

DELANO JOINT UNION HIGH SCHOOL DISTRICT

1720 Norwalk Street, Delano, California (661) 725-4000

Friday, September 4, 2026

Dear Delano Joint Union High School Community,

As we head into a three-day weekend, I want to sincerely thank our community for another successful week as we settle into this new school year. There have been some concerns related to the condition of the athletic facilities at Delano High School. Last Friday, Delano High School hosted a regular season varsity football game. The game was well attended as the community celebrated Delano High School's victory over West High School. We understand why the football field drew attention and concerns from participants and spectators. The condition of the field was less than ideal by our standards, but it was evaluated and determined safe for athletic competition. The field's condition resulted from the natural turf reaching the end of its lifespan. Resodding the field has been part of our facilities plan for some time. That work began on Tuesday and will continue for a few weeks. All of our District's teams are on the road this week. We're anticipating completion in time for Delano High School Girls Flag Football's first home game on October 7, 2026 against Robert F. Kennedy. We look forward to welcoming our athletes, band members, and the community back to our facility to experience the new field. Have a great and safe holiday weekend.

Sincerely,

Kenneth Moore

District Superintendent
