

Greetings 9th Grade Falcon Families!

Your student will participate in the Pre-ACT at AC Flora **Tuesday, October 20th**. Students should report directly to their testing room before the 8:00 bell on **October 20th**. For general information on the test, please click the link below. Students are reminded to bring their own approved calculators (more info below), pencils, and a light snack. Students and parents should note that students who arrive late may not be able to test, and **there is no makeup testing**.

Cell phones, smart watches, or any other devices that make a noise, have an audible alarm, or connect to the internet are not allowed. Students must turn off these devices and testing proctors will collect them during the test. It is also important that your student brings their student ID on **October 20th** so that the test proctor can be sure to correctly identify them.

Please review the information in this email with your student. We will also be communicating this information directly with your student before the test. Adults will be available on test day to help your student find/remember their testing location. If you have any questions about the PreACT, please contact your student's school counselor.

Calculator Policy:
