

THE UNISUS BOARDING EXPERIENCE

More Than a
Place to Live

At UNISUS School, boarding is more than a place to live. It's a **welcoming home-like environment** where students from around the world build **lifelong friendships**, develop **independence**, and thrive in a **safe, supportive community** while receiving an exceptional education, right on campus.

THE UNISUS BOARDING HOUSE

The UNISUS Residence is home to both Canadian and international students, creating a welcoming, culturally diverse environment where meaningful friendships can grow. The first floor features a common space and cafeteria where our chef and team prepare fresh meals and daily snacks. The second floor is home to the boys, with two dedicated male boarding staff living on-site, while the third floor includes a common room, the girls residence, and two dedicated female boarding staff. Designed for comfort, connection, and community, it's a place students are proud to call home.

THE UNISUS CAMPUS

Set on 17 acres in a quiet residential neighbourhood, the UNISUS campus offers plenty of room to explore and connect. From our soccer field, playgrounds, and basketball courts to evenings around the firepit under the stars, students get to experience the Canadian campus life here.

“My parents suggested I go to boarding school to prepare me for the big step of going abroad. Canada was an obvious choice for me. I chose the IB as it is the most powerful way to prepare for university. I also wanted to be close to nature - to go skiing, to be outdoors, is a part of my day to day experience. I don't like big schools; I thought UNISUS was a perfect match for me and it became the best decision for me.”

-Fiamma, UNISUS Graduate, Italy

LIFE ON CAMPUS

Our Boarding Curriculum helps students develop the life skills they'll need long after graduation. Through guided support, they learn to manage their own laundry, keep their rooms clean and organized, build healthy study habits, and learn to use their technology responsibly.

BOARDING CURRICULUM

Boarding is about more than where students live; it's about experiencing Canada. From kayaking and rock climbing to skiing and ice skating, students explore the outdoors year-round and can also join local activities like swimming, dance, and gymnastics throughout the week.

WEEKEND ADVENTURE PROGRAM

Our in-house chef and culinary team prepare fresh, balanced meals and snacks that students genuinely enjoy. With breakfast, lunch, dinner, and daily snacks, our rotating four-week menu is updated throughout the year to keep meals varied and nutritious.

NUTRITION PROGRAM

Students are placed in dormitory rooms by age, with up to four students per room. Living alongside peers from all over the world, gives students the opportunity to build lifelong international friendships while learning about new cultures and traditions.

INTERNATIONAL FRIENDSHIPS

Designed for comfort and privacy, student rooms include 2 bunk beds, a private bathroom and separate shower room, all within each suite. Individually-controlled heating and air conditioning keep rooms comfortable year-round, with views of either the surrounding mountains or Okanagan Lake.

BOARDING ROOMS
