

ACADEMICS+

A Future-Proof Education that Unlocks Potential

Our unique Academics+ model **combines strong academics with meaningful opportunities for students** to discover and develop their interests. By graduating with both **academic achievement** and a **portfolio of real-world skills and experiences**, students are prepared for the future!

In Grades 6–10, three afternoons each week are dedicated to Academics+, giving students focused time to pursue their chosen pathway alongside their academic studies. These experiences help students recognize their strengths, grow in confidence and independence, and build a portfolio that strengthens university applications and showcases skills valued in the workplace.

STUDENTS GET TO CHOOSE FROM SCHOLAR-ATHLETE ACADEMIES OR ENRICHMENT PROGRAMS FOR 3 AFTERNOONS PER WEEK.

Enrichment Programs:

Students explore their interests and develop future-ready skills through Enrichment Programs including Outdoor Education, Science, Technology & Entrepreneurship, Academic Enrichment & Volunteering, Sports & Athletics, and Music, Drama & Visual Arts.

Scholar-Athlete Academies:

Students advance their skills through professional Academy training in Soccer (partnered with Everton FC in the UK), Hockey, Snowsports, or Motorsports. They benefit from specialized coaching built directly into the school day, allowing them to pursue athletic excellence while remaining fully engaged in their academics.
