

EVERGREEN
SCHOOL DISTRICT

Educational Services

Dear Parent/Guardian:

California schools began annual screening of all students in kindergarten through second grade in 2025 to help identify those who may be at risk for reading difficulties. This is part of a state requirement (Education Code 53008) aimed at making sure every student receives the support they need to become a strong reader. This screening is considered part of a school's comprehensive instructional strategy to inform individualized instruction, measure a student's progress, identify student learning needs, and enable parents/guardians and teachers to discuss their student's needs in a more informed way. Screening results must be used as an indicator for potential risk of reading difficulties, not as a diagnosis of a disability.

Your child's results will be available and shared within 45 days of the screening window. If your child is in first or second grade, they will take part in the Multitudes reading risk screening this fall, beginning September 30, 2026 through October 30, 2026. If your child is in kindergarten, they will take part in the Multitudes reading risk screening this winter, beginning January 25, 2027 through February 26, 2027.

Opt-Out Option: Screening enables us to better support our students' needs and intervene early. However, if you would prefer to opt out of this screening, please let us know by writing a letter to your child's school principal.

We're excited about this effort to support early readers and are here to partner with you during this process. If you have any questions, please reach out to your child's school principal and/or refer to <https://www.eesd.org/departments/educational-services/assessments-and-accountability/reading-screening-k-g-rade2> for more details regarding the reading screening.

Sincerely,

Tonya Trim

Assistant Superintendent, Educational Services
