

**EVERGREEN**  
SCHOOL DISTRICT  
SAN JOSE, CALIFORNIA

---

Dear Parent/Guardian:

Last spring your child took the Smarter Balanced Summative Assessments for English language arts and math. Students in grade 5 and 8 also took the California Science Test (CAST).

These tests can be combined with other measures like report card grades, classroom work, and teacher observations to give families and teachers a more complete picture of each child's learning. You can use these results to identify where your child is doing well and where they might need more support. It is important to know that summative test results are not used to determine if a student moves to the next grade level.

You can access your child's score report, through the [PowerSchool Student or Parent Portal](#).

**To learn more about your child's scores**, go to the Starting Smarter website at <https://www.ca.startingsmarter.org/>. There, you will find information about test results, sample test questions, free resources to support your child's learning, and a guide to prepare for parent-teacher conferences.

If you have any questions, you can contact your child's school principal and <https://www.eesd.org/departments/educational-services/assessments-and-testing>.

Sincerely,

Tonya Trim

Assistant Superintendent, Educational Services
