COMPASS • PROFESSIONAL LEARNING

Strengthen Attendance. Choose Your Pathway.

Attendance improvement is complex. Your professional learning should meet your team where you are and help you move toward stronger, more sustainable systems.

THREE PATHWAYS • ONE SHARED GOAL

1

Comprehensive Pathway

IMPROVING ATTENDANCE UTILIZING THE MNMTSS FRAMEWORK

9 SESSIONS | SEPTEMBER–MAY

Examine attendance across the full system—from infrastructure and continuous improvement to family engagement, belonging, tiered supports, data use and sustainable change.

Consider this pathway if: You're ready to build or strengthen an attendance approach aligned with MnMTSS independently or with a team.

2

Focused Pathway

DATA-BASED ATTENDANCE STRATEGIES

4 SESSIONS | FALL OR SPRING

Move from collecting attendance data to using it: strengthen data structures, uncover patterns, visualize the story, analyze root causes and monitor progress.

Consider this pathway if: Your district has data but wants stronger protocols for turning it into decisions and action with others or as part of your own practice.

3

Focused Pathway

BUILDING A STRONG ATTENDANCE TEAM

4 SESSIONS | FALL OR SPRING

Strengthen collaborative linked teams, establish clear data protocols, uncover barriers through root-cause analysis and engage families as partners.

Consider this pathway if: You're looking to strengthen structures, roles, and collaborative practices around attendance at your school, district, or within your role.

- NO CHARGE professional learning
- Virtual sessions + Drop-In Office Hours
- For anyone working to strengthen attendance systems and practices.
