

COLEGIO SAN IGNACIO

The Jesuit school of Puerto Rico • Men for Others

2026-2027
SCHOOL PROFILE

ABOUT OUR SCHOOL & COMMUNITY

Colegio San Ignacio de Loyola is in a suburban area of San Juan, the capital of Puerto Rico. Our school is a Jesuit, Catholic college preparatory school that seeks to form young men of competence, conscience, commitment, and compassion. Through our academic, athletic, co-curricular, spiritual, and service programs, we challenge our students to become young men of integrity, faith, and justice, committed to academic excellence and service for others.

MISSION STATEMENT

We are a Jesuit school, a learning community that offers a comprehensive, Catholic education of excellence. We evangelize by educating young men and their families and by serving as a bridge between diverse contexts, to promote a sustainable world in which human relations are solidary, just, and fraternal, for the Greater Glory of God.

- Social Justice Project Required in 12th grade

CSI GRADING SYSTEM

CSI provides final grades by semester. The first semester runs from August to December, and the second from January to May. Final letter grades are converted to numerical grade points to calculate the cumulative grade point average (GPA). Advanced, Honors, and AP® courses are weighted. For Advanced and Honors courses, the grade will be raised by 0.5. For an AP course, when calculating the GPA, weighted grading scale increases by 1.0. We do not rank students.

ABOUT ADVANCED, HONORS, AND AP COURSES

Higher academic levels include advanced (for Math), honors, and AP courses. We encourage our students to follow an academic program aligned with their interests and abilities. Higher academic level courses are offered in English, Math, Science, History, Spanish, Religion, and Computer Science. Our AP courses begin in 9th grade. The Class of 2027 has demonstrated a high academic profile: 78% of the 96 seniors have taken at least one AP course and an average of 4 AP courses.

Academic transcript:

- **AP** - Advanced Placement
- **HON** - Honors
- **ADV** - Advanced

 - AP with Honor 4
 - AP International Diploma 4
- 16 National Recognition Awardees 2026-2027
- 2 Posse Foundation Semi Finalists 2025-2026

ACCELERATED PATHWAYS FOR TALENTED STUDENTS IN MATHEMATICS

San Ignacio offers multiple accelerated pathways for mathematically gifted students. For example, the PAC Program, available as an after-school option for sixth graders, allows successful participants to enroll in 8th grade Algebra as 7th graders. Students can also advance to higher grade classes by excelling in departmental and standardized tests, including College Board exams. Furthermore, San Ignacio provides a range of advanced, honors, and AP Math courses, that form part of these accelerated pathways.

IGNATIAN GLOBAL SCHOLARS PROGRAM

A selective three-year program (10th-12th grade) that develops students as Ignatian global citizens through the study of local and global issues framed by the Ignatian pillars and Universal Apostolic Preferences. Students complete a foundational course, annual electives, exchange or mission experiences, extracurricular involvement, and a senior-year capstone social impact project. Admission is by recommendation based on academics, character, and leadership. Graduates are recognized by the Jesuit School Network for their achievement and commitment to building a more just, compassionate, and fraternal world.

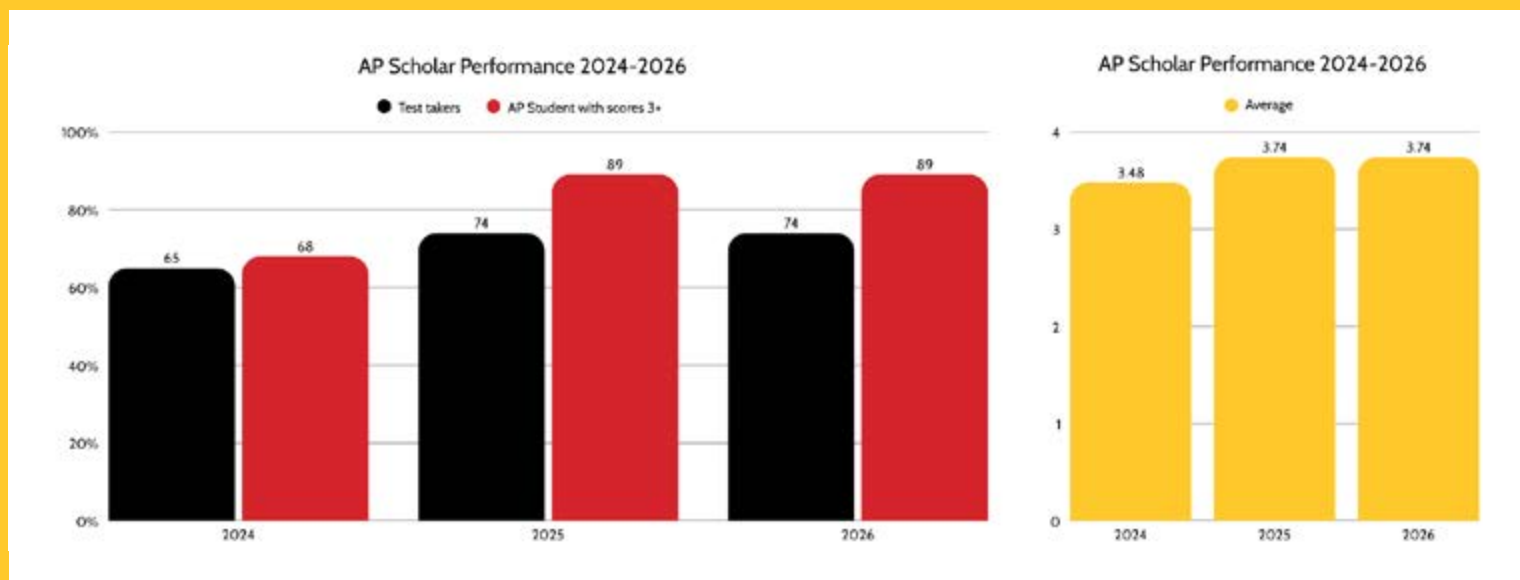

ARRUPE VIRTUAL LEARNING INSTITUTE (AVLI) ONLINE PROGRAM: WWW.AVLI.ORG

Arrupe Virtual Learning Institute expands the CSI curriculum, and enriches opportunities with various elective courses. Admission to these courses requires a teacher recommendation. In 2026-2027 students selected the following AVLI courses:

- A.I. Science & Morality
- AP Art History
- AP Business & Personal Finance
- AP Comp Gov & Politics
- AP Computer Science
- AP European History
- AP Environmental Science
- AP Macroeconomics
- AP Microeconomics
- AP Music Theater
- AP Psychology
- AP Statistics
- Astronomy
- C++ Programming
- Computer Science Principles
- Introduction to Business
- Linear Algebra & Differential Equations
- Medical Terms & Careers
- Model UN and International Relations
