OneRCSD Community Connection

Connected to our schools. Connected to our community.

ONERCSD COMMUNITY CONNECTION

Issue I

Welcome to the first edition of the OneRCSD Community Connection, a new way for the Rochester community to stay connected to what is happening across the Rochester City School District.

Each month, we will share progress, important District updates, student and staff successes, and a closer look at the work happening in our schools. Our goal is simple: to connect with our community and provide clear information about where we are, where we are going, and how we are working together to accelerate student success.
