

ENRICHMENT PROGRAMS

Preparing for the Future Beyond Academics

Enrichment at UNISUS gives students the opportunity to explore their interests, discover new passions, and develop skills beyond the classroom. **With professional coaching, teaching, and mentorship, students dive deeper into what inspires them, building confidence and future-ready skills along the way.** It's an opportunity to pursue what interests them today, develop what they're capable of, and build experiences that will shape where they go next.

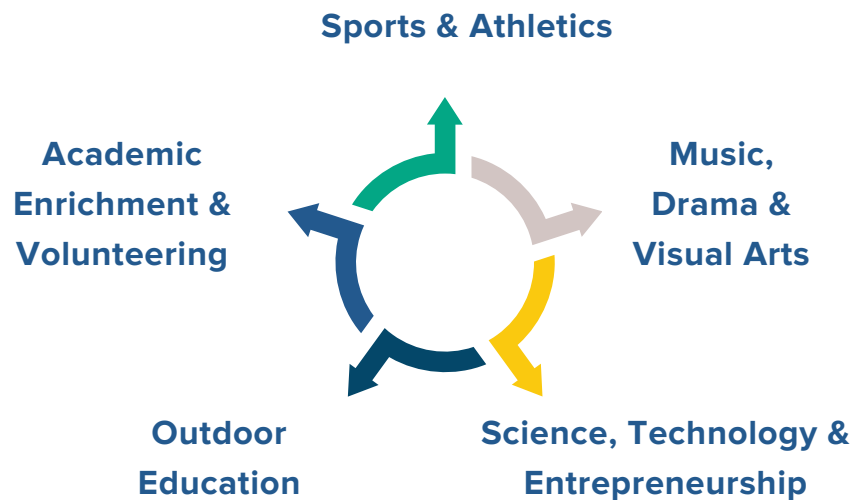

PURSUE YOUR PASSIONS THROUGH ENRICHMENT OPPORTUNITIES

Students choose from a wide range of Enrichment opportunities spanning five key areas:

- Outdoor Education
- Science, Technology & Entrepreneurship
- Academic Enrichment & Volunteering
- Sports & Athletics
- Music, Drama & Visual Arts

Throughout the school's three academic terms, new Enrichment opportunities are introduced across each category, giving students access to an evolving selection of meaningful experiences.

THE SKILLS BEHIND SUCCESS

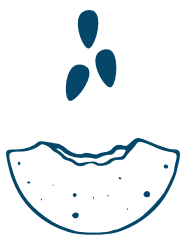

Unlike traditional classes, Enrichment opportunities are not focused on grades. They are designed to help students discover new interests, deepen existing passions, and intentionally develop future-ready skills such as creativity, leadership, communication, collaboration, resilience, and problem-solving.

As students build experiences in areas like entrepreneurship, the arts, outdoor education, technology, athletics and service, they graduate with more than strong academics. They develop a portfolio of skills, experiences, and achievements that helps answer the question increasingly asked by colleges, universities, and future employers: "What else do you do?"

That portfolio reflects not only what students know, but who they are, what they have accomplished, and how they are prepared to contribute beyond the classroom.

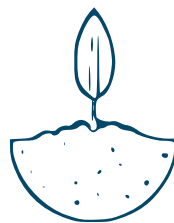

BUILDING ON THEIR POTENTIAL

K-5 ENRICHMENT

- Broad exposure to an array of interest areas during academic calendar
- Build basic competence

GR. 6-8 ENRICHMENT

- Deeper exploration of 2 to 3 areas of interest
- Develop skillsets
- Separate from academic calendar

GR. 6-12 ACADEMIES & CAREER PATHWAYS

- Focus on an area of interest
- Deepen competencies and knowledge
- Explore & build career pathways
- Build expertise, gain experience
