

BOARD OF TRUSTEES
HUMBOLDT COUNTY SCHOOL DISTRICT

POLICY 5135

PUPILS

Student Insurance

The District recognizes the need for insurance coverage for unforeseen accidents that may occur in the course of attendance at school or student participation in the athletic and extracurricular programs of the schools

The District encourages parents to purchase insurance coverage for their children. Purchase of such insurance is voluntary, and parents who ensure students shall be responsible for payment of premiums and filing of claims. Through the district insurance policy, a student accident benefit is provided to students who may be injured in the course of the instructional day while on school grounds or participating in a school event. As with personal insurance, parents are responsible for filing of claims and expenses which may be owed as a result. The District assumes no responsibility for the payment of claims.

Students participating in interscholastic or intramural sports programs are strongly encouraged to have certified coverage through an insurance program, which states specifically that coverage is in effect for all interscholastic or intramural sports.
