RE: Tagging Pre-K Students

This year ClassLink rosters all pre-K students as a single class, regardless of whether they attend the morning or afternoon session. To make each group easier to identify and monitor, we recommend tagging students as AM PRE-K or PM PRE-K. These tags allow you to filter reports by session, view morning and afternoon results separately, and more accurately track each group's progress.

The link below will explain how to tag your students:
