

Timberwolves Stadium Facility Use

This policy supplements Board Policy 4260 and Procedure 4260P by establishing expectations specific to Timberwolves Stadium. The Board recognizes the stadium complex as a unique public asset due to its specialized design, significant public investment, regional significance, and long-term maintenance and replacement obligations.

The Board expects the stadium complex to be managed in a manner that:

- Prioritizes district educational programs, student activities, and interscholastic athletics;
- Protects the long-term condition, functionality, and availability of the facility;
- Promotes safe and responsible use;
- Reflects sound fiscal stewardship, including the costs of operation, maintenance, and long-term replacement; and
- Provides reasonable opportunities for community use consistent with district needs and the nature of the facility.

The Superintendent shall develop and maintain administrative procedures governing the use, operation, protection, and management of Timberwolves Stadium consistent with this policy.
