be dealt with appropriately and proportionately.

If a concern is raised by a third party, the Principal will collect as much evidence as possible by speaking to the person who has raised the concern (if known), to the individual involved and any witnesses. The concern will be recorded in accordance with this policy, in the usual way.

The School will address unprofessional behaviour at an early stage and will support the individual to correct it.

All low-level concerns will be recorded in writing. The record will include details of the concern, the context within which the concern arose, and details of the action taken. The name of the reporting individual should also be included, unless they have asked to remain anonymous, which will be respected as far as reasonably possible. The records will be kept confidential, will be held securely and in compliance with the Data Protection Act 2018 and the UK GDPR at all times. The information will be retained at least until the individual has left employment at the School.

The Principal and DSL will regularly review low-level concern records to identify patterns, themes or organisational learning and determine whether additional action, supervision or training is required.

Low-level concerns will not be included in references unless they relate to issues which would normally be disclosed, for example, misconduct or poor performance.

The School will also reflect on reported concerns in order to identify any patterns of concerning, problematic or inappropriate behaviour which may indicate an unacceptable culture, or any weaknesses in the School's safeguarding system which may require additional training or modified policies. Where a pattern is identified, the School will decide on a course of action, either through its disciplinary procedures, or, where the pattern moves from a concern to meeting the harms threshold, it will follow the above procedure and refer the matter to the LADO.

Where a low-level concern relates to a person employed by a supply agency or a contractor, the individual's employer will be notified about the concern, so that any potential patterns of inappropriate behaviour can be identified.

If the School is in any doubt as to whether a low-level concern in fact meets the harm threshold, the Principal will consult with the LADO and take a more collaborative decision-making approach.

SAFER RECRUITMENT

The School is committed to safer recruitment processes and follows Part 3 of KCSIE (2026) to create a culture that safeguards and promotes the welfare of children in the School whilst deterring and preventing people who are unsuitable to work with children from applying or securing employment, or volunteering opportunities, within the School.

From 1 September 2026, the School will apply the revised definition of regulated activity introduced by the Crime and Policing Act 2026. The former supervision exemption will not be relied upon. A volunteer who teaches, trains, instructs, cares for

or supervises children frequently on more than three days in a 30-day period or overnight will be regarded as undertaking regulated activity and will be subject to the appropriate enhanced DBS and children's barred list checks.

Within our EYFS provision and in line with the EYFS framework, volunteers are not permitted to begin working within the setting until the school has received the volunteer's enhanced DBS certificate including barred list information.

Members of the teaching and non-teaching staff at the School including part-time staff, temporary and supply staff, and visiting staff, such as musicians and sports coaches are subject to the necessary statutory child protection checks before starting work, for example, right to work checks, additional overseas checks (if necessary), verifying identity, taking up references, checking work history and confirming medical fitness for the role. For most appointments, an enhanced DBS check with "barred list" information will be appropriate. A DBS certificate will be obtained from the candidate before or as soon as practicable after appointment. Alternatively, if the applicant has subscribed to it and gives permission, the School may undertake an online update check through the DBS Update Service.

As part of the shortlisting process, the School will also consider carrying out an online search on shortlisted candidates as part of its due diligence. This may help to identify any incidents or issues that have happened and are publicly available online, which the School may want to explore with an applicant at interview. This forms part of the School's wider safeguarding due diligence which aims to prevent and/or deter individuals who may be unsuitable to work with children from working in a school environment.

Full details of the School's safer recruitment procedures for checking the suitability of staff, Governors and volunteers to work with children and young people is set out in the School's Recruitment and Selection and Disclosure Policy and Procedure.

The School's protocols for ensuring that any visiting speakers, whether invited by staff or pupils themselves, are suitable and appropriately supervised is set out in the School's Recruitment, Selection and Disclosure Policy and Procedure.

The School's procedures for managing contractors attending the School site can be found in the Recruitment, Selection and Disclosure Policy and Procedure.

MANAGEMENT OF SAFEGUARDING

The School's DSL is Mrs Rachel Newbold who is a member of the leadership team. The DSL's role covers the whole school including the Early Years Foundation Stage.

Mrs Jess Guest, Mrs Kay Robinson, Mrs Sarah Howard, Mrs Sam Aylin, Mr Kevin Grehan, Mr Danny Partington, Mrs Sarah McMahon and Mrs Nikki Pearson are the DDSLs and are the people to whom reports should be made in the absence of the DSL. This ensures there is the required cover for the role at all times. The DSL and DDSLs' contact details can be found on the Key Contacts page at the start of this policy.

The DSL's role is to take lead responsibility for safeguarding and child protection matters in the School. The DSL's responsibilities include maintaining an overview of safeguarding within the School, to open channels of communication with local statutory agencies, refer incidents to third parties (including the local authority children's services, the DBS, Channel and the police) where appropriate, to support staff in carrying out their safeguarding duties and to monitor the effectiveness of the School's policies and procedures in practice. The DSL will also take lead responsibility for online safety and understanding the filtering and monitoring systems and processes the School have in place. The DSL will ensure that filtering and monitoring reports are reviewed and that safeguarding concerns identified through these systems are acted upon in accordance with this policy.

The DSL will also take lead responsibility for the implementation of the statutory information sharing duty within the School. The DSL, supported by the DDSLs, will ensure that relevant safeguarding and welfare information is shared proactively and in response to requests where the statutory criteria are met; that information sharing decisions are made without unnecessary delay; that appropriate local multi-agency information-sharing routes and protocols are followed; and that decisions to share or not share information and the rationale for those decisions are appropriately recorded. The DSL will ensure that staff understand that consent and significant harm are not prerequisites for sharing information where the statutory information sharing duty applies.

The DSL works closely with the IT Lead and Online Safety Officer to ensure that filtering and monitoring arrangements remain effective, proportionate, age-appropriate and responsive to emerging safeguarding risks.

The DSL works with the governors and senior leaders to review and update the School's safeguarding policy and procedures.

Where a pupil leaves the School, including for in-year transfers, the DSL will also ensure their child protection file is transferred to the new school (separately from the main pupil file) as soon as possible and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. The DSL will ensure secure transit and obtain confirmation of receipt. In addition to the child protection file, the DSL should also consider if it would be appropriate to share any additional information with the new

school in advance of a child leaving to help them put in place the right support to safeguard this child and to help the child thrive in the school.

The DSL regularly reviews the School's and their own practices and concerns about welfare and safeguarding matters. This includes the personal and professional duty of all staff to report welfare and safeguarding concerns to the DSL, or in the absence of action, directly to local children's services.

During term time, the DSL and/or a DDSL will always be available in person (during school hours) for staff in the School to discuss any safeguarding concerns. During school hours, if a DSL or DDSL is not immediately available in person, they can be contacted by telephone or email using the details set out in the Key Contacts section.

For out-of-hours and out-of-term activities (including weekends and holidays) the DSL and DDSL can be contacted by emailing the DSL directly, or emailing the specific safeguarding email address safeguarding@burygrammar.com.

The DSL or a DDSL will liaise with the safeguarding partners and other relevant agencies in accordance with Working Together to Safeguard Children (2026). The NPCC guidance *When to call the police* can assist the DSL or DDSLs in deciding when the police should be contacted and what to expect when they are. If the School has questions about any police investigation, it will ask the police. The DSL or DDSL will also be responsible for liaising with the senior mental health lead and, where available, the Mental Health Support Team, where safeguarding concerns are linked to mental health. The School's Mental Health Lead is Mrs Kay Robinson, who is also a Deputy Designated Safeguarding Lead for the School.

The DSL and DDSLs will be familiar with the information-sharing arrangements, routes and protocols agreed by the Bury Safeguarding Partnership and will ensure that relevant information is directed to the appropriate part of the local safeguarding and welfare system. This includes appropriate routes for Family Help and emerging need as well as child protection and urgent safeguarding concerns.

The DSL and DDSLs should be confident as to what local specialist support is available to support all children involved in sexual violence and sexual harassment and be confident as to how to access this support when required.

Whilst the Principal should ensure that the policies and procedures adopted, particularly those concerning referrals of cases of suspected abuse, exploitation and neglect, are understood and followed by all staff, and the Governors are ultimately responsible for ensuring staff are competent, supported and regularly reviewed in relation to safeguarding, the ultimate lead responsibility for safeguarding and child protection remains with the DSL and this responsibility should not be delegated.

Full details of the DSL's role can be found at Annex C of *KCSIE*.

TRAINING

Induction and training are in line with advice from Bury Safeguarding Partnership.

All Staff

All new staff will be provided with induction training that includes:

- the child protection and safeguarding policy (including the policy and procedures to deal with child-on-child abuse);
- the role and identity of the DSL and any DDSLs
- the Behaviour Policy (including measures to prevent bullying, including cyberbullying, prejudice-based and discriminatory bullying);
- the staff Code of Conduct including the School's whistleblowing procedure and the acceptable use of technologies policy, staff/pupil relationships and communications including the use of social media;
- the safeguarding response to children who are absent from education, particularly on repeat occasions and/or prolonged periods or children missing education;
- the Online Safety Policy, including an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring;
- a copy of Part One of *KCSIE*
- The School's information-sharing responsibilities, including the statutory information sharing duty, the distinction between transparency and consent, and the requirement to report relevant safeguarding and welfare information promptly to the DSL/DDSL

Copies of the above documents are provided to all staff during induction.

Temporary staff and volunteers are provided with induction training on safeguarding issues from a DSL before they have contact with pupils. Such training includes:

- a) A copy of the School's Employee Handbook;
- b) A copy of the School's Safeguarding Policy;
- c) The staff Code of Conduct;
- d) The Behaviour Policy
- e) The Exclusion Policy
- f) The safeguarding response to children who go missing from education / are absent from education
- g) The role and identity of the DSL and any Deputy Designated Safeguarding Leads (DDSLs)
- h) A copy of Part 1 of Keeping Children Safe in Education (September 2026)
- i) Whistleblowing procedures;

- j) Acceptable Use Policy
- k) School Visitor Policy.
- l) Prevent Duty
- m) Online Safety Policy

All staff are also required to:

- Read Part one of *KCSIE* and confirm that they have done so. Each time Part One of *KCSIE* is updated by the Department for Education, staff will be updated on the changes via updates throughout the academic year via e-mail, e-bulletins and staff meetings, including updates to safeguarding guidance and legislation and changes to the School's safeguarding policies and procedures.
- Understand key information contained in Part One of *KCSIE*. The School will ensure staff understanding by surveying the staff from time to time to check on their understanding of specific safeguarding issues.
- Receive training in safeguarding and child protection regularly, in line with advice from the Bury Safeguarding Partnership. Training will include online safety (including the expectations, applicable roles and responsibilities in relation to filtering and monitoring and cyber security) and harmful sexual behaviours (including child-on-child sexual violence and harassment). It will also include Prevent awareness training to equip staff to understand the factors that lead people to support terrorist ideologies or engage in terrorist related activity, be able to recognise susceptibility to terrorism and be aware of what action to take in response, including the School's internal Prevent arrangements.
- Undertake regular informal updates, at least annually, to provide them with relevant skills and knowledge to safeguard children effectively, including online. The School provides these via, for example, at the September staff meeting each year which is then updated on a termly basis and/or whenever there is a change in legislation and/or school procedures.

All EYFS staff are required to attend safeguarding training specifically designed for staff caring for 0-5 year olds which must cover all the areas set out in Annex C to the EYFS Statutory Framework: "Criteria for effective safeguarding training."

Training must be renewed every two years by the DSL and all staff are required to attend. EYFS staff are supported to put their training into practice via regular updates and reminders from the DSL and training sessions, as well as weekly meetings with their line manager/Head of Department which will always include safeguarding reminders/updates.

The governing body or DSL will ensure that all governors receive appropriate safeguarding and child protection (including online safety which, amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in

relation to filtering and monitoring) training at induction. The governing body will ensure appropriate filtering and monitoring systems are in place, review their effectiveness regularly and receive safeguarding information which enables them to assure themselves that arrangements remain effective whilst recognising that it is not the role of governors to undertake the day-to-day operational management of filtering and monitoring systems.

This training should equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in place in the School are effective and support the delivery of a robust whole school approach to safeguarding. Their training should be regularly updated.

The governing body are aware of their obligations under the Human Rights Act 1998 (HRA), the Equality Act 2010, the Data Protection Act 2018, the UK GDPR, and their local multi-agency safeguarding arrangements. Under the Human Rights Act 1998, it is unlawful for the School to act in a way that is incompatible with the European Convention on Human Rights (ECHR) Convention. Being subjected to harassment, violence and or abuse, including that of a sexual nature, may breach conventions set out in the European Convention on Human Rights (ECHR) Convention. The Data Protection Act 2018 and the UK GDPR place duties on organisations and individuals to process personal information fairly and lawfully and to keep the information they hold safe and secure.

In addition, the governing body complies with the DfE's Data Protection guidance for schools, ensuring school staff, governors know how to comply with data protection law, develop their data policies and processes, what staff and pupil data to keep and the importance of good practices for preventing personal data breaches.

The governing body recognises the need to facilitate a whole school approach to safeguarding. This means involving everyone in the school and ensuring that safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development. The school recognises the need to promote an inclusive, anti-discriminatory culture where racism, and other forms of discriminatory behaviour are recognised, challenged and addressed as part of the school's safeguarding responsibilities. Ultimately, all systems, processes and policies operate with the best interests of the child at their heart.

DSL(s)

The DSL receives updated child protection training at least every two years to provide them with the knowledge and skills required to carry out the role. This includes local inter-agency working protocols, participation in child protection case conferences, supporting children in need, promoting the educational outcomes of children with a

social worker and other children who require additional safeguarding support, liaising with children's social care, Family Help services, safeguarding partners, police, health professionals and other relevant agencies, identifying children susceptible to radicalisation, record keeping and promoting a culture of listening to children, raising awareness, training in the Bury Safeguarding Partnership approach to *Prevent* duties and harmful sexual behaviours. The DSL also receives more in-depth training, including on extremist and terrorist ideologies, how to make referrals and how to work with Channel panels. This training is updated at least every two years, enabling the DSL to support other staff on Prevent matters and update them on relevant issues. The DSL also ensures filtering and monitoring concerns are considered alongside wider safeguarding information when assessing risk. Further details of the required training content for the DSL are set out in Annex C of *KCSIE*.

In addition to their formal training, the DSL's knowledge and skills are updated at least annually to keep up with any developments relevant to their role. In particular, the School will support the DSL in developing their knowledge and skills to understand the views of children including to encourage a culture of listening to children and taking account of their wishes, as well as having an awareness of the difficulties children may face in approaching staff with a disclosure.

All DDSLs are trained to the same level as the DSL.

OVERSIGHT OF SAFEGUARDING, INCLUDING ARRANGEMENTS FOR REVIEWING POLICIES AND PROCEDURES

Mr Tim McDougall is the nominated safeguarding governor with board-level responsibility for safeguarding arrangements within the School.

The School considers safeguarding to be an integral part of its day-to-day practice and governance. A review of the School's child protection policies takes place at least annually, including an update and review of the effectiveness of procedures and their implementation, including lessons learned. The nominated safeguarding governor reviews the safeguarding procedures and the effectiveness of their implementation. The School draws on the expertise of staff, including the DSLs, in shaping the School's safeguarding arrangements and policies.

The School's safeguarding policies and procedures should be transparent, clear, and easy to understand for staff, pupils, students, parents, and carers.

If there has been a substantiated allegation against a member of staff, the School will work with the LADO to determine whether there are any improvements to be made to the School's procedures or practice to help prevent similar events in the future.

THE SCHOOL'S ARRANGEMENTS TO FULFIL OTHER SAFEGUARDING RESPONSIBILITIES

Teaching children how to keep safe

The governing body ensures that all pupils are taught about safeguarding, including online safety, through the curriculum, including Relationships Education, Relationships and Sex Education (where applicable) and PSHE to help children to adjust their behaviours, both inside and outside of School, in order to reduce risks and build resilience, including to radicalisation and extremism. This includes teaching pupils about the safe use of technology and internet-enabled devices and the internet and the risks posed by adults or young people, who use the internet and social media to bully, groom, abuse or radicalise other people, especially children, young people and vulnerable adults. The School recognises that a "one size fits all" approach may not be appropriate for all children, and a more personalised or contextualised approach for more vulnerable children, victims of abuse and some children with SEND may be required.

Internet safety (including when children are online at home) is an integral part of the School's curriculum and also embedded in the Relationships and Sex Education Policy ("RSE").

Online abuse may occur in isolation or alongside abuse occurring offline and should always be considered within the wider safeguarding context.

Filtering and monitoring

The School has appropriate filters and monitoring systems in place to safeguard children from potentially harmful and inappropriate material online when using the School's IT system. The School's systems are designed to: prevent access to harmful or inappropriate content, including that which is illegal, inappropriate, or potentially harmful; avoid over-blocking, which could unreasonably restrict access to educational content or affect teaching and learning; support safeguarding, without unduly limiting pupils' learning experiences.

Such systems aim to reduce the risk of children being exposed to illegal, inappropriate or harmful materials online for example: pornography, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, extremism, misinformation, disinformation (including fake news) and conspiracy theories (**content risk**); reduce the risk of children being subjected to harmful online interaction with others including commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes (**contact risk**); restrict access to online risks such as online gambling, inappropriate advertising, phishing and/or financial scams (**commerce risk**); and help manage online behaviour that can

increase a child's likelihood of, or causes, harm for example making, sending and receiving explicit images e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying (**conduct risk**).

The School recognises that safeguarding incidents rarely occur exclusively online or offline. Technology frequently facilitates abuse occurring in person, and online concerns will always be considered alongside wider safeguarding information.

Filtering and monitoring should not be relied upon as the sole means of safeguarding children online and must operate alongside effective staff supervision, education, reporting systems and professional curiosity.

The School recognises however that children have unlimited and unrestricted access to the internet via mobile phone networks (i.e. 3G, 4G and 5G) which means that children may consensually and/or non-consensually share indecent images, sexually harass their peers via mobile and smart technology, and view and share pornography and other harmful content whilst at school undetected.

The School ensures compliance with the DfE's 'Cyber security/filtering and monitoring standards for schools' by;

- Identifying and assigning roles and responsibilities to manage filtering and monitoring systems.
- Reviewing the filtering and monitoring provision at least annually.
- Blocking harmful and inappropriate content without unreasonably impacting teaching and learning.
- Having effective monitoring strategies in place that meet our safeguarding needs.

The School utilises the DfE's 'plan technology for your school' service to self-assess compliance against the filtering and monitoring standards and ensures that any recommendations are incorporated as appropriate.

Filtering and monitoring information forms part of the School's wider safeguarding arrangements. Alerts will be reviewed alongside safeguarding records, attendance information, behaviour records, pastoral information and any known vulnerabilities to identify emerging risks and determine whether further safeguarding action is required.

The School's Online Safety Policy sets out the School's approach to AI. The School has regard to the DfE's guidance 'Generative AI: product safety expectations' when considering how the filtering and monitoring arrangements in place apply to the use of generative AI within education. The School ensures that any Generative AI products

effectively and reliably prevent access to harmful and inappropriate content by pupils by:

- integrating the highest standards of filtering possible within the product, and
- using additional filtering solutions that work on top of an AI product.

Further detail of the Schools policy and procedures in relation to online safety can be found in this Policy and in the School's Online Safety and Bullying Policies which also include detail on the use of mobile and smart technology in school, including the School's management of the associated risks, and the School's filtering and monitoring arrangements to ensure that children are safe from harmful and inappropriate content, including terrorist and extremist material when accessing the internet through the School's systems.

Staff will remain alert to safeguarding risks associated with generative artificial intelligence, including AI-generated extremist material, deepfakes, synthetic sexual imagery, impersonation, misinformation and image-based abuse. Concerns involving AI-generated content will be managed in accordance with this policy and the Child-on-Child Abuse Policy where appropriate.

The School will liaise with parents to reinforce the importance of children being safe online and the systems the School uses to filter and monitor online use. Parents and carers will be made aware of what their children are being asked to do online when undertaking remote learning, including the sites they will be asked to access and who from the School their child is going to be interacting with online.

The DSL will work alongside IT staff, the online safety officer and senior leaders to ensure filtering and monitoring arrangements remain effective, proportionate and appropriate to the school's safeguarding risk assessment.

The Governing Board will receive appropriate assurance that filtering and monitoring systems are effective, proportionate and regularly reviewed in line with the School's safeguarding risk assessment.

From 1 October 2026, the School's wider approach to reducing pupils' access to potentially harmful online content during the School day will also include the use of Yondr secure mobile device pouches for pupils in Years 5–11, in accordance with the School's Mobile Devices Policy. The Yondr arrangements complement, but do not replace, the School's filtering and monitoring systems, online safety education, staff supervision and safeguarding procedures. Appropriate individual arrangements and reasonable adjustments will be made where required for medical, SEND, safeguarding or welfare reasons.

Relationships and Sex Education (“RSE”)

The School understands that children and young people need knowledge and skills that will enable them to make informed and ethical decisions about their wellbeing, health and relationships.

The School's Relationships Education/RSE curriculum is delivered as part of a whole school approach to wellbeing and positive relationships that prepares children for life in modern Britain and creates a culture of zero tolerance for sexism, misogyny/misandry, homophobia, biphobic, and sexual violence/harassment. The School focusses on building positive attitudes and skills, promoting healthy norms about relationships, including sexual relationships where relevant, and about health, including mental health. The School recognises that discussions about sensitive topics in Relationships Education/RSE can lead to increased safeguarding reports. All staff know what to do if they have concerns that a pupil is being neglected or abused, including those who have seen, heard or experienced the effects of domestic abuse.

The School has regard to the DfE's statutory guidance *Relationships Education, Relationships and Sex Education (RSE) and Health Education* when making arrangements for and teaching Relationships Education and RSE.

The School's RSE Policy sets out the curriculum content, how and when it will be taught, and who is responsible for teaching it, including any external providers the School will use. The School proactively engages and consults parents in the development and review of this policy. Parents will be informed of their right to request that their child is withdrawn from sex education

Looked after children

The governing body ensures that staff have the skills, knowledge and understanding necessary to keep safe any children on roll who are looked after by a local authority.

Mrs Sarah Howard, who is also the DSL is the designated member of staff who has responsibility for their welfare and progress. The School ensures that the designated member of staff receives appropriate training in order to carry out their role.

Arrangements for visiting speakers

The School has clear protocols for ensuring that any visiting speakers are appropriately supervised and suitable. The School's responsibility to pupils is to ensure that they can critically assess the information they receive as to its value to themselves, and that the information is aligned to the ethos and values of the School and the British values of democracy.

The School will undertake a risk assessment before agreeing to a Visiting Speaker being allowed to attend the School. This will take into account any vetting requirements considered appropriate in the circumstances and may include a DBS check if relevant. This is done using the Visiting Speaker Proposal Form which contains a risk assessment. This takes into account any vetting considered appropriate in the circumstances and a *Google* search will be conducted on all visiting speakers to check for any history of unsuitable material. The Visitor Speaker Proposal Form can be found at Appendix 3 of this policy.

Visiting speakers will be expected to understand that, where appropriate, their session should actively promote the British values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs and at no point undermine these. In some cases, the School may request a copy of the Visiting Speaker's presentation and/or footage in advance of the session being provided.

Visiting Speakers, whilst on the School site, will be supervised by a School employee. On attending the School, visiting speakers will be required to show original current identification documents including a photograph such as a passport or photo card driving licence. The School shall also keep a formal register of visiting speakers retained in line with its Recruitment, Selection and Disclosure Policy and Procedure. If a visiting speaker is carrying out other duties for the School, on a paid or unpaid basis, then they may be in "regulated activity" and may be categorised as either staff or a volunteer. If that is the case, then formal vetting checks will be necessary in accordance with the usual practices for staff and/or volunteers; HR must be informed and they will be recorded on the School's single central register (SCR).

The School's arrangements for security, visitors, visiting speakers and contractors is set out in the Security, Visitor, and Visiting Speaker Policy and procedures.

Arrangements for use of school premises for non-school activities

When services or activities at the School are provided under the direct supervision or management of school staff, this Policy will apply in relation to any safeguarding concerns or allegations.

Where services or activities are not under the direct supervision or management of the School, the School will seek assurance that any individual or organisation has appropriate safeguarding and child protection policies and procedures in place (and the School will inspect these as needed); and ensure that there are arrangements in place for the provider to liaise with the School on these matters where appropriate. This applies regardless of whether or not the children who attend any of these services or activities are children on the school roll.

The School will ensure that the DSL or DDSL can be contacted and/or is available at all times the School premises are in use whether that activity is a school or non-school activity and regardless as to whether the children attending are on the school roll.

The DSL can be contacted on 0161 696 8600 and at rnewbold@burygrammar.com. The DDSLs can be contacted using the details in the Key Contacts section of this Policy.

If it is not possible to contact the DSL or one of the DDSLs, staff should consider taking advice from the Senior Leadership Team or contacting the Bury Multi-Agency Safeguarding Hub (MASH) Team on 0161 253 5678 or in an emergency: 0161 253 6606 or contact the Police on 0161 872 5050.

The School will ensure that safeguarding requirements are included in any agreement for use of the School premises (such as a lease or hire agreement) as a condition of use and occupation of the premises and that failure to do so by the provider to comply with this will lead to termination of the agreement.

Where the School hires or rents out school facilities or the School premises to organisations or individuals, e.g. for providers to run community or extracurricular activities, it will ensure that appropriate safeguarding arrangements are in place to keep pupils safe. The School will follow the DfE guidance *Keeping Children Safe in Education 2026* in these circumstances. As with any safeguarding allegation, the School will follow the safeguarding policies and procedures, including informing the LADO, should it receive an allegation relating to an incident that happened when an individual or organisation was using the school premises.

When considering the safeguarding arrangements any providers have in place the School will have regard to the DfE's non statutory guidance '*After school clubs, community activities, and tuition (safeguarding guidance for providers)*' (September 2023).

External bodies that host extracurricular activities and clubs at the School, e.g., charities or companies, will work in collaboration with the School to effectively safeguard pupils and adhere to local safeguarding arrangements.

Staff and volunteers running extracurricular activities and clubs are aware of their safeguarding responsibilities and promote the welfare of pupils. Paid and volunteer staff understand how they should respond to child protection concerns and how to make a referral to CSCS or the police, if necessary. All national governing bodies of sport that receive funding from either Sport England or UK Sport must aim to meet the Standards for Safeguarding and Protecting Children in Sport.

One to one tuition

Where one to one tuition needs to occur, staff need to ensure that they safeguard themselves and the pupil by placing a barrier (desk) between them and the pupil and that the door is open or there is visual access. Staff need to consider the best place to sit in the room and avoid being tucked away in corners.

One to one music tuition presents a hazard which music teachers and VMTs must risk assess. Physical contact should not take place and “playing positions” should be demonstrated but not physically assisted.

Sports tuition should also be risk assessed, it may be that physical contact is necessary and proper to aid coaching, but this should always occur in a way that would not lead a reasonable observer to question conduct, intentions or suitability for other people’s children.

Operation Encompass

The School is part of Operation Encompass, a national police and early intervention safeguarding partnership which supports children who experience domestic abuse.

Through Operation Encompass the police are required to share information with the School about **all** police attended domestic abuse incidents which involve any of our children who are related to either of the adults involved in the incident. This sharing of information should occur prior to the start of the next school day. The notification should be sent to the DSL (known as the Key Adult) and inform us about the context of the incident and will include the child’s perspective.

The Operation Encompass notification is stored in line with all other confidential safeguarding and child protection information.

The School’s Key Adult, Rachel Newbold (DSL) and their deputy/ies have completed the National Online Operation Encompass Key Adult training. All staff are encouraged to undertake the online training. The Key Adult/DSL will provide training for all staff and Governors about Operation Encompass, the prevalence of domestic abuse and the impact of this abuse on children.

We ensure our parents are fully aware that we are an Operation Encompass setting including when a new child joins the School.

The Safeguarding Governor reports on Operation Encompass in the termly report to Governors. All information is anonymised for these reports.

EARLY YEARS PROVISION SAFEGUARDING ARRANGEMENTS

The School adheres to the requirements set out in the EYFS Statutory Framework including the requirements regarding paediatric first aid training, safer eating and children’s privacy in relation to toileting and nappy changes.

Disqualification from working in childcare

Where staff work in, or are involved in the management of, the School's early years or provision of care of pupils under the age of eight, the School will take steps to check whether those staff are disqualified under the Childcare Act 2006. These checks will be undertaken pre-appointment, and from time to time during employment. This forms part of the School's safer recruitment practices, further details of which can be found in the School's Recruitment, Selection and Disclosure Policy and Procedure.

The School records all checks of staff employed to work in or manage relevant childcare on the Single Central Register. This includes the date disqualification checks were completed.

Where a member of staff is found to be disqualified or if there is doubt over that issue then, pending resolution, the School will remove them from the work from which they are or may be disqualified. Suspension or dismissal will not be an automatic response; the School will consider if there is scope in principle to redeploy them with other age groups or in other work from which they are not disqualified, subject to assessing the risks and taking advice from the LADO when appropriate.

Use of mobile phones and cameras

The School's policy on the use of mobile phones and cameras in the setting can be found in the School's Acceptable Use Policy.

A 'mobile device' may be a phone, iPad, iPod or iPhone, tablet or laptop, smartwatch or any form of electronic device with imaging, audio and/or sharing capabilities. Staff may bring personal mobile devices for their own use, but these may not be used to contact parents or carers. Staff must ensure that their personal devices do not contain inappropriate or illegal content.

Personal mobile devices must be kept in safe areas outside the setting throughout contact time with children. Staff wearing personal smartwatches must ensure that notifications are turned off and that watches are set to 'Flight mode/School mode' or are not connected to the internet. This requirement applies to all staff, parent helpers and pupils. Parents and visitors are not permitted to use personal mobile devices within the EYFS setting and notices informing visitors of this are displayed at entry points.

Authorised members of staff who have been issued with a School-owned mobile phone may carry and use that device within the EYFS setting where this is necessary for legitimate School purposes, including safeguarding, pastoral, operational or emergency purposes. School-owned mobile phones must be used solely for authorised School business, kept secure and used in accordance with the School's

Acceptable Use, Mobile Devices, Online Safety and data protection requirements. The device must remain in its School-issued identifiable case and, so far as reasonably practicable, the School identification should remain visible when the device is in use. Any photography, video or audio recording involving children must only take place where there is an authorised School purpose and in accordance with the School's safeguarding and data protection requirements.

Personal mobile devices cannot be used to record classroom activities, only authorised School-owned devices can be used for this purpose. Photographs are taken for the purpose of recording a child or group of children participating in activities or celebrating their achievements. These form an effective record of a child's progression in the Early Years Foundation Stage. However, it is essential that photographs are taken and stored appropriately to safeguard the children in our care. Images can only be transferred to and stored on a school computer to be printed. Parental consent is sought for photographs to be taken or published i.e. on the School website or in publications. During trips and visits – school provided mobile phones and cameras should be used. A member of staff may take his/her personal device but only for the purposes of contacting school.

Designated Safeguarding Lead for the EYFS

The Designated Safeguarding Lead who takes lead responsibility for safeguarding children in the early years settings is Rachel Newbold.

Duty to notify Ofsted

The School will inform Ofsted of any significant event which is likely to affect the suitability of any person who is in regular contact with children on the premises where childcare is provided. For example, where the School is satisfied that a person working in a relevant setting falls within one of the disqualification criteria. Any significant event must be notified to Ofsted as soon as reasonably practicable, but at the latest within 14 days of the date the School became aware (or ought reasonably to have become aware) of it.

The School will notify Ofsted within 14 days of any allegations of serious harm or abuse by any person living, working, or looking after children at the premises (whether the allegations relate to harm or abuse committed on the premises or elsewhere).

Safeguarding training

The School ensures staff are trained in line with the criteria set out in Annex C of the EYFS Statutory Framework and are supported to implement the Policy on an ongoing basis.

The DSL provides support, advice and guidance to all staff on an ongoing basis, and on specific safeguarding issues that may arise. The DSL attends a training course, consistent with the criteria set out in Annex C of the EYFS Statutory Framework.

The School's safeguarding training will be renewed every two years, plus regular updates to keep staff knowledge current. The School will consider whether staff need to undertake annual refresher training during any two-year period and to keep up to date with changes to safeguarding procedures or as a result of any safeguarding concerns that may occur at the School.

APPENDIX 1 – SIGNS AND TYPES OF ABUSE

All School staff should be aware that abuse, neglect, exploitation and safeguarding issues are rarely standalone events and cannot be covered by one definition or one label alone. In most cases, multiple issues will overlap. Therefore staff should always be vigilant and always raise any concerns with the DSL or DDSLs.

All staff should be aware that safeguarding incidents and/or behaviours can be associated with factors outside the School and/or can occur between children outside of these environments. All staff, but especially the DSL and DDSLs, should consider whether children are at risk of abuse or exploitation in situations outside the home. This is often referred to as “extra-familial harm”. Extra-familial harm can occur in a range of extra-familial contexts, including in school, peer groups, or within community/public spaces, and/or online. Children may experience this type of harm from other children and/or from adults. Forms of extra-familial harm include exploitation by criminal and organised crime groups and individuals (such as county lines and financial exploitation), serious violence, modern slavery and trafficking, online harm, sexual exploitation, teenage relationship abuse, and the influences of extremism which could lead to radicalisation. Children of all ages can experience extra-familial harm and may experience multiple extra familial harms simultaneously.

All staff should be aware that technology is a significant component in many safeguarding and wellbeing issues and should recognise that children are at risk of abuse online as well as face to face. In many cases abuse will take place concurrently online and in daily life. Staff should be aware that children can also abuse their peers online, this can take the form of abusive, harassing, and misogynistic/misandrist messages, the consensual and non-consensual sharing of nudes and semi-nudes, including AI-generated, digitally altered or synthetic images, especially around chat groups, and the sharing of abusive images and pornography, to those who do not want to receive such content.

In all cases, if staff are unsure, they should always speak to the DSL or DDSLs.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning, or scalding, drowning, suffocating or otherwise causing physical harm to a child (including through corporal punishment). Physical harm may also be

caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include verbal abuse, such as persistent criticism, belittling, or name-calling, as well as not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing, causing or inciting a child to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, such as acts of penetration, whether that is with part of a person's body or an object (e.g. rape or assault by penetration), and non-penetrative acts such as masturbation, kissing, rubbing, and touching over clothing. Sexual abuse may also include non contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online as well as offline, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. Children can be sexually abused within the family, an institution or a community setting, and are more likely to know their abuser than not. The sexual abuse of children by other children is a specific safeguarding issue in education and all staff should be aware of it and of their school or college's policy and procedures for dealing with it. There are specific offences for children under 13, who can never provide valid consent to sexual activity and there are specific offences which make clear that sexual activity with a child under 16 is an offence, regardless of whether they agreed to that activity.

The Centre of Expertise on Child Sexual Abuse has introduced new resources to help education professionals identify and respond to concerns of child sexual abuse and abusive behaviours. There are also the below resources available:

Tackling Child Sexual Abuse Strategy – Home Office policy paper

Together we can stop child sexual abuse – HM Government campaign

Sexual harassment: is ‘unwanted conduct of a sexual nature’ that can occur online and offline and both inside and outside of school. Sexual harassment is likely to violate a child’s dignity, and/or make them feel intimidated, degraded, or humiliated and/or create a hostile, offensive or sexualised environment. Sexual harassment can include sexual comments, such as telling sexual stories, making lewd comments, making sexual remarks about clothes and appearance and calling someone sexualised names; sexual “jokes” or taunting; physical behaviour, such as deliberately brushing against someone, interfering with someone’s clothes; or upskirting, and sharing of unwanted explicit content (for example displaying pictures, photos or drawings of a sexual nature); and online sexual harassment, which might include consensual or non-consensual sharing of sexual images and videos (often referred to as the sharing of nudes/semi-nudes, or sexting – see below); inappropriate sexual comments on social media; exploitation; coercion and threats. Online sexual harassment may be standalone, or part of a wider pattern of sexual harassment and/or sexual violence.

Sexual violence: refers to sexual offences under the Sexual Offences Act 2003, including rape, assault by penetration, sexual assault, and/or causing someone to engage in sexual activity without consent. Consent to sexual activity may be given to one sort of sexual activity, but not another, or penetration with conditions, such as wearing a condom. Consent can be withdrawn at any time during sexual activity and each time activity occurs. A child under the age of 13 can never consent to any sexual activity. The age of consent is 16, and sexual intercourse without consent is rape.

Child-on-child sexual violence and/or harassment: Sexual violence and sexual harassment (as defined above) can occur between two children of any age and sex, from primary through to secondary stage and into colleges. It can occur through a group of children sexually assaulting or sexually harassing a single child or group of children. It is more likely that girls will be the victims of sexual violence and harassment, and it is more likely that it will be perpetrated by boys. It can however occur between children of any sex. Sexual violence and sexual harassment exist on a continuum and may overlap; they can occur online and face to face (both physically and verbally) and are never acceptable. Children who are victims of sexual violence and/or sexual harassment wherever it happens, will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school or college.

Harmful sexual behaviour: problematic, abusive and violent sexual behaviour is developmentally inappropriate and may cause developmental damage. A useful umbrella term is “harmful sexual behaviour”. Harmful sexual behaviour can occur online and/or face-to-face and can also occur simultaneously between the two. Sexual behaviour between children can be considered harmful if one of the children is much

older, particularly if there is more than two years' age difference, or if one of the children is pre-pubescent and the other is not. However, a younger child can abuse an older child, particularly if they have power over them, for example, if the older child is disabled or smaller in stature.

The Lucy Faithfull Foundation in collaboration with the Home Office, has developed 'Shore Space', an online resource which works to prevent harmful sexual behaviour. Shore Space offers a confidential chat service supporting young people who are concerned about their own or someone else's sexual thoughts and behaviour.

The Lucy Faithfull Foundation has developed a harmful sexual behaviour toolkit, which amongst other things, provides support, advice and information on how to prevent it, links to organisations and helplines, resources about harmful sexual behaviour by children, internet safety, sexual development and preventing child sexual abuse.

The NSPCC provides free and independent advice about harmful sexual behaviour: NSPCC Learning: Protecting children from harmful sexual behaviour and NSPCC - Harmful sexual behaviour framework.

Beyond Referrals | The Contextual Safeguarding programme based at the University of Durham provides a school self-assessment toolkit and guidance for addressing harmful sexual behaviour in schools.

StopItNow – Preventing harmful sexual behaviour in children: provides a guide for parents, carers and professionals to help everyone do their part in keeping children safe, they also run a free confidential helpline.

Sharing of nudes and/or semi-nudes: the sending or posting of nude or semi-nude images, videos, or live streams online by young people under the age of 18. This could be via social media, gaming platforms, chat apps or forums. It could also involve sharing between devices via services like Apple's AirDrop which works offline. The sharing of nudes and semi-nudes can happen publicly online, in 1:1 messaging or via group chats and closed social media accounts and may include images or footage of more than one child or young person.

Alternative terms used by children and young people may include 'dick pics' or 'pics' or may be referred to by adults or professionals as 'youth produced/involved sexual imagery', 'indecent imagery', 'image based sexual abuse' or 'sexting'. Terms such as 'deep fakes' and 'deep nudes' may also be used by adults and young people to refer to digitally manipulated and AI-generated nudes and semi-nudes.

The motivations for taking and sharing nude and semi-nude images, videos and live streams are not always sexually or criminally motivated. Such images may be created and shared consensually by young people who are in relationships, as well as between

those who are not in a relationship. It is also possible for a young person in a consensual relationship to be coerced into sharing an image with their partner. Incidents may also occur where:

- children and young people find nudes and semi-nudes online and share them claiming to be from a peer
- children and young people digitally manipulate an image of a young person into an existing nude online or use artificial intelligence (AI) to generate a new nude or semi-nude image of a young person
- images created or shared are used to abuse or blackmail peers. Situations could include:
 - o children and young people selling nudes or semi-nudes of others online
 - o children and young people coercing a peer into sharing a nude or semi-nude to blackmail them for money, further images, or force them into illegal activity
 - o children and young people hacking a peer's account to share images more widely without consent to publicly shame
- children and young people create and share a nude or semi-nude with an adult who has presented themselves as someone under the age of 18 to groom, sexually abuse or blackmail them.

For this reason, incidents can either be classified as 'aggravated' or 'experimental'. The DDCMS / UKIS guidance "*Sharing nudes and semi-nudes: advice for education settings working with children and young people*" (March 2024) sets out the classification of incidents, and how each should be handled.

Upskirting: is a criminal offence and typically involves taking a picture under a person's clothing (not necessarily a skirt) without their permission and/or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm. Anyone of any sex can be a victim.

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or

treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Serious violence: indicators which may signal that children are at risk from, or are involved with serious violent crime include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation. All staff should be aware of the associated risks which increase the likelihood of involvement in serious violence (for example, being male, frequent absence from school or permanently excluded from school, experienced child maltreatment or having been involved in offending) and understand the measures in place to manage these.

Specific safeguarding issues: behaviours linked to drug taking, alcohol abuse, unexplainable and/or persistent absences from education and sexting put children in danger. Safeguarding issues can also manifest themselves via child on child abuse, such as abuse within intimate partner relationships, bullying (including cyberbullying), gender-based violence/sexual assaults, sexting and upskirting. Safeguarding issues can also be linked to, for example, children being absent, repeatedly and/or for prolonged periods, children missing from education; child sexual exploitation; domestic violence; fabricated or induced illness; faith abuse (including ostracism of families); female genital mutilation; forced marriage; gangs and youth violence; gender-based violence / violence against women and girls; hate; mental health; preventing radicalisation; relationship abuse; sexting; consensual and non-consensual sharing of nudes and semi-nudes; and trafficking.

Child sexual exploitation (CSE): CSE is a form of child sexual abuse (see above) which occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into taking part in sexual activity. It may involve an exchange for something the victim needs or wants (for example, money, gifts or affection), and/or the financial advantage or increased status of the perpetrator or facilitator. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources.

The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. CSE can affect any persons (male or female) under the age of 18 years (including 16 and 17 year olds who can legally consent to have sex) who has been coerced into engaging in sexual activities. It can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity and may occur without the child or young person's immediate knowledge (e.g. through others copying videos or

images they have created and posted on social media). Some children may not realise they are being exploited e.g. they believe they are in a genuine romantic relationship.

CSE can be a one-off occurrence or a series of incidents over time and range from opportunistic to complex organised abuse. It can involve force and/or enticement-based methods of compliance and may, or may not, be accompanied by violence or threats of violence.

The below CCE indicators can also be indicators of CSE, as can:

- children who have older boyfriends or girlfriends, and
- children who suffer from sexually transmitted infections, display sexual behaviours beyond expected sexual development or become pregnant.

The DfE has published guidance on this entitled “*Child sexual exploitation: guide for practitioners*”. The Children’s Society and Home Office has also published guidance on Preventing Child Sexual Exploitation.

CSE may occur alone, or may overlap with CCE, and/or county lines, as well as other forms of abuse.

Child criminal exploitation (CCE): CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into taking part in any criminal activity. It may involve an exchange for something the victim needs or wants (for example, money, gifts or affection), and/or (for the financial or other advantage (such as increased status) of the perpetrator or facilitator and/or through violence or the threat of violence. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines, see below), forced to shoplift or pickpocket. They can also be forced or manipulated into committing vehicle crime or threatening/committing serious violence to others.

Children can become trapped by this type of exploitation as perpetrators can threaten victims (and their families) with violence or entrap and coerce them into debt. They may be coerced into carrying weapons such as knives or begin to carry a knife for a sense of protection from harm from others. Children can be exploited by adult males or females, as individuals or in groups. They may also be exploited by other children, who themselves may be experiencing exploitation – where this is the case, their

vulnerability as victims is not always recognised by adults and professionals (especially when they are older children). It is important in these circumstances that the child perpetrator is also recognised as a victim.

Some of the following can be indicators of CCE:

- children who appear with unexplained gifts, money, or new possessions
- children who associate with other children involved in exploitation
- children who suffer from changes in emotional well-being
- children who misuse drugs and alcohol
- children who go missing for periods of time or regularly come home late, and
- children who regularly miss school or education or do not take part in education.

The experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however staff should be aware that girls are at risk of criminal exploitation too. It is also important to note that both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

CCE may occur alone, or may overlap with CSE, and/or county lines, as well as other forms of abuse.

Children who have been exploited will need additional support to help maintain them in education.

County lines: County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs, using dedicated mobile phone lines or other form of “deal line”.

This activity can happen locally as well as across the UK – no specified distance of travel is required. Children and vulnerable adults exploited to sell drugs and move and store drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools (mainstream and special), further and higher educational institutions, pupil referral units, children’s homes and care homes. Children are increasingly being targeted and recruited online using social media. Children can easily become trapped by this type of exploitation as county lines gangs can manufacture drug debts which need to be worked off or threaten serious violence and kidnap towards victims (and their families) if they attempt to leave the county lines network.

A number of the ways of identifying indicators for CSE and CCE as detailed above may be applicable to where children are involved in county lines. Some additional specific indicators that may be present where a child is criminally exploited through involvement in county lines are children who:

- go missing (from school or home) and are subsequently found in areas away from their home;
- that have been the victim, perpetrator or alleged perpetrator of serious violence (e.g. knife crime);
- are involved in receiving requests for drugs via a phone line, moving drugs, handing over and collecting money for drugs;
- are exposed to techniques such as 'plugging', where drugs are concealed internally to avoid detection;
- are found in accommodation that they have no connection with, often called a 'trap house or cuckooing' or hotel room where there is drug activity;
- owe a 'debt bond' to their exploiters;
- have their bank accounts used to facilitate drug dealing.

Further information on the signs of a child's involvement in county lines is available in guidance published by the Home Office and The Children's Society County Lines Toolkit For Professionals.

Modern Slavery: Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs. Further information on the signs that someone may be a victim of modern slavery, the support available to victims and how to refer them to the National Referral Mechanism is available in the statutory guidance "*Modern slavery: how to identify and support victims (June 2025)*".

Cybercrime: is criminal activity committed using computers and/or the internet. It is broadly categorised as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-line) or 'cyber dependent' (crimes that can be committed only by using a computer). Cyber-dependent crimes include:

- unauthorised access to computers (illegal 'hacking'), for example accessing a school's computer network to look for test paper answers or change grades awarded;
- denial of Service (Dos or DdoS) attacks or 'booting'. These are attempts to make a computer, network, or website unavailable by overwhelming it with internet traffic from multiple sources; and,
- making, supplying, or obtaining malware (malicious software) such as viruses, spyware, ransomware, botnets, and Remote Access Trojans with the intent to commit further offence, including those above.

Children with particular skill and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime.

If there are concerns about a child in this area, the DSL (or a deputy), should consider referring into the Cyber Choices programme. This is a nationwide police programme supported by the Home Office and led by the National Crime Agency, working with regional and local policing. It aims to intervene where young people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests. Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of illegal drugs on-line and child sexual abuse and exploitation, nor other areas of concern such as on-line bullying or general on-line safety.

Additional advice can be found at: Cyber Choices, 'NPCC- When to call the Police' and National Cyber Security Centre – NCSC.gov.uk.

Mental health: all staff should be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Mental health should not be viewed in isolation from wider safeguarding concerns.

Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Staff, however, are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.

Where children have suffered abuse, exploitation and neglect, or potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood, adolescence and into adulthood. It is key that staff are aware of how these children's experiences can impact on their mental health, behaviour, attendance and progress at school.

If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken, following this policy, and speaking to the DSL {or DDSL}.

When concerns about a child's mental health are identified, the School will consider whether there are associated concerns relating to attendance, behaviour, online activity, contextual safeguarding, exploitation, SEND or family circumstances requiring further assessment or support.

More information can be found in the Mental health and behaviour in schools guidance. Public Health England has produced a range of resources to support secondary school teachers to promote positive health, wellbeing and resilience among children.

So called ‘honour based’ abuse: encompasses crimes which have been committed to protect or defend the honour of the family and/or the community, including Female Genital Mutilation (FGM)], forced marriage, and practices such as breast ironing.

Abuse committed in the context of preserving “honour” often involves a wider network of family or community pressure and can include multiple perpetrators. It is important to be aware of this dynamic and additional risk factors when deciding what form of safeguarding action to take.

FGM comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. Guidance on the warning signs that FGM may be about to take place, or may have already taken place, can also be found on pages 38-41 of the Multi-agency statutory guidance on FGM. To give an example of indications that a girl has already been subjected to FGM:

- A pupil may have difficulty walking, sitting, or standing and may even look uncomfortable.
- A pupil may have frequent urinary, menstrual or stomach problems or spend longer than normal in the bathroom due to difficulties urinating.
- There may be prolonged or repeated absences from school and/or noticeable behaviour changes (e.g. withdrawal or depression) on the pupil’s return.
- A pupil is reluctant to undergo medical examination.

If staff have a concern that a pupil may be at risk of FGM, they should speak to the DSL {or DDSL} who will (where appropriate) activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and Children’s Social Care.

There is a statutory duty on teachers to personally report to the police where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Unless the teacher has a good reason not to, they should still consider and discuss any such case with the DSL and involve children’s social care as appropriate. If the teacher is unsure whether this reporting duty applies, they should discuss their concerns with the DSL in accordance with this policy. Where a teacher suspects that a pupil is at risk (i.e. where the teacher does not discover that an act of FGM appears to have been carried out, either through disclosure by the victim or visual evidence) or it involves a pupil over 18, teachers should follow the School’s local safeguarding procedures.

Further information can be found in the *Multi-agency statutory guidance on female genital mutilation and the FGM resource pack*, particularly section 13.

Forced marriage: Forcing a person into a marriage is a crime in England and Wales. A forced marriage is one entered into without the full and free consent of one or both

parties and where violence, threats or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological. A lack of full and free consent can be where a person does not consent or where they cannot consent (if they have learning disabilities, for example). Nevertheless, some communities use religion and culture as a way to coerce a person into marriage. Since February 2023 it has also been a crime to carry out any conduct whose purpose is to cause a child to marry before their 18th birthday, even if violence, threats or another form of coercion are not used. As with the existing forced marriage law, this applies to non-binding, unofficial 'marriages' as well as legal marriages.

Schools and colleges can play an important role in safeguarding children from forced marriage. There are a range of potential indicators that a child may be at risk of forced marriage, details of which can be found in the *Multi-agency guidelines: Handling cases of forced marriage (last updated April 2023)* Further information on forced marriage is available in guidance published on gov.uk and by the Forced Marriage Unit. School staff can also contact the Forced Marriage Unit if they need advice or information: Contact: 020 7008 0151 or email fm@fcdo.gov.uk.

Radicalisation: is the process of a person legitimising support for, or use of, terrorist violence.

Extremism is the vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs. It can also call for the death of members of the armed forces, whether in this country or overseas.

Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious, or ideological cause.

There is no single way of identifying whether a child is likely to be susceptible to radicalisation into terrorism, there are factors that may indicate concern. However, it is possible to protect people from extremist ideology and intervene to prevent those at risk of radicalisation being drawn to terrorism. As with other safeguarding risks, staff should be alert to changes in children's behaviour, which could indicate that they may be in need of help or protection. Staff should use their judgement in identifying children who might be susceptible and act proportionately, which may include making a Prevent referral.

Prevent concerns will be considered alongside wider safeguarding information including attendance, behaviour, online safety, filtering and monitoring alerts, mental health, contextual safeguarding, exploitation and family circumstances.

Relevant information will be shared with the police where required to support consideration of a Prevent or Channel referral, in accordance with data protection law and the School's information-sharing responsibilities.

Designated safeguarding leads and other senior leaders in colleges should familiarise themselves with the revised Prevent duty guidance: for England and Wales especially paragraphs 141-210, which are specifically concerned with education. Staff should contact the DSL or the DDSL who should be aware of the local procedures in place, before making a Prevent referral.

In the event of a child leaving, the DSL should consider if it would be appropriate to share any information with the new school or college. For example, information that would allow the new school or college to continue supporting victims of abuse or those who are currently receiving support through the 'Channel' programme and have that support in place for when the child arrives at the new school.

Special educational needs and/or disabilities (SEND), or pupils with certain health conditions: Pupils with SEND or certain health conditions can face additional safeguarding challenges. These children may not outwardly show signs of abuse and/or may have difficulties in communication about abuse or neglect, or bullying.

These can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration;
- these children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children;
- the potential for children with SEND or certain health conditions being disproportionately impacted by behaviours such as peer group isolation or bullying (including prejudice-based bullying), without outwardly showing any signs;
- communication barriers and difficulties in managing or reporting these challenges;
- being unable to understand the difference between fact and fiction in online content and then repeating the content/behaviours in school or the consequences of doing so.

Staff will support such pupils in expressing any concerns they may have and will be particularly vigilant to any signs or indicators of abuse, discussing this with the DSL as appropriate.

Lesbian, gay, bisexual or gender questioning: A child or young person being lesbian, gay or bisexual is not in itself an inherent risk factor for harm, however, they

can sometimes be targeted by other children. In some cases, a pupil who is perceived by their peers to be lesbian, gay or bisexual (whether they are or not) can be just as vulnerable as children who are.

When supporting a gender questioning child, the School will take a cautious approach and consider the broad range of the pupils individual needs, in partnership with the parents (other than in the exceptionally rare circumstances where involving parents would constitute a significant risk of harm to the child), including any clinical advice that is available and how to address wider vulnerabilities such as the risk of bullying.

Risks can be compounded where children lack trusted adults with whom they can be open. The School endeavours to reduce the additional barriers faced and create a culture where they can speak out or share their concerns with members of staff.

LGB children can be targeted by other children and may experience additional risks, including bullying, prejudice-based abuse, discrimination or difficulties in reporting concerns.

The School also recognises that gender-questioning children may experience additional vulnerability, including bullying, abuse or social isolation. Staff will take a child-centred and safeguarding-led approach to any concerns and will consider the individual child's circumstances, wishes and feelings, alongside the School's duties under safeguarding, equality and other applicable statutory guidance.

Where a child may be at risk of abuse, neglect, exploitation, bullying or other harm, staff will respond in accordance with this safeguarding policy regardless of the child's sexual orientation or whether the child is questioning their gender.

Domestic abuse: The Domestic Abuse Act 2021 introduces a statutory definition of domestic abuse and recognises the impact of domestic abuse on children, as victims in their own right, if they see, hear, or experience the effects of abuse. The statutory definition of domestic abuse, based on the previous cross-government definition, ensures that different types of relationships are captured, including ex-partners and family members. The definition captures a range of different abusive behaviours, including but not limited to, psychological, sexual, physical, emotional, and economic abuse and coercive and controlling behaviour, stalking and harassment. Both the person who is carrying out the behaviour and the person to whom the behaviour is directed towards must be aged 16 or over and they must be “personally connected” (as defined in section 2 of the 2021 Act).

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse and child/adolescent to parent violence and abuse.

Anyone can be a victim of domestic abuse, regardless of gender, age, ethnicity, socio-economic status, sexuality or background and domestic abuse can take place inside or outside of the home. The government will issue statutory guidance to provide further information for those working with domestic abuse victims and perpetrators, including the impact on children.

All children can witness and be adversely affected by domestic abuse in the context of their home life where domestic abuse occurs between family members. Experiencing domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Young people can also experience domestic abuse within their own intimate relationships. This form of child on child abuse is sometimes referred to as 'teenage relationship abuse'. Depending on the age of the young people, this may not be recognised in law under the statutory definition of 'domestic abuse' (if one or both parties are under 16). However, as with any child under 18, where there are concerns about safety or welfare, child safeguarding procedures should be followed and both young victims and young perpetrators should be offered support.

Domestic abuse may lead to other safeguarding concerns and should therefore be managed under this policy.

Operation Encompass: operates in all police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when the police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the key adult (usually the designated safeguarding lead (or a deputy)) in school before the child or children arrive at school the following day. This ensures that the School has up to date relevant information about the child's circumstances and can enable immediate support to be put in place, according to the child's needs.

Operation Encompass does not replace statutory safeguarding procedures. Where appropriate, the police and/or schools should make a referral to local authority children's social care if they are concerned about a child's welfare.

More information about the scheme and how schools can become involved is available on the Operation Encompass website. Operation Encompass provides an advice and helpline service for all staff members from educational settings who may be concerned about children who have experienced domestic abuse. The helpline is available 8:00 to 13:00, Monday to Friday on 0204 513 9990 (charged at local rate).

Homelessness: Being homeless, or at risk of homelessness presents a real risk to a child's welfare. The School should be aware of potential indicators of homelessness including household debt, rent arrears, domestic abuse, and anti-social behaviour, as well as a family being asked to leave a property. If staff are made aware or suspect that a pupil may be at risk of homelessness they should talk to the DSL in the first instance. Whilst referrals to the Local Housing Authority should be progressed as appropriate, and in accordance with local procedures, this does not and should not replace a referral to the LADO where a child has been harmed or is at risk of harm, in accordance with this policy.

Temporary accommodation notification duty: Where the School is notified that a child and their family have been placed in temporary accommodation, the DSL will consider the information as part of the child's wider safeguarding circumstances. The School will liaise with the relevant local authority and other agencies where appropriate, consider any impact on attendance, transport, health, wellbeing and educational continuity, and ensure that concerns are recorded and acted upon in accordance with this policy.

Children who are absent from school: A child being absent from school, particularly repeatedly and/or for prolonged periods, and children missing education is a potential indicator of a range of safeguarding issues such as abuse, neglect, sexual abuse, CSE and CCE. It can also be a sign of child criminal exploitation including involvement in county lines. It may indicate mental health problems, risk of substance abuse, risk of travelling to conflict zones, risk of FGM, so-called 'honour'-based abuse or risk of forced marriage. Staff must follow the School's procedures for dealing with children who are absent, particularly persistently or for prolonged periods. The School's procedure for dealing with children who are absent and/or missing can be found in the School's Attendance Policy. All unexplained absences will be followed up in accordance with the Attendance Policy.

The School shall inform the local authority of any pupil who is going to be added to or deleted from the School's admission register at non-standard transition points in accordance with the requirements of The School Attendance (Pupil Registration) (England) Regulations 2024. This will assist the local authority to:

- a) fulfil its duty to identify children of compulsory school age who are missing from education; and
- b) follow up with any child who might be in danger of not receiving an education and who might be at risk of abuse, neglect, exploitation or radicalisation.

School attendance registers are carefully monitored to identify any trends. The School will inform the local authority (and the local authority where the child is normally resident) of any pupil who fails to attend school regularly, or has been absent without

the School's permission for a continuous period of 10 school days or more, at such intervals as are agreed between the School and the local authority.

Action should be taken in accordance with this policy if any absence of a pupil from the School gives rise to a concern about their welfare. The School's policy supports identification of abuse and provides preventative measures against the risk of the child being absent and/or becoming a child missing education in the future. This applies when issues are first emerging as well as where children are already known to the local authority children's social care and need a social worker.

Child abduction and community safety incidents: Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal responsibility for the child. Child abduction can be committed by parents or other family members; by people known but not related to the victim (such as neighbours, friends, and acquaintances); and by strangers.

Other community safety incidents in the vicinity of a school can raise concerns amongst children and parents, for example, people loitering nearby or unknown adults engaging children in conversation.

As children get older and are granted more independence (for example, as they start walking to school on their own) it is important they are given practical advice on how to keep themselves safe. Many schools provide outdoor-safety lessons run by teachers or by local police staff.

It is important that lessons focus on building children's confidence and abilities rather than simply warning them about all strangers. Further information is available at: www.actionagainstabduction.org and www.clevernevergoes.org.

Children and the court system: Children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. There are two age appropriate guides to support children 5-11 year olds and 12-17 year olds available on the gov.uk website.

The guides explain each step of the process and support and special measures that are available. There are diagrams illustrating the courtroom structure and the use of video links is explained.

Making child arrangements via the family courts following separation can be stressful and entrench conflict in families. This can be stressful for children. The Ministry of Justice has launched an online child arrangements information tool with clear and concise information on the dispute resolution service. The School may refer some parents and carers to this service where appropriate.

Children with family members in prison: Approximately 200,000 children in England and Wales have a parent sent to prison each year. These children are at risk of poor outcomes including poverty, stigma, isolation, and poor mental health.

The Prison Service will undertake a child safeguarding enquiry with children's social care for all sentenced prisoners to identify any who present an ongoing risk to children from within custody. Prisons will also decide on the level of contact, if any, they will allow between a prisoner and a child based on a child contact risk assessment.

The National Information Centre on Children of Offenders (NICCO) provides information designed to support professionals working with offenders and their children, to help mitigate negative consequences for those children.

APPENDIX 2: QUICK GUIDE TO RECORD KEEPING AND CPOMS

Welfare concerns are raised by any staff using the paperless CPOMS system and they are an essential part of the early identification of safeguarding concerns and unmet needs. If any member of staff cannot access CPOMS, speak directly to the DSL.

- The incident is entered onto CPOMS and the relevant staff member is alerted (eg. Head of Year or Section, Class teacher, etc)
- The DSL is alerted to every CPOMS referral and reads and assesses each case and may intervene where necessary.
- Pupils for whom there are significant welfare concerns are discussed at weekly safeguarding meetings, and subsequent actions and decisions are added to CPOMS.
- In keeping with confidentiality, only the DSL and staff with significant remits in terms of pastoral responsibility (such as Heads of Year/Section, or Class teachers in the Junior Schools) have access to welfare concerns and other records (where appropriate) within CPOMS. The DSL will ensure that access to safeguarding information within the School is appropriately restricted and that relevant information is shared externally where required by the statutory information sharing duty or otherwise permitted or required by law. Information shared will be relevant and proportionate to the safeguarding or welfare purpose and will be shared securely.
- Where an external safeguarding information-sharing decision is made, the DSL/DDSL will ensure that the decision and rationale are recorded on CPOMS, including what was shared, with whom, why it was relevant and where appropriate, the outcome or feedback received.

CPOMS allows control of access inside the system, ensuring that at every level, sensitive information remains protected. Using CPOMS, staff access is controlled based on individual students, classes, year groups, categories, or system functionality.

- From any internet enabled computer log onto <https://burygrammar.cpoms.net>
- If it is your first time, then choose '**reset password**' and follow that procedure
- To add a referral, click '**add incident**'
- Complete the boxes and ensure you choose the correct **category** for the incident.
- **Submit** the incident to the DSL/Senior Safeguarding Team
- CPOMS is configured so that incidents can be viewed by relevant members of the pastoral team- HOY/Health team etc
- The DSL/DDSLs may require you to carry out further actions, you will be alerted that further actions are required and should log back into the system to see what is required.

Members of staff without access to CPOMS should raise concerns directly with the DSL or DDSs.

APPENDIX 3: VISITING SPEAKER RISK ASSESSMENT FORM

Prevent requires that all visiting speakers, whether invited by staff or pupils are suitable and are suitably supervised. Whenever it is proposed to use the services of a visiting speaker, they should be risk assessed and permission should be sought from the DSL in their capacity as Single Point of Contact for Prevent. This is done using the **Visiting Speaker Proposal Form** which contains a risk assessment. This takes into account any vetting considered appropriate in the circumstances and a Google search will be conducted on all visiting speakers to check for any history of unsuitable material.

The School has clear protocols for ensuring that any visiting speakers are suitable and appropriately supervised. The School's responsibility to pupils is to ensure that they can critically assess the information they receive as to its value to themselves, and that the information is aligned to the ethos and values of the School and British values.

All visiting speakers are expected to understand that, where appropriate, their session should actively promote the British values of democracy, the rule of law, individual liberty and mutual respect, and tolerance of those with different faiths and beliefs, and at no point undermine these. In some cases, the School may request a copy of the visiting speaker's presentation or additional information in advance of the session being provided.

All visiting speakers, including those speaking via webinar, will be required to provide photographic proof of ID unless the speaker is known by the School. It is the responsibility of the supervising member of staff to check the ID and to supervise the speaker at all times. If a visiting speaker is carrying out other duties for the School, on a paid or unpaid basis, then they may be in "regulated activity" and may be categorised as either staff or a volunteer. If that is the case, then formal vetting checks will be necessary in accordance with the usual practices for staff and/or volunteers; HR must be informed and they will be recorded on the School's single central register (SCR).

Name of Speaker:	
Purpose of engagement:	
Topic of discussion:	
Date of engagement:	
Age of pupils to be addressed:	
Name(s) of supervising staff:	
Will the speaker be discussing political issues, religious issues or issues	

relating to terrorism? If so, what is the context?		
Risk:	No formal vetting checks carried out so <u>unknown</u> safeguarding risk to pupils	
Hazard:	Safeguarding risk to pupils Pupils exposed to extremist views	
Control Measures to reduce risk:	Essential (if yes ☐)	Desirable (If yes ☐)
Will the speaker be supervised at <u>all</u> times?		
Has consideration been given to the action plan should the speaker begin to discuss inappropriate content?		
Is the SPoC satisfied that there is no Prevent related concern about this speaker?		
Will the speaker be made aware of the need to avoid promoting partisan political views?		
Has a Google name search been conducted about this speaker and returned a negative result for concerns?		

KEY: To qualify as an acceptable risk all 5 **ESSENTIAL** boxes must be ticked. Anything less will constitute an **UNACCEPTABLE RISK**.

Does the individual hold a current DBS	Yes ☐	No ☐
--	------------------------------	-----------------------------

Acceptable Risk ☐ Unacceptable Risk ☐
