

REFERRAL FOR SPECIAL EDUCATION EVALUATION

Each school district in the state of Washington has a duty to locate students residing within the district who are aged 3 through 22, who might be in need of Special Education services. This responsibility is called "child find."

If at any time you believe your student or any student you may know or work with might have a disability that is impacting their ability to access their education and may need Special Education services, you can contact someone at your student's school and/or at your school district central office to request that your student be evaluated for Special Education. Your request needs to be in writing and can be on **the form below** or can be submitted via email or handwritten note. The school district must make a decision whether or not to evaluate and notify the parent or guardian within 25 school days with a prior written notice.

Please turn in your request for evaluation, using this form or any other written format, to the principal or office staff in your child's school in hard copy or via email.

Timelines for Referral, Initial Evaluation, and Initial Individualized Education Program (IEP)

New Timeline Effective 6/11/2026

**Evaluation report must be provided 5 school days prior to eligibility determination.*
