

Enrollment and Capacity Management Advisory Committee (ECMAC) 2025-2026 Year-End Summary

Overview

The Enrollment and Capacity Management Advisory Committee (ECMAC) met four times during the **2025-2026** school year to continue to work on observations and recommendations related to enrollment and capacity. The ECMAC group met **virtually** for each meeting (**October 13, December 15, February 9, and April 20**). This document summarizes the work that occurred during the year, the observations that were made, and any recommendations submitted to the superintendent for further consideration.

Purpose

The purpose of the Enrollment and Capacity Management Advisory Committee (ECMAC) is to increase community trust in long-range planning for enrollment and building use. ECMAC analyzes information affecting enrollment, capacity, and building use, and generates observations and recommendations to be communicated to district administration.

Guiding Principles

Observations and recommendations from ECMAC will:

- Be concise and informed by data
- Align with district racial equity work
- Be sustainable
- Identify and examine the implications for all students
- Identify potential costs and consider funding strategies
- Be made with as much advance notice as possible when change is recommended

ECMAC Background

With the intent of increasing transparency and communication between Osseo Area Schools and the communities it serves, a task force of parents/guardians, school district staff, and community members, was assembled in 2016 to create a framework to identify, analyze, and communicate issues related to enrollment and facility management and use.

After an 18-month study of the elements that affect facility use, the task force recommended the district adopt the framework illustrated in the figure to the right as well as in Appendix A.

Integral elements of the framework are:

- the establishment of an Enrollment and Capacity Management Advisory Committee (ECMAC) to study facility management and report observations and recommendations to administration.
- The creation of “Guiding Principles” upon which ECMAC would rely. The district adopted the framework in the spring of 2016 and the first ECMAC meeting was held on August 22, 2016.

ECMAC uses a “Year-End Summary” to summarize the work. This included any observations and recommendations that emerged from ECMAC’s work to study enrollment management and building use.

In the spring of **2025**, ECMAC approved the **2024-25** year-end summary that highlighted the work from the year, and summarized the recommendations that were made related to enrollment and capacity, including the following:

➤ **Over-Capacity Conditions**

- At the elementary level, ECMAC recommended the following option(s) for consideration by district administration:
 - A new elementary school in the NW Maple Grove area. (Originally recommended in 2022; Opening fall of 2026)
 - Consider both short-term and long-term solutions to manage over-capacity issues
 - Consider boundary changes to balance capacity (Coming for fall of 2026 for all elementary schools)
- At the secondary level, ECMAC recommended the following option(s) for consideration by district administration:
 - An addition to Maple Grove Senior High to address enrollment capacity. (Originally recommended in 2022; All additions and renovations scheduled to be complete by the fall of 2027)
 - An increase in capacity for media center spaces at all three comprehensive senior high schools (Maple Grove, Osseo, and Park Center). (Originally recommended in 2022; All complete by fall of 2027)
 - An increase in capacity of the cafeteria spaces at Maple Grove Senior and Osseo Senior (Originally recommended in 2022; All complete by the fall of 2027)

- Consider boundary changes to balance capacity (Coming for fall of 2026 for middle schools only)
- **Under-Capacity Conditions**
 - At the elementary level, ECMAC recommended the following option(s) for consideration by district administration:
 - Consider repurposing an existing elementary school to provide for other community needs (Originally recommended in 2021; Crest View site to be repurposed. Opening in fall of 2027)
 - Consider boundary changes to balance capacity (Coming for fall of 2026 for all elementary schools)
 - At the secondary level, ECMAC recommended the following option(s) for consideration by district administration:
 - Consider boundary changes to balance capacity (Coming for fall of 2026 for middle schools only)
 - Have staff identify potential options for repurposing programs to better utilize the available space
- **Effects of Building a Better Future Changes**
 - Study the effects of boundary changes on enrollment
 - Update building capacity calculations to include all additions and renovations

ECMAC's findings and recommendations to address over-capacity and under-capacity conditions in the district were presented to the superintendent, who provided that information to the School Board.

ECMAC 2025-2026 Review

During the 2025-2026 school year, ECMAC met on a standard schedule with four meetings (October 13, December 15, February 9, and April 20). This year's membership included 10 community members, 13 staff members, 2 school board members, and two industry experts from Wold Architects and Engineers. A roster of members is included in **Appendix B**.

Throughout the meetings, members reviewed enrollment and capacity information, including building capacity assumptions and calculation methods used by the district (**Appendix C**). For the 2025-2026 cycle, the committee reviewed elementary, middle, and senior high-capacity

assumptions and confirmed or noted updates in partnership with district teaching and learning and building leadership.

The data ECMAC uses to determine preliminary over- and under-capacity conditions is based on November 1 enrollment data each year. Final calculations are based on January 1 enrollment data. ECMAC reviewed multiple data sets, including year-to-year variance, variance from projections, enrollment versus capacity, and any applicable guidance for core space capacity (**Appendix D**).

ECMAC Observations

The data analysis process resulted in several observations and findings. Overall district enrollment increased by 380 students or 1.88% compared to the previous year and was -192 students under enrollment projections. By level, enrollment decreased at elementary, increased at middle, and increased at senior high.

At the elementary level, overall enrollment was -111 or -1.23% under projections. The sites with the largest variance from projections were:

- Edinbrook (-46)
- Rice Lake (-35)
- Cedar Island (-30)
- Birch Grove (-26)

At the middle school level, one school was under projections and three were over projections:

- Maple Grove Middle School (+37)
- Osseo Middle School (+25)
- Brooklyn Middle School (+14)
- North View Middle School (-56)

With current enrollment data, one middle school building was under capacity in FY 2026. It is also notable to point out that Maple Grove Middle School was within 32 students of building capacity in FY 2026.

At the senior high level, two schools were over projections, and one school was under projections:

- Maple Grove Senior High School (+88)
- Osseo Senior High School (+22)
- Park Center Senior High School (-63)

At the February 9, 2026, ECMAC meeting, the group reviewed 5-year enrollment projections based on current-year enrollment. Key drivers discussed included birth trends, housing development and program changes, and the committee noted growth has remained steady for the past few years.

FY 2027 will be the first year with new boundaries at the elementary and middle school levels. Projections are based on the anticipated student movement from the boundary changes. In-District transfer options are in a moratorium through the end of the FY 2027 school year.

Elementary projections: Elementary schools are projected to increase enrollment by 252 students or 2.8%. Open enrollment demand is a primary consideration to the increase, along with new developments.

Middle school projections: Middle Schools are projected to see a slight increase for next year, up 38 students or 0.9%.

Senior high projections: Senior Highs are projected to decrease by 90 students or - 1.2%. Smaller incoming class sizes are smaller than graduating class sizes.

Other Considerations

In addition to current and projected enrollment data, ECMAC also discussed the following topics during the 2025-2026 school year:

- **Program impacts (e.g., 279Online):** [insert enrollment, trends, and key decisions/changes]
- **Residential development & growth areas:** [insert key development areas, estimated units/students, timing]
- **Boundary planning / implementation:** [insert work completed, scenarios reviewed, and anticipated implementation year]
- **Facility projects & capacity updates:** [insert additions/renovations, updated capacities, timelines]

ECMAC Recommendation(s)

After analysis and discussion of the factors described above, ECMAC developed the following recommendation(s) for consideration by district administration.

➤ **Over-Capacity Conditions**

- At the elementary level, ECMAC made one recommendation for consideration by district administration:
 - **Monitor schools that are near maximum capacity, based on projected enrollment:**
 - Edinbrook Elementary
 - Elm Creek Elementary
 - Park Brook Elementary
- At the secondary level, ECMAC made one recommendation for consideration by district administration:
 - **Monitor schools that are near maximum capacity, based on projected enrollment:**
 - Maple Grove Middle School
 - Maple Grove Senior High

➤ **Under-Capacity Conditions**

- At all building levels, ECMAC made one recommendation for consideration by district administration:
 - Monitor schools nearing 50% capacity available:
 - Aspen Ridge Elementary
 - Aspen Ridge is the only site planned to open at close to 50% capacity. Expected growth in enrollment should address this under-capacity condition over time.

➤ **Effects of Other Enrollment Changes**

- Further study of target class sizes is recommended to determine whether adjustments are needed.
- Special Education enrollment has grown significantly. The district has established a task force to study future special education enrollment and to improve projections for staffing needs. ECMAC recommends including these projections in its work beginning next year.
- Monitor the effect of Crest View's future PreK enrollment and assess how it may impact neighboring elementary schools

Next steps

ECMAC's recommendation(s) will be submitted to **Superintendent Dr. Kim Hiel** and the School Board in May of 2026. District leadership will use this information to help guide future decisions related to enrollment and capacity.

District staff will continue to monitor key factors impacting enrollment and capacity, including housing and development trends across the district, the effects of boundary changes on 2026-27 enrollment at each elementary and middle school site, and the completion of facilities projects. When ECMAC resumes for the 2026-2027 school year, members will consider the potential impact of these factors on enrollment and capacity at district school sites.

Planned areas of focus for ECMAC in 2026-2027 include: boundary implementation impacts, updated capacity calculations, enrollment projection updates, and changes to Special Ed enrollment.

Appendices (to be updated)

Elementary Assumptions: Assumptions to be used for elementary target capacity analysis.

In addition to appropriate grade-level classrooms, all elementary schools need the following spaces:

Student Cafeteria Kitchen Staff Cafeteria Administrative Offices Staff Offices	Special Education - Resource: 2 classrooms per school depending on # of student identified - Self-contained classroom space: keep existing space allotments for center-based special education classroom programs, including Connect, Skills, Strategies, DHH and motor rooms	Music Room: 1-2 rooms depending on student enrollment see note	Academic Support Services - Academic Intervention: up to 1 room - Talent Development Academic Challenge and Gifted (TAG): up to 1 room depending on # students identified - Title 1: 1 classroom (CV, FO, GC, PL, PB, ZW) - English Learner (EL): 1-2 rooms depending on # EL identified
Media Center		Pre-kindergarten 4-year old programming: 2 classrooms per school see note	
Custodial (storage, supply room, receiving area)		1 Band/Orchestra Room	
Gymnasium and equipment storage		Technology Lab: 1 per school	2 Unassigned flexible space to accommodate site-based needs - Enrollment growth - PTO/Volunteer use - Intervention spaces - D/APE teaching space - Calming room/sensory space, motor room - Other support space

Notes:

- Kindergarten and pre-kindergarten rooms are not equivalently sized district-wide
- No dedicated space district-wide for art (except Birch Grove Magnet)
- Kidstop program needs dedicated storage and home-based office space (assuming access to some classrooms for after-school programming)
- More than 1 music room is needed at BW, EB, EC, FB, RL, RC, WVR, WD
- Additional PreK depending on space. Currently CI, EB, OAK have 3 PreK classrooms

Secondary Assumptions: Assumptions to be used for secondary target capacity analysis

In addition to appropriate content-specific classrooms, all secondary schools need the following spaces:
(Spaces listed are needed for all district secondary schools unless otherwise noted)

Cafeteria/Kitchen Staff Lunchroom	Custodial (storage, supply room, receiving area)	Administrative Offices Staff Offices	Space for school-specific needs (ex: school store, food pantry)
Art facilities	EL * classroom space	Science labs	Health Services (nurses office)
Media Center & Computer Lab High School: Career Resource Center	Storage (student records, curriculum storage, project-based learning materials)	Conference Rooms Copy Room Display cases	High Schools: Auditoriums (dressing rooms, scene shop)
Career Technical Education (technology & engineering labs, FACS**, woodworking, PLTW***)	Collaborative Work Space (collaborative planning space and staff workspaces) 3 per senior high	Intervention spaces (calming room, learning labs, alternatives to suspension) 5 per senior high, 4 at MGMS, 3 at BMS & OMS, 2 at NVMS	Restrooms (single-use bathrooms, staff bathrooms, ADA**** accessible bathrooms with changing facilities)
Bus Parking Staff Parking High School: Student Parking	Large group space (assembly space 100-150 people)a	Unassigned classrooms for flexibility (flex classrooms, meeting space, additional room for future growth) add detail 3 per senior high, 2 per middle school	Music (choir, band, orchestra rooms, instrument & music storage) High school: uniform storage
Student Services offices/small group spaces (speech, psychologists, counselors, social workers, due process clerks, outside support services)	Special education resource & self-contained classroom space, D/APE teaching space, calming room/sensory spaces, motor room	Outdoor PE Facilities: tennis courts (OSH/OMS & PCSH/BMS share), baseball/softball fields, soccer/football fields High school: track (Activities audit information covers this area)	Indoor PE Facilities: gymnasium, equipment room, locker rooms High school: weight room, activities & trainer offices Middle school: pool (note: not part of MS curriculum) (Activities audit information covers this area)

(over)

KEY: Affects capacity calculation

ISD 279 – Osseo Area Schools

Notes:

- High Schools: CTE specialized space (OSH: Opportunities in Emergency Care (OEC) & Automotive, PCSH: Culinary) + additional space for future expansion of CTE
- Middle Schools: Out of School Time-space (SPOT, targeted services), PLTW space
- Magnet Specific: BMS (art, robotics, engineering design spaces, culinary arts, tv/film studio) PCSH (tv/film studio)
- OALC does not need: community ed/after school programming space, some of the CTE spaces (PLTW), Career Resource Center, auditorium, athletic fields, special education self-contained classroom space
- OALC needs consideration as high school enrollment increases
- Intervention space
- Collaborative workspace for staff at high school
- Unassigned classroom space
