LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Aspire Port City Academy
CDS Code: 39686760114876
School Year: 2026-27
LEA contact information:
Shelby Schmidt
Principal
AspirePCA@aspirepublicschools.org
(209) 400-8834

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (Foster Youth, English learners, and low-income students).

Budget Overview for the 2026-27 School Year

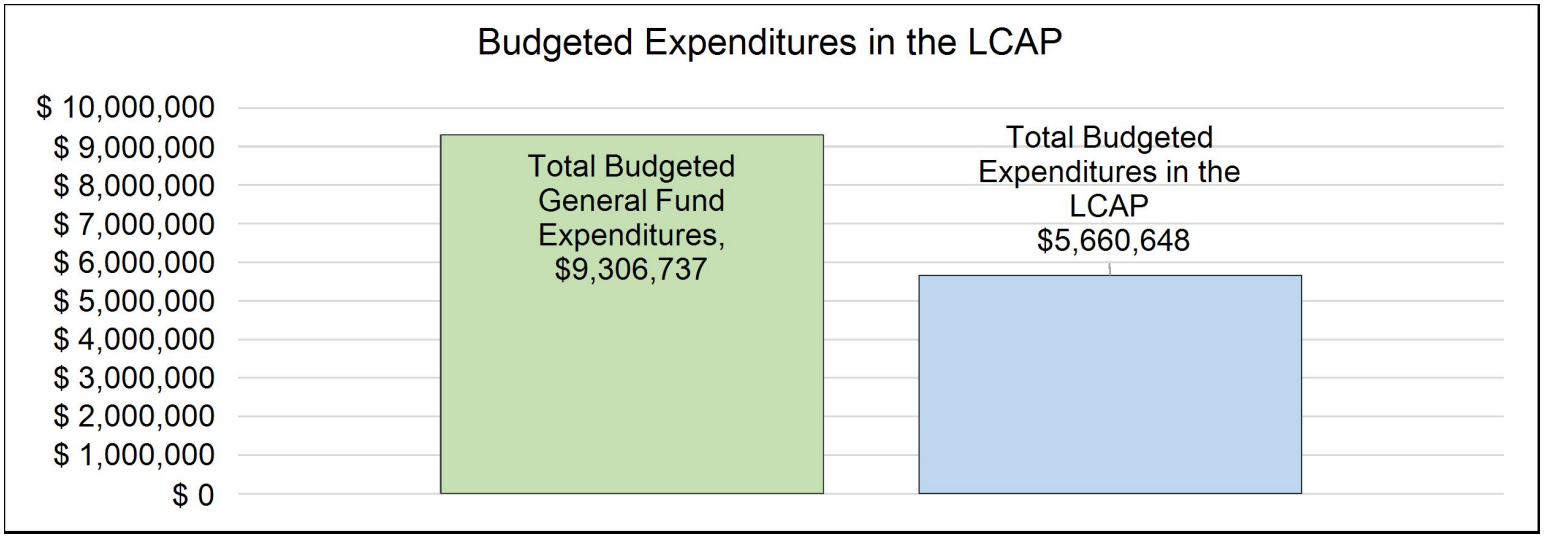

This chart shows the total general purpose revenue Aspire Port City Academy expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Aspire Port City Academy is $9,440,312, of which $6,285,469 is Local Control Funding Formula (LCFF), $2,706,886 is other state funds, $5,000 is local funds, and $442,957 is federal funds. Of the $6,285,469 in LCFF Funds, $1,405,032 is generated based on the enrollment of high needs students (Foster Youth, English learner, and low-income students).

LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Aspire Port City Academy plans to spend for 2026-27. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Aspire Port City Academy plans to spend $9,306,737 for the 2026-27 school year. Of that amount, $5,660,648 is tied to actions/services in the LCAP and $3,646,089 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

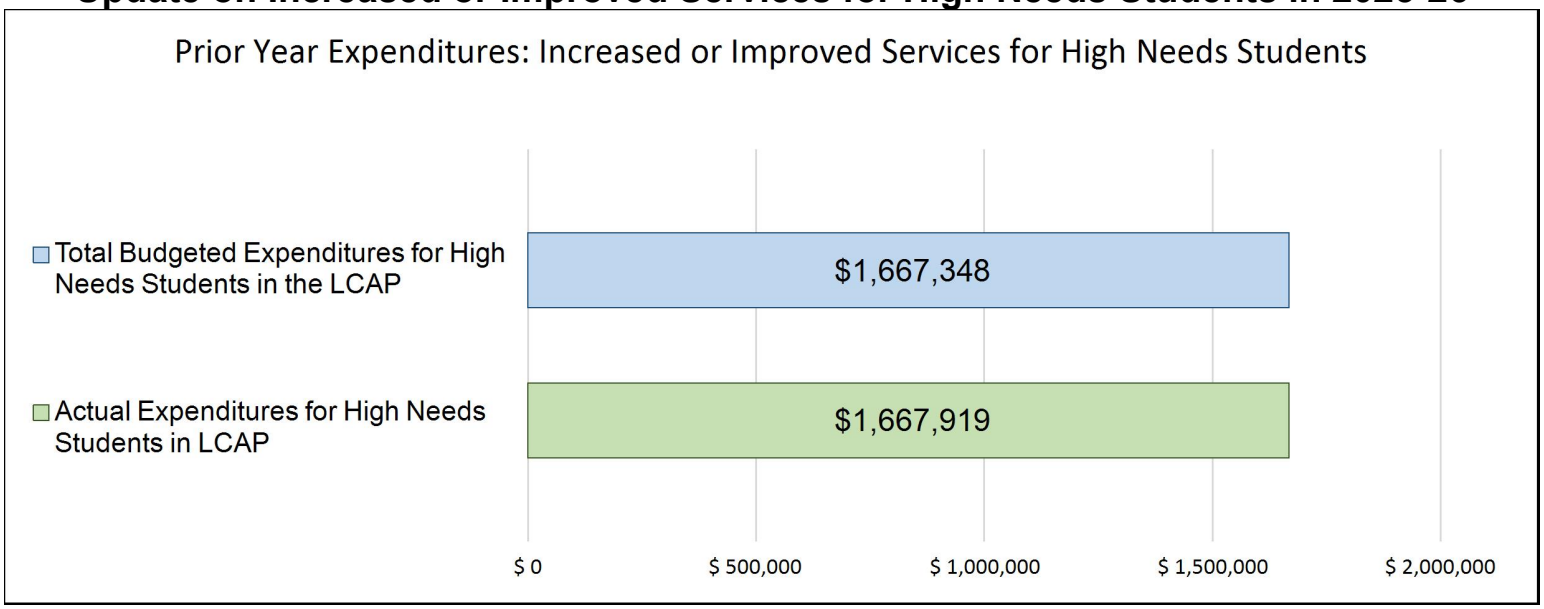

It's crucial to emphasize that while the LCAP plays a central role in resource allocation, it does not encompass the entirety of LEA expenditures. The General Fund, which covers expenses beyond the LCAP framework, encompasses a broad spectrum of services and administrative functions, including but not limited to operational costs for fundamental LEA functions such as administration, utilities, and cafeteria services.

Increased or Improved Services for High Needs Students in the LCAP for the 2026-27 School Year

In 2026-27, Aspire Port City Academy is projecting it will receive $1,405,032 based on the enrollment of Foster Youth, English learner, and low-income students. Aspire Port City Academy must describe how it intends to increase or improve services for high needs students in the LCAP. Aspire Port City Academy plans to spend $1,577,410 towards meeting this requirement, as described in the LCAP.

LCFF Budget Overview for Parents

Update on Increased or Improved Services for High Needs Students in 2025-26

This chart compares what Aspire Port City Academy budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Aspire Port City Academy estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2025-26, Aspire Port City Academy's LCAP budgeted $1,667,348 for planned actions to increase or improve services for high needs students. Aspire Port City Academy actually spent $1,667,919 for actions to increase or improve services for high needs students in 2025-26.

Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Aspire Port City Academy	Shelby Schmidt Principal	AspirePCA@aspirepublicschools.org (209) 400-8834

Plan Summary [2026-27]

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Aspire Port City Academy, established in 2007, is a TK-5 public charter school located in Stockton, California. As part of the Aspire Public Schools network, the academy serves 452 students with a mission to prepare them for post-secondary success by fostering a rigorous and inclusive educational environment. The diverse student population is predominantly Hispanic (66%), followed by African American (11%), Asian-American (9%), and multiracial students (7%), with 57% qualifying for free and reduced lunch programs.

Port City Academy is committed to a holistic approach to education, integrating academic excellence with social-emotional development. Through intervention services tailored to student needs and an Expanded Learning Program, scholars receive comprehensive support to address academic gaps. The school's social-emotional curriculum teaches life skills and emotional regulation, equipping students to navigate their educational journeys with confidence and resilience.

The academy values strong family partnerships, acknowledging that collaboration with families is vital to student success. Port City maintains open communication and actively seeks family input and involvement. Port City strives to create a nurturing, supportive learning environment, where students have a sense of belonging. Aspire Port City Academy strives to build confident, capable students who will have the academic skills, mindsets and resources to achieve their dreams.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Aspire Port City Academy's review of Dashboard and local data reflects both meaningful progress and ongoing areas of need, including across student subgroups. The school demonstrated significant improvement in English Language Arts, with Distance from Standard improving from -63.9 in 2023–2024 to -42.9 in 2025–2026. Subgroup gains were also evident, including African American students (-67.5 to -41.9), English Learners (-65.7 to -45.7), Hispanic/Latinx students (-69 to -48.3), and Socioeconomically Disadvantaged students (-66.4 to -42.9). Students with Disabilities improved from -149 to -108.3 but remain an area of need.

Mathematics performance improved from -68.6 to -52.8 overall, with subgroup gains including African American students (-86.1 to -52.1), English Learners (-64.7 to -57), Hispanic/Latinx students (-70.5 to -57.1), and Socioeconomically Disadvantaged students (-75.1 to -53.9). However, Students with Disabilities (-137.3) and overall math growth remain areas for continued focus.

Local data shows improvement in early literacy, with mCLASS benchmark rates increasing from 22% to 37%. However, iReady results indicate inconsistent growth, with 35% of students meeting typical growth in reading and 18% in mathematics. English Learner progress toward proficiency increased from 23% to 45%, though reclassification rates remain low.

Chronic absenteeism decreased from 43.3% to 25.8% and is reported at 34.3% on the Dashboard; however, current internal data shows improvement to approximately 21% at the time of reporting. Subgroup rates remain higher for African American students (37%), Hispanic/Latinx students (38.8%), Socioeconomically Disadvantaged students (35.6%), English Learners (29.8%), and Students with Disabilities (52.4%). We continue to work on attendance incentives and supports with our attendance team meeting bi-weekly. At time of this report our current year chronic absenteeism rate for African American scholars is 24%, and our multiple races/ two or more students are running at 11%. Additionally, we are developing teacher efficacy around lesson planning that includes specific supports for MLLs and students with disabilities. We are also continuing to refine staff understanding of the ELD needs of our scholars and the use of language functions within the context of academic learning. These efforts are to better support for greater reclassification numbers for these scholars.

As required by the LCAP template, the actions related to the student groups and state indicators identified in the 2022–23 California School Dashboard as performing at the lowest performance level (red) will remain unchanged throughout the three-year LCAP cycle. These groups and indicators, which have guided the development of actions and services, are as follows: Chronic Absenteeism: Black/African American, Students with Disabilities
English Learner Progress: English Learner

PCA has unexpended Learning Recovery Emergency Block Grant (LREBG) funds that will be carried forward into the 2026–27 school year. These funds will continue to support Goal 4, Action 4.1 (ELA) and Goal 4, Action 4.2 (Math). As permitted by the LCAP template, the rationale for selecting these actions, the alignment of the actions to allowable uses of LREBG funds, and the manner in which the actions address the literacy and mathematics needs identified through the school's needs assessment are described within the action descriptions under Goal 4.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

N/A

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

N/A

Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Teachers	We gathered feedback specific to LCAP during a staff session on 3.30.26. Additionally, topics related to LCAP are covered during our Instructional Leadership Team Meetings which are held weekly on Mondays.
Principals and Admin	Admin Team meetings are held weekly, and LCAP and planning topics are consistently covered throughout the year. Admin team is involved in goal analysis and planning of the LCAP
Other School Personnel	Staff Meetings
Parents	Parent feedback is gathered through annual surveys which are conducted twice per year. Additionally, we conducted two family feedback opportunities 3.20.26 and at our Saturday School Sprin Festival 3.21.26. We were able to gather input from our MLL families via our ELAC group, these meetings were held on the following dates: 8.26.25, 11.18.25, 1.13.26, 4.21.26
Students	Student interviews of subgroups were conducted for student input.
SELPA (Special Education)	Family surveys and individual meetings with families centered around IEPs

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Educational partner feedback played a central role in shaping revisions to the LCAP and was gathered through multiple, ongoing engagement structures across stakeholder groups. Teacher feedback specific to the LCAP was collected during a staff session on March 30, 2026, and through regular discussions in weekly Instructional Leadership Team meetings. Site administration engaged in continuous LCAP development, goal analysis, and planning during weekly administrative team meetings, while additional input from school personnel was gathered during staff meetings.

Family feedback was collected through biannual surveys and two targeted engagement opportunities held on March 20, 2026 and during the Saturday School Spring Festival on March 21, 2026. Input from Multilingual Learner families was gathered through ELAC meetings held on August 26, 2025; November 18, 2025; January 13, 2026; and April 21, 2026. Student perspectives were incorporated through subgroup interviews, and families of students with disabilities provided feedback through surveys and individual IEP-related meetings.

Across these engagement efforts, several consistent priorities emerged. Educational partners emphasized the importance of strong classroom instruction, small group learning, and individualized academic support. In response, the LCAP has been refined to prioritize the strengthening of differentiated instruction and intervention systems. A key focus for the coming year will be developing teachers' capacity to effectively implement small group instruction, ensuring consistent, high-quality, targeted support for students to improve academic outcomes. Additionally, family events and learning opportunities specifically tied to stduent literacy will be held.

Feedback also highlighted the need for clearer and more consistent communication with families, as well as greater support for learning at home. As a result, the LCAP includes actions to streamline communication systems, establish schoolwide expectations for family communication, and provide accessible curriculum resources to strengthen family partnership in student learning.

In addition, families and students identified student engagement and school connectedness as critical factors. While there was strong appreciation for existing recognition systems and school culture, there was also a clear request for expanded enrichment opportunities, including arts, field trips, and athletics. The LCAP reflects a commitment to maintaining strong culture systems while exploring opportunities to expand enrichment and student experiences.

Attendance-related feedback indicated both logistical barriers and engagement-related challenges. In response, the LEA will continue to strengthen attendance systems through improved communication, targeted supports, and strategies designed to increase student engagement.

In developing the LCAP, the LEA prioritized the most frequently identified needs across stakeholder groups, particularly those related to academic support, communication, and student engagement, while ensuring alignment to student outcome goals and the overall instructional program.

Goals and Actions

Goal

Goal #	Description	Type of Goal
1	Aspire scholars and staff experience grade-level, engaging, affirming, and meaningful, culturally responsive academic programming that prepares them for career and college.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Our goal, shaped by the urgent need for superior curriculum and instructional quality, aims to empower every student with engaging, meaningful, and rigorous GLEAM instruction. This approach prepares them for future college and career paths that match their aspirations. In response to the educational disparities widened by the pandemic, we are committed to advancing equity, particularly for historically underserved communities. We pledge to equip our educators with the necessary resources, support, and time to deliver culturally responsive, standards-aligned teaching. By embracing data-informed practices, we ensure continuous assessment and support for our students' journey towards academic excellence and lifelong success.

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Overall, most actions under Goal 1 were implemented, with strong execution in curriculum, ELD, personalized learning, and Title I supports, and more variable implementation in instructional systems, MTSS structures, SPED supports, and Black Excellence initiatives.

Grade-level curriculum (1.1) was fully implemented, including curriculum purchases, 1:1 devices, and consistent use of the GLEAM framework for lesson internalization. Leadership capacity was strengthened through UnboundEd training. Science of Reading PD was not provided internally, though partially addressed through external LTRS training.

Instructional systems (1.2) were partially implemented. Data discussions and observations occurred regularly through early release days, ELOP Fridays, and PD; however, consistency in documentation, leadership participation, and instructional follow-through varied.

Master scheduling and MTSS (1.3) were partially implemented. The master schedule ensured access to core instruction, intervention, co-teaching, and enrichment, and Expanded Learning extended instructional time. MTSS implementation was inconsistent, and scheduling structures created challenges in effectively serving Students with Disabilities.

MLL programming (1.4) was fully implemented. Designated ELD was consistently provided, and professional development supported integration of language development into instruction.

SPED actions (1.5) were partially implemented. Co-teaching increased and Education Specialists participated in PD, but key components such as the co-teaching self-assessment were not completed, and staffing adjustments resulted in increased reliance on instructional assistants.

Black Excellence (1.6) was partially implemented. Pro-Black Curriculum and BSU programming were implemented; however, the Black Family Advisory Council was not established, and family engagement remained broad rather than subgroup-specific.

Personalized Learning (1.7) was fully implemented. Students developed and shared Personalized Learning Plans, including language goals for MLL students, though consistency in student progress monitoring varied.

Title I supports (1.8) were fully implemented, funding a Dean of Instruction and Mental Health Counselor, strengthening both academic and social-emotional systems.

Key successes include strong curriculum implementation, aligned instructional planning, and consistent ELD systems. Challenges included inconsistent MTSS implementation, variability in coaching and data systems, and incomplete implementation of subgroup-specific supports.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Variance mainly from Title III re-allocations and SpEd substitute cost decreases.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, actions under Goal 1 were effective in improving ELA outcomes and foundational literacy, with more limited effectiveness in mathematics and for Students with Disabilities.

Grade-level curriculum and internalization (1.1) were highly effective. ELA performance improved from -63.9 DFS to -45 DFS, with continued growth, and mCLASS proficiency increased from 22% to 42%. English Learners and African American students also showed meaningful gains, indicating strong impact of standards-aligned curriculum and GLEAM implementation.

Instructional systems (1.2) were partially effective. Data discussions and observations supported ELA growth; however, math performance plateaued (-52.7 DFS to -52.8 DFS), and iReady math growth remained low (18%), reflecting inconsistent implementation of data-driven practices.

Master scheduling and MTSS (1.3) were partially effective. Increased access to core instruction and intervention supported literacy gains; however, inconsistent MTSS implementation and scheduling challenges limited impact for Students with Disabilities, who remain significantly below standard in both ELA and math.

MLL programming (1.4) was highly effective. ELPI increased from 23% to 46.6% and stabilized at 45%, while ELA performance for English Learners improved from -65.7 DFS to -40.4 DFS, demonstrating strong impact of consistent ELD instruction.

SPED actions (1.5) were partially effective. ELA performance improved (-149 DFS to -102.5 DFS), but math outcomes remain low (-106.4 DFS), and chronic absenteeism for Students with Disabilities remains high, indicating continued gaps in targeted support.

Black Excellence (1.6) showed moderate effectiveness. African American students improved in ELA (-67.5 DFS to -50.7 DFS), but math outcomes declined slightly, indicating uneven impact across content areas.

Personalized Learning (1.7) was partially effective. Student goal-setting supported literacy gains, but moderate reading growth (38%) and low math growth (18%) indicate inconsistent implementation, particularly in math.

Title I supports (1.8) were effective in strengthening overall conditions for learning. ELA outcomes improved and suspension rates decreased (2% to 1.1%); however, math growth and subgroup gaps persist.

In summary, actions were most effective in advancing literacy and outcomes for English Learners, while remaining less effective in accelerating math achievement and closing gaps for Students with Disabilities.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on analysis of Dashboard and local data, adjustments will focus on strengthening math instruction, increasing consistency of MTSS and coaching systems, and improving targeted supports for Students with Disabilities while maintaining strong literacy and ELD practices.

Grade-level curriculum (1.1) will shift to implementation of a new ELA curriculum (Benchmark Advanced), with training beginning in summer 2026. GLEAM-based lesson internalization will continue to ensure instruction remains engaging, affirming, and aligned to standards.

Instructional systems (1.2) will be strengthened by formalizing data discussion protocols, documenting outcomes in annotated lesson plans, and utilizing the Focus Student Tracker to guide planning, coaching, and MTSS supports. Leadership will increase presence in data discussions and refine observation focus areas.

Master scheduling and MTSS (1.3) will be adjusted to include weekly RtI meetings with a biweekly academic focus. Students with IEPs will be more intentionally integrated into intervention groups aligned to their learning goals to improve access and outcomes.

MLL programming (1.4) will be refined by integrating language functions into learning objectives across all content areas to deepen alignment between language development and core instruction.

SPED supports (1.5) will focus on completing program review processes, including co-teaching self-assessments, and strengthening alignment between co-teaching, intervention, and student needs. Increased structure and clarity in service delivery will aim to improve outcomes for Students with Disabilities.

Black Excellence (1.6) will be adjusted to align with the new ELA curriculum while maintaining a strong standards-based approach. Efforts will continue to strengthen culturally responsive practices and monitor impact across content areas.

Personalized Learning (1.7) will be strengthened by increasing consistency in student progress monitoring, with students more regularly tracking foundational skills data and maintaining learning portfolios.

Title I supports (1.8) will continue to fund key roles, with an increased focus on aligning academic interventions to address persistent math gaps and subgroup performance.

Overall, next steps prioritize maintaining strong literacy systems while building greater coherence and consistency in math instruction, MTSS implementation, and subgroup supports to accelerate progress across all student groups.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Grade Level Curriculum	Purchase needed curriculum replacements to ensure that all core subjects have standards-based and board-approved curriculum. New ELA curriculum being purcased for 26.27 school year. Provide professional development on standards-aligned curriculum (iReady, EL, Amplify, etc.). Provide training on new ELA Curriculum (Benchmark Advanced) beginning summer 2026 Co-plan and facilitate PD with regional content directors/program managers. Purchase chrome books so that all students have devices (1:1) and access to regular grade-level content practice experiences. Provide regular time for each grade level/content team to have regular lesson Internalization (using the UnboundEd Planning Process) so teachers can customize grade level curriculum using the GLEAM framework to integrate Culturally Responsive Teaching practices. Send new teammates to and employ CORE Science of Reading for early literacy. Send new Dean/AP/Leadership team to UnboundEd Standards Institute for GLEAM professional learning if they have not received the training previously.	$145,292.00	Yes
1.2	Instruction	Provide regular time for data discussions to guide Tier 1 instruction (through shared preps, release days with substitutes, or protected time on early release days). These data discussions will focus on CFAs (Common Formative Assessments) and/or interims Members of leadership team/admin team conduct weekly observations to monitor instructional program (identify bright spots, trends, areas to guide instruction) Ensure learning targets/objectives are clearly communicated with students (verbally) and posted visually	$931,497.00	Yes

Action #	Title	Description	Total Funds	Contributing
		Notes from data discussions are documented on annotated lesson plans. Utilize Focus Student Tracker to guide planning, coaching and MTSS Supports Admin to attend data discussions monthly Admin will scope out observation foci summer 2026		
1.3	Academic Program (Master Scheduling)	School MTSS team uses data to inform access to interventions and supports through established processes, cycles are scheduled on a six week basis. Utilize Focus Student Tracker to monitor progress Continue to create a Master Schedule that is equitable and provides students with access to all core content and opportunities for enrichment/arts while meeting the regional and state instructional minute requirements Work with Program Specialist to ensure master schedule allows for co-teaching (grouping students purposefully to support with common planning) AND co-planning. Ensure master schedule has time for intervention that does not limit access to enrichment Work with Regional Expanded Learning Program Manager and Afterschool Director to ensure After-School Program is available for all students, runs for 30 additional days outside of the school year, and provides homework support, enrichment, and academic support in fluency (reading fluency, math basic skills, typing skills). Schedule weekly MTSSmeetings with biweekly academic focus Include students with IEP in intervention groups as pertinent to their learning goals	$2,714,704.00	No

Action #	Title	Description	Total Funds	Contributing
1.4	MLL	Ensure all MLL students receive designated and integrated ELD instruction four times per week with instruction aligned to student proficiency levels. Ensure that each school has an MLL instruction team that supports and oversees (1) designated and integrated ELD instruction and associated professional development, (2) progress monitors MLL operational (RFEP, enrollment, placement, ELPAC testing) and academic (formative/summative assessments) data using MLL school site dashboard redesignation, and (3) is trained in and administers ELPAC. Complete the annual MLL program evaluation to determine strengths, weaknesses, and opportunities. Integrate Language Functions into learning objectives across content Utilize Focus Student Tracker to monitor students for additional supports The actions outlined above are designed to address the urgent needs highlighted by the California School Dashboard. Red indicators have been identified for English Learners in the ELPI indicator. These actions ensure that there is focused intervention to close the achievement gaps for those most at risk.	$13,083.00	No
1.5	SPED	Education Specialists are observed and given feedback (approx every 2 weeks) Education Specialists are included in all curriculum professional training to support with co-teaching Provide professional development on the 5 models of co-teaching (Supportive, Parallel, Alternative, Team Teaching, and Station) and Universal Design for Learning Ensure classroom General Education and Education Specialist co-teachers have regular shared planning time to support co-teaching With Program Specialist, conduct a program review and conduct co-teaching self-assessment and create 1-2 goals based on self-assessment	$1,132,637.00	No

Action #	Title	Description	Total Funds	Contributing
		Adjusting the school staffing model in response to data, increasing to 3 Education Specialists and align the master schedule to support with instructional model Area identified was Parent Engagement with current scores: developing. Improvement will come thorugh events targeted for Special Education families and including Special Education as part of family education nights. Utilize Focus Student Tracker to monitor students for additional supports.		
1.6	Black Excellence	Implement Pro-Black Curriculum Initiative (which includes use of alternate texts and activities to highlight black excellence, reduce anti-black bias) in our SEL, ELA, and Math. Adjust Pro-Black Curriculum to support new ELA curriculum. Maintain standards focus of scoped and sequence. Work with Regional Academic Team to provide professional development, structured internalization/planning sessions, and do quarterly program learning walks to review quality (See doc for costs: PBCI Supplements) Continue our Black Student Union (BSU) and provide materials (costs for t-shirts, awards, supplies, etc.) Participation in Black Excellence awards ceremony (costs for awards) Start a Black Family Advisory Council to get input on our school community (costs for food, materials, school supplies)	$0.00	No
1.7	Personalized Learning (students)	Students create Personalized Learning Plans and share with families during Student-led Conferences (once per semester) based on their learning goals and data. Action steps to support goals are written for each student, and students have time each month to monitor progress on their goals and adjust plans. Multi Language Learners include language goals into their PLPs	$0.00	No

Action #	Title	Description	Total Funds	Contributing
		Students monitor their own data related to foundational skills, maintain learning portfolios.		
1.8	Title I	To enhance academic performance across all student groups, with a focus on aiding those at the lowest achievement levels, our strategy involves utilizing Title I funds for the following positions: Dean of Instruction This approach, grounded in our commitment to equity, ensures all students have access to necessary resources and support, regardless of socioeconomic status. By allocating Title I funds towards these positions we aim to provide targeted interventions that directly contribute to student success. The expected outcome is an improvement in the academic performance of our low-achieving students, measured by assessments, progress monitoring, and state testing results, evidencing the effectiveness of this support. Funding from Title I will specifically support these critical roles, aligning our actions with federal guidelines to boost educational outcomes for disadvantaged students. To support student well being in order to foster better academic outcomes we will maintaing our Mental Health Counselor.	$160,290.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
2	Aspire scholars and staff are empowered to cultivate communities that foster inclusive, affirming, joyful, and safe learning environments.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 5: Pupil Engagement (Engagement)
Priority 6: School Climate (Engagement)
Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

In alignment with Aspires Core Values—joy, well-being, agency, belonging, and community partnership—our region has crafted a graduate profile to inspire and guide our students and educators in Aspire Central Valley. Our aim is to empower them, not just academically but also personally, fostering a culture where everyone can thrive and contribute positively. We are excited to introduce a new social-emotional curriculum, set to unfold over the next three years. Designed to be culturally responsive, it equips our community with the tools to foster empathy and trust. Our commitment to the 'Empowered' goal is a pledge to create a nurturing space where all individuals can excel and support the broader community's well-being. We will track our journey towards this vision, using surveys and data on attendance, discipline, and school climate, to ensure a healthy, inclusive, and vibrant educational environment.

Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Overall, actions under Goal 2 were partially implemented, with stronger execution in attendance systems, school climate structures, and facilities, and more variable implementation in SEL systems, family engagement, and coaching cycles.

Attendance and enrollment systems (2.1) were largely implemented. Weekly attendance team meetings, targeted family outreach, and attendance recovery systems were in place, with additional strategies implemented to address tardies. Family communication occurred less frequently than planned, and engagement efforts decreased over time.

SEL systems (2.2) were partially implemented. Curriculum was purchased and Panorama data was reviewed with staff; however, consistent walkthroughs and full implementation of SEL practices, including RULER integration, were limited.

Family and community engagement (2.3) was partially implemented. Multiple events and ELAC meetings were held, and social media outreach increased awareness. A Family Outreach Coordinator supported this work; however, the planned school social worker role was not filled, and consistent engagement structures were not fully established.

School climate systems (2.4) were partially implemented. PBIS systems, discipline protocols, and team structures were in place, with regular review of behavior data. Staff received training in restorative practices and de-escalation, though implementation of some systems, including consistent walkthroughs and full team alignment, varied.

Facilities and safety (2.5) were fully implemented. Required walkthroughs, safety trainings, and compliance measures were consistently completed, maintaining “Good” ratings and ensuring safe learning environments.

Coaching systems (2.6) were partially implemented. Teachers received regular coaching and feedback, though not consistently at the planned biweekly frequency. Program Inquiry Walks and leadership development structures were established, but peer observation and lead teacher coaching systems were not fully developed.

Key successes include strong attendance systems, improved behavior structures, and consistent facilities management. Challenges included inconsistent implementation of SEL, coaching, and family engagement systems, as well as gaps between planned structures and consistent execution.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

Variance primarily due to Campus Monitor position adjustments.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, actions under Goal 2 were partially effective, with stronger impact on attendance improvement, behavior outcomes, and facilities, and more limited impact on perception data related to belonging, safety, and family engagement.

Attendance systems (2.1) showed moderate effectiveness. Chronic absenteeism improved significantly from 43.3% to 25.8%, with current internal data trending lower (22%). However, rates increased to 34.3% on the Dashboard, and inconsistent family communication and engagement limited sustained impact.

SEL systems (2.2) were partially effective. Student sense of belonging improved slightly (57% to 59%), and safety increased (36% to 55%) before declining again (~50%), indicating inconsistent implementation and impact of SEL practices.

Family and community engagement (2.3) showed limited effectiveness. While participation and outreach increased, overall family engagement remained low (29% favorable), and family perceptions of safety declined significantly (88% to 54%), indicating that engagement efforts did not yet translate into stronger trust or connection.

School climate systems (2.4) were effective in improving behavior outcomes. Suspension rates decreased from 2.4% to 1.1%, demonstrating strong impact of PBIS, restorative practices, and behavior systems. However, perception data remained mixed, suggesting that improvements in systems have not yet shifted student and family experience.

Facilities and safety (2.5) were highly effective. Facilities maintained “Good” ratings, and all students had access to instructional materials, indicating full implementation and impact.

Coaching systems (2.6) were partially effective. Coaching contributed to improved ELA and literacy outcomes; however, inconsistent coaching cycles and limited peer observation structures contributed to uneven instructional impact, particularly in math (18% iReady growth).

In summary, actions were most effective in improving attendance systems, behavior outcomes, and operational conditions, while remaining less effective in improving family engagement and perception of safety and belonging, largely due to inconsistent implementation and lack of sustained engagement structures.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on Dashboard and local data, adjustments will focus on strengthening consistency of SEL implementation, increasing family engagement systems, and improving alignment between school climate systems and student and family perception of safety and belonging.

Attendance systems (2.1) will be strengthened by increasing consistency of family communication, including monthly outreach and clearer systems for tracking communication and interventions. Attendance team structures will continue, with a sustained focus on early intervention and subgroup monitoring.

SEL systems (2.2) will be refined through clear implementation expectations for weekly SEL lessons and intentional integration of RULER to support self-efficacy and self-regulation. Additional staff training will focus on consistent use of SEL practices and alignment to student data.

Family and community engagement (2.3) will shift toward stronger systems and structures, including defined communication timelines, tracking of family outreach, and increased clarity in roles. If accepted, participation in the Community Engagement Initiative will support this work. Development of a PCA Volunteer Corps will increase meaningful family involvement in the academic program.

School climate systems (2.4) will be strengthened by increasing consistency in implementation of No Nonsense Nurturer strategies and expanding the role of the Schoolwide Discipline Team to meet weekly and review data across both school day and Expanded Learning programs.

Facilities and safety (2.5) will maintain current systems, with added structure through biweekly safety/operations meetings and monthly drills to ensure continued preparedness.

Coaching systems (2.6) will be strengthened by increasing observation and feedback capacity through the Instructional Leadership Team and expanding Program Inquiry Walks. Future focus will include developing peer observation and feedback structures to increase consistency of instructional practice.

Overall, next steps prioritize building coherence and consistency across systems, particularly in SEL, family engagement, and coaching, to ensure that improvements in structures translate into stronger student and family experience outcomes.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
2.1	Attendance and Enrollment	Attendance: Ensure the attendance team reviews attendance data weekly. During data reviews, focus on looking at attendance rates specifically for ELs, Mckinney-Vento, Foster Youth, and low-income students. Increase family communication when students are absent (including personal communication for every absence, and conducting home visits for students with chronic absenteeism) School-wide attendance incentive programs (perfect attendance certificates, grade level attendance competitions). The windows for these incentives will be shortened so that students do not give up on attendance rewards after one or two absences. Focus on early family education for our TK-2 grade families by providing monthly reminders/information on importance of attendance. Engage all families in continued learning and awareness of school wide attendance protocols, incentives and programs, such as McKinney-Vento, the difference between Chronic Absenteeism and Truancy, the impact of attendance on learning outcomes, etc. Continuously monitor and update Special Programs for students in PowerSchool in order to recognize all Mckinney-Vento and Foster Youth students. Enrollment: At weekly attendance team meeting, review enrollment targets and make plans for way to meet enrolment targets if necessary. The actions outlined above are designed to benefit all students, while specifically aiming to address the urgent needs highlighted by the California School Dashboard. Red indicators have been identified for African American students and Students with Disabilities. These actions ensure that while all students receive support, there is focused intervention to support those most at risk. In addition to the above items, we will implement an attendance recovery plan that will meet state staffing and program requirements.	$219,222.00	Yes

Action #	Title	Description	Total Funds	Contributing
		The actions outlined above are designed to benefit all students, while specifically aiming to address the urgent needs highlighted by the California School Dashboard. Red indicators have been identified for African American students and Students with Disabilities. These actions ensure that while all students receive support, there is focused intervention to support those most at risk.		
2.2	SEL	Purchase needed curriculum replacements to ensure that all classrooms have SEL board-approved curriculum (Refer to CV Curriculum Overview 24-5 for curriculum and costs) School Beat. Conduct regular learning walks/fidelity checks on SEL curriculum usage and implementation throughout the school day. Utilize Conditions for Thriving aligned to CASEL 5's SEL competencies. Train and develop all teammates on SEL competencies from CDE. Have learning targets specific to SEL visibly posted. MTSS Universal Programs / Practices: Provide curriculum materials and resources for teachers. Antiracist practices / MTSS: Provide time for teachers/teams to review SEL data from Panorama, and modify SEL units through a data-informed perspective. Purchase subscription for RULER as a supplement to MooZoom curriculum based on student survey data demonstrating a need for more emotional regulation support. Provide Clear Implementation Guidelines for weekly sessions, and RULER integration Training on accessing Ruler resources around self efficacy, self regulation	$0.00	No
2.3	Family and Community	Hold quarterly family engagement events (ex: "Lunch with a Loved One" or donuts with dads, muffins with mom, etc.) Inviting families to eat lunch with their children.	$0.00	Yes

Action #	Title	Description	Total Funds	Contributing
	Engagement & Outreach	Hold monthly SSC/ELAC meetings where each meeting includes student performances, food, childcare, translation, and door prizes. Create Black Family Advisory group for family members of black students to provide input on our school culture and climate. Utilize social media liaison to increase awareness of events occurring at school and also create a stronger connection to the school. Identify a person or team that will establish meaningful school partnership. Stronger Connection Grant: Hire a school social worker to support with attendance team and conduct home visits. Hire a family support manager to work in collaboration with families to support school-wide attendance efforts. Systems Work: Create structures and timelines for family communication of events Guidelines for Family Communication & Logs If accepted into Cohort 7, participate in the Community Engagement Initiative Develop PCA Volunteer Corps to bring consistent support to teachers while building a stronger culture around academic excellence with families.		
2.4	School Climate	Provide staff training on Powerschool Incident Establish a school MTSS team (ex. ELT, ILT, Wellness team, MTSS team, attendance team, etc.) which will review and look at school climate data (including SEL, attendance, enrollment, and behavior) Establish a school Equity Leadership Team (ELT) that will serve as their PBIS team. Continue using PBIS System/Merit Point System/Live School to reinforce school-wide expectations and provide student incentives for positive culture behaviors and revise school-wide behavior management handbook	$0.00	Yes

Action #	Title	Description	Total Funds	Contributing
		to include positive reinforcements and major/minor incidents in support of the new Powerschool incident management system. Review discipline data (incidents, referrals, suspensions) monthly to look for school-wide trends and create plans to support universal program Conduct regular learning walks/fidelity checks on school-wide PBIS and restorative practices. Provide school-wide Professional Development on CPI and de-escalation techniques. Ensure all teammates have attended Restorative Practice training. Educator retention & development: Scope & Sequence (reference this scope & sequence or check out SEL One-Stop-Shop) centering and integrating Adult SEL in PD, including regular CREW meetings and regularly embedding foundational SEL learnings in PDs/coaching AT the Start of the year we will be working with staff to understand the new Aspire- wide Discipline Handbook. Staff will also receive training based on No Nonsense Nurturer text. Observe for NNN implentation School Wide Discipline team to meet weekly, looking holistically at day time and after school programs Provide teacher training an access and utilizing RULER system as a supplement to SEL Set clarifying expectations at the beginning of year for frequency of SEL lessons, or class meetings		

Action #	Title	Description	Total Funds	Contributing
2.5	Classroom Facilities, and Student Physical Spaces	Continue maintaining safe and organized classroom environments through quarterly facilities walkthroughs, annual safety trainings, and consistent classroom environment expectations. Contract with Jofee to provide comprehensive safety plan development, annual staff training, administrative consultations, and as-needed support for urgent safety situations including security guard services when necessary. Invest in physical campus safety improvements including upgraded alarm and monitoring systems, enhanced exterior lighting, and reinforced doors and locks to ensure all learning spaces meet high safety standards.	$281,399.00	Yes
2.6	Regular Coaching (using ASLF & TLF)	Ensure all teachers receive coaching and feedback sessions every 2 weeks (using the Aspire Student Learning Framework and TeachBoost) School leadership team members create goals using the Transformational Leadership Framework (TLF) and have mid-year and end of year coaching conversation with principals All teachers 1-2 goals around the Aspire Student Learning Framework (ex. Essential Content) in their Professional Learning Plan Identify and develop peer observers to focus on ASLF and focus on coaching emotions and affirming/empowering teammates. Create a weekly admin learning walk with a focus on school-wide priorities and share with teammates through weekly newsletters or team meetings. Begin to have lead teachers engage in learning walks and coach teachers on their team.Work with Instructional Leadership Team to increase observation and feedback capacity Continue Program Inquiry Walks with rotating teammates to highlight bright spots and areas for growth, provide feedback to entire team after each session	$0.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
3	Aspire scholars and staff engage in meaningful work that is rigorous, culturally relevant, and engaging through real-world experiences to demonstrate opportunities that transform future possibilities.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 3: Parental Involvement (Engagement)
Priority 4: Pupil Achievement (Pupil Outcomes)
Priority 5: Pupil Engagement (Engagement)
Priority 7: Course Access (Conditions of Learning)

An explanation of why the LEA has developed this goal.

Our goal is to transcend traditional education by offering real-world opportunities to both students and staff. With programs like Early College High School and project-based learning, we aim to highlight the diverse talents and abilities within our community. We're committed to empowering our community by integrating real-world experiences that not only enhance academic performance but also equip individuals with vital life and career skills. As we transition to innovative, student-centered learning, we will support our educators in updating their teaching methods, ensuring they lead in educational innovation. In championing innovation, fostering teamwork, and empowering our community, we are dedicated to unlocking new possibilities for everyone in the Aspire community.

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Overall, actions under Goal 3 were partially implemented, with stronger execution in professional learning and credentialing, and more limited implementation in project-based learning and targeted family engagement.

Project-based learning (3.1) was partially implemented. Each grade level completed one rigorous project, with planning supported through release time and prior summer development. Implementation was more limited than planned, and use of regional protocols for evaluating projects was unclear. Upcoming curriculum changes will require redesign of projects.

Family involvement and community outreach (3.2) were partially implemented. Core events such as Back to School Night, Saturday School, Student-Led Conferences, and literacy events were held, with some community participation. However, targeted events for MLL and SPED families were not fully realized.

Professional learning (3.3) was partially implemented. Teachers set goals aligned to the Aspire Student Learning Framework and engaged in No Nonsense Nurturer development. Affinity groups and leadership training opportunities were limited, and not all planned external learning experiences were completed.

Teacher credentialing (3.4) was partially implemented. Systems supported teachers in completing credentialing and induction, contributing to high retention and progress toward full credentialing. However, monitoring structures were less consistent, and planned expansion of teacher pipeline programs was limited.

Key successes include strong staff retention, progress in teacher credentialing, and consistent implementation of student-led conferences and professional goal setting. Challenges included limited depth of project-based learning, gaps in targeted family engagement, and inconsistent access to external professional learning opportunities.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between budgeted expenditures and estimated actual expenditures for any of the actions under this goal

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, actions under Goal 3 were partially effective, with stronger impact in professional learning and credentialing, and limited impact in project-based learning and family engagement.

Project-based learning (3.1) showed limited effectiveness. While all grade levels implemented one project, the scope was narrower than intended and lacked consistent evaluation structures. There is no clear evidence that these projects significantly impacted academic outcomes at this stage.

Family involvement and community outreach (3.2) showed limited effectiveness. Core events and student-led conferences were implemented; however, overall family engagement remained low (29% favorable), and the absence of targeted MLL and SPED events limited impact on broader engagement goals.

Professional learning (3.3) was moderately effective. High retention (98%) and increased credentialing rates (83.33% progressing toward 100%) indicate strong impact on staff development. However, limited access to affinity groups and incomplete participation in leadership development opportunities reduced overall effectiveness.

Teacher credentialing (3.4) was effective. Progress toward full credentialing improved significantly (74.58% to 83.33%), supported by strong retention and ongoing participation in credentialing and induction programs, despite inconsistent monitoring structures.

In summary, actions were most effective in strengthening staff stability and credentialing, while remaining less effective in expanding rigorous project-based learning and meaningful family engagement, due to limited implementation depth and inconsistent access to planned supports.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on local data and implementation review, adjustments will focus on increasing the rigor and consistency of project-based learning, strengthening targeted family engagement, and maintaining strong staff development and credentialing systems.

Project-based learning (3.1) will be strengthened by aligning projects to the new ELA curriculum and expanding beyond one unit per grade level where possible. Clear protocols for project design, internalization, and evaluation will be established to increase rigor and consistency.

Family involvement and community outreach (3.2) will be refined by ensuring targeted engagement opportunities for MLL and SPED families and increasing alignment between events and family needs identified through survey and participation data.

Professional learning (3.3) will shift toward tighter alignment between teacher goals and student outcome data, with a focus on improving instructional impact. Efforts will be made to increase access to affinity groups and ensure completion of key leadership development opportunities.

Teacher credentialing (3.4) will be strengthened through more consistent monitoring structures and continued support for teachers in completing credentialing and induction requirements. Efforts to maintain high retention and develop internal pipelines will continue.

Overall, next steps prioritize increasing depth and consistency of implementation, particularly in project-based learning and family engagement, while sustaining strong systems for staff development and retention.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
3.1	Rigorous Projects (Project-Based learning)	Every student completes rigorous projects at every grade level with regional support and in conjunction with the pilot point people support. Provide regular time for rigorous project planning and Internalization. Create collaborative time to assess final student products for rigorous project and use protocols to look at the rigorous project data using regional provided protocols. Adjust project based learning units to accompany new ELA curriculum Benchmark Advance Plan school-wide celebrations of learning based on common ELA units.	$0.00	No
3.2	Family Involvement and Community Outreach	Provide one Saturday school and one family engagement event each year Invite career & community members in twice a year Families attend Student Led Conferences (SLCs) 2x per year based on goals and progress. Quarterly family education opportunities on topics determined via family and staff surveys. (At least one event per year will be specific to our MLL and Sped Scholars) Adjust ELAC meetings to coincide with school events to increase parent participation	$0.00	No
3.3	Professional Learning (adults)	During Professional Learning Plan (PLP) meetings, all teammates will set stretch goals to develop them for their future career goals and receive support/development in those areas (which may include release time for observations, tests, etc.) Ensure all teammates have ability to attend regional affinity groups. Ensure all admins attend National Equity Project: Leading for Equity	$0.00	No

Action #	Title	Description	Total Funds	Contributing
		Teachers will set goals specific to student data and improving student outcomes.		
3.4	Teacher Credentialing	In accordance with the Williams Act Requirements regarding teacher credentialing, set up monthly check-in meetings with any teachers misaligned and support them toward getting their credentials/requirements. Work towards securing 1-2 Alder Residents and 2 student teachers each year	$0.00	No

Goals and Actions

Goal

Goal #	Description	Type of Goal
4	Ensure student access to targeted academic support and social-emotional resources to accelerate learning recovery and improve student outcomes for identified subgroups in areas identified by LREBG the needs assessment	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)
Priority 2: State Standards (Conditions of Learning)
Priority 4: Pupil Achievement (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

The LEA developed this goal to ensure that all students, particularly identified subgroups, have equitable access to targeted academic support and social-emotional resources. This goal addresses the learning recovery needs identified through the LREBG needs assessment, aiming to accelerate learning recovery and improve student outcomes by providing comprehensive support in areas most impacted by the pandemic.

Measuring and Reporting Results

Goal Analysis [2025-26]

An analysis of how this goal was carried out in the previous year.

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

Overall, actions under Goal 4 were partially implemented, with stronger execution in literacy interventions and more limited implementation in math supports and professional development.

ELA interventions (4.1) were largely implemented. Small group instruction, personalized learning through iReady MyPath, and intervention supports were provided during the school day and in some Expanded Learning settings. Professional development in the Science of Reading was supported through CORE and LTRS training, and family literacy events were held. Expanded supports increased over time with additional staffing through AmeriCorps. Some variability existed in consistency of co-teaching and extended learning implementation.

Math interventions (4.2) were partially implemented. Small group instruction and personalized learning through iReady and Reflex Math were in place; however, intervention efforts were more heavily focused on literacy. Planned math professional development and family engagement opportunities were limited, with math family workshops not fully implemented.

Key successes include strong implementation of literacy interventions, increased teacher capacity in the Science of Reading, and expanded intervention staffing. Challenges included an imbalance of focus between ELA and math, limited math-specific professional development, and incomplete implementation of family engagement structures in math.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There are no material differences between budgeted expenditures and estimated actual expenditures for any of the actions under this goal

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

Overall, actions under Goal 4 were effective in improving literacy outcomes and less effective in accelerating math achievement, reflecting stronger implementation of ELA supports than math interventions.

ELA interventions (4.1) were highly effective. Targeted literacy supports, including small group instruction, personalized learning, and Science of Reading-aligned practices, contributed to significant gains in ELA performance (-63.9 DFS to -45 DFS) and improved foundational literacy (mCLASS 22% to 42%). English Learner progress also increased (ELPI 46.6%), indicating strong impact of aligned instructional practices and interventions.

Math interventions (4.2) were partially effective. While overall math performance improved from -68.6 DFS to -52.7 DFS, growth has plateaued (-52.8 DFS), and iReady math growth remains low (18%). Limited math-specific professional development, reduced emphasis on math intervention compared to literacy, and incomplete implementation of family engagement contributed to weaker outcomes.

In summary, actions were most effective in strengthening literacy outcomes and foundational skills, while remaining less effective in driving sustained math growth, due to gaps in instructional focus, professional development, and consistent implementation of math-specific supports.

Ready for Adjustments & Next Steps for Goal 4 when you are.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

Based on Dashboard and local data, adjustments will focus on strengthening math instruction and intervention systems while maintaining strong literacy practices.

ELA interventions (4.1) will continue with an emphasis on sustaining gains through small group instruction, personalized learning, and ongoing Science of Reading implementation. Expanded learning opportunities and family literacy events will continue, with increased consistency in co-teaching and intervention alignment.

Math interventions (4.2) will be strengthened through increased focus on small group instruction, consistent use of personalized learning tools, and implementation of targeted professional development aligned to the California Mathematics Framework. Math family engagement opportunities will be established to support learning beyond the classroom.

Overall, next steps prioritize balancing instructional focus across content areas, increasing coherence in math supports, and ensuring consistent implementation of intervention systems to improve outcomes for all student groups.

A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.

Actions

Action #	Title	Description	Total Funds	Contributing
4.1	ELA	Targeted Literacy Interventions – Small-group instruction, structured	$31,262.00	No

Action #	Title	Description	Total Funds	Contributing
		literacy programs, and personalized literacy interventions (MyPath) using diagnostic data. Expanded Learning Supports – Before/after-school reading intervention, summer literacy programs, and adaptive technology tools. Culturally Responsive Instruction – Professional development on co-teaching and co-planning, scaffolding for English Learners, and diverse, high-interest texts; coaching using The English Language Arts/English Language Development Framework for California Public Schools Family Engagement – Literacy workshops, take-home reading materials, and community partnerships. These evidence-based ELA interventions address the gaps identified in the needs assessment by: Improving Foundational Literacy Skills – Small-group instruction, tutoring, and structured literacy programs help struggling readers build fluency and comprehension. Providing Extended Learning Opportunities – After-school and summer literacy programs offer additional instructional time for students needing extra support. Enhancing Instructional Practices – Professional development equips teachers with strategies to better support identified subgroups. Strengthening Family Engagement – Literacy workshops and take-home resources reinforce reading skills outside of school. The actions are aligned with the allowable use of funds by supporting the purchase of evidence-based ELA and math curriculum and materials grounded in state standards and the science of reading to improve student outcomes.

Required Descriptions

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
1.1	**Action:** Grade Level Curriculum **Need:** California Dashboard data shows persistent academic gaps for English Learners and Socioeconomically Disadvantaged students in both ELA and Mathematics. English Learners scored -40.4 points below standard in ELA in 2024-25, improving from -54.7 at baseline but remaining below standard and identified as	These actions were selected as iReady math supports strong academic discourse which will support our EL population. Assuring adequate team planning and utilization of the GLEAM planning process will assure that lessons address grade level standards, and that scaffolds are provided to assure success for our EL and SPED Populations. On going professional development will assist educators in focusing on supporting our EL population during implementation. It is provided on a schoolwide basis as it is believed	Metric (1.1 & 1.2) SBAC

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Yellow on the Dashboard. Socioeconomically Disadvantaged students scored -52.5 in ELA and -60.3 in Mathematics in 2024-25, both identified as Yellow. RFEP data shows only 5.04% of English Learners reclassifying in 2024-25, declining from 7.60% at baseline, indicating continued need for strengthened language development and literacy supports for unduplicated pupils. **Scope:** LEA-wide	the actions focused on our EL population will also benefit the general populations of scholars as well.	
1.2	**Action:** Instruction **Need:** California Dashboard data shows persistent academic gaps for English Learners and Socioeconomically Disadvantaged students in both ELA and Mathematics. English Learners scored -40.4 points below standard in ELA and -56.3 in Mathematics in 2024-25, both identified as Yellow and improving from baseline but remaining below standard. Socioeconomically Disadvantaged students scored -52.5 in ELA and -60.3 in Mathematics in 2024-25, both identified as Yellow. ELPI data shows 46.6% of English Learners making progress toward English language proficiency in 2024-25, identified as Green but indicating continued need for data-driven instructional supports to sustain momentum for unduplicated pupils.	Providing specific time for ongoing data analysis which considers our subgroups of students will enable to more closely monitor the progress of our EL and Low-Income scholars. The analysis will be regarding whole school, then broken down by subgroups for comparative reasons, thus it will be conducted on a schoolwide basis. Observations by admin and leadership teams will enable feedback for scaffolds planned within lessons to increase teacher efficacy in supporting EL scholars and monitor for embedded ELD instruction. Since students are taught in a whole school setting his action is provided on a schoolwide basis. Learning targets being clearly posted and articulated to scholars will help focus instruction and allow students to attend to the learning target at hand. Providing such clarity for EL scholars also benefits the general population of scholars; thus, it is being proved on a schoolwide basis.	Metric (1.1 & 1.2) SBAC

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
2.1	**Action:** Attendance and Enrollment **Need:** California Dashboard data shows persistent chronic absenteeism for English Learners and Socioeconomically Disadvantaged students. Despite significant improvement from baseline, Black/African American students recorded 30.40% chronic absenteeism in 2024-25, identified as Red and worsening from Year 1. Socioeconomically Disadvantaged students recorded 28.40% and Students with Disabilities recorded 36.40%, both identified as Orange and remaining significantly elevated. Overall school attendance of 93.30% remains below the 95.1% target. **Scope:** LEA-wide	Educating students and families on the importance and impact of student attendance, and providing incentives for consistent attendance is provided schoolwide in an effort to increase attendance overall. In addition to these actions, our attendance team will consistently monitor attendance increase communication with chronically absent families in order to determine root causes and potential supports. We will move toward more frequent in person contact with chronically absent families in order to educate them on potential supports once we identify causes of absenteeism. Improved overall attendance should result in increased academic growth for scholars that have historically been chronically absent.	Metric (2.3) Chronic Absenteeism Metric (2.6) Attendance
2.3	**Action:** Family and Community Engagement & Outreach **Need:** California Dashboard data shows persistent family engagement needs for English Learners and Socioeconomically Disadvantaged students. Local Aspire Family Survey data shows Family Engagement favorable responses at 29% in Year 2, improving from	By increasing the number of events both social/celebratory and educational events we will continue to cultivate a stronger school community as a whole. This will increase communication opportunities and the sense of belonging for all members of our school community. Ultimately, increasing the strength of relationships between the adults in the community will result on positive outcomes for our scholars. Increased attendance at SSC and ELAC will increase opportunity for	Metric (2.4) Efforts we make to seek parent input

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	25% at baseline but indicating that the majority of unduplicated pupil families do not consistently report meaningful engagement with the school. Parent safety perceptions declined significantly from 79% at baseline to 54% in Year 2, indicating continued need for strengthened family communication and school connectedness efforts for unduplicated pupils. **Scope:** LEA-wide	family voice in the development of our school over time.	
2.4	**Action:** School Climate **Need:** California Dashboard data and local survey data indicate persistent school climate needs for English Learners and Socioeconomically Disadvantaged students. English Learners recorded a suspension rate of 1.70% in 2023-24, increasing from 1.7% at baseline before improving to 0% in 2024-25. Local Aspire Student Survey data shows school safety favorability at 56% in Year 2, improving from 36% at baseline but still indicating that nearly half of students, including unduplicated pupils, do not consistently feel safe at school. Parent safety perceptions declined significantly from 79% at baseline to 54% in Year 2, indicating continued need for strengthened behavior systems and climate supports for unduplicated pupil families.	Student and staff surveys demonstrate the need to increase the overall school climate and culture. By consistently having our team review data across sources and assuring training in restorative practices and CPI we will see an increase in attendance and increase feelings of a positive school climate and overall well-being of staff and students.	Metric (2.1) Student sense of safety and connectedness

Goal and Action #	Identified Need(s)	How the Action(s) Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis	Metric(s) to Monitor Effectiveness
	Scope: LEA-wide		
2.5	**Action:** Classroom Facilities, and Student Physical Spaces **Need:** Local Aspire Student Survey data indicates persistent school safety perception needs for English Learners and Socioeconomically Disadvantaged students. Student survey data shows 56% of students responded favorably to school safety questions in Year 2, improving from 36% at baseline but still indicating that nearly half of students, including unduplicated pupils, do not consistently feel safe at school. Local Aspire Family Survey data shows parent safety perceptions declined dramatically from 79% at baseline to 54% in Year 2, indicating continued need for sustained safety investments for unduplicated pupil families. **Scope:** LEA-wide	The Jofee contract provides comprehensive safety plan development, annual staff training, administrative consultations, and security guard services as needed, giving all staff access to professionally supported safety systems beyond standard requirements. Physical campus investments including upgraded alarm and monitoring systems, enhanced exterior lighting, and reinforced doors and locks create consistently secure learning environments across all campus spaces. These actions are provided schoolwide because campus safety infrastructure and contracted safety services operate at the whole-school level and cannot be delivered selectively to individual students. For English Learners and Socioeconomically Disadvantaged students to consistently access safe and well-maintained learning environments, these systems must function across the entire school campus.	Metric (2.1) Student Sense of Safety Metric (2.8) Parent Sense of Safety

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

Goal and Action #	Identified Need(s)	How the Action(s) are Designed to Address Need(s)	Metric(s) to Monitor Effectiveness

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

Not Applicable

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

These funds are allocated towards essential salary support to maintain our current staff levels and towards comprehensive professional development programs. By using the funds to cover part of the existing salaries, we ensure that our schools do not lose valuable staff members due to budget constraints. Concurrently, the investment in professional development enriches our staff's skills and teaching capabilities, enhancing both job satisfaction and educational outcomes. This dual approach of financial support and professional growth not only stabilizes our workforce but also directly contributes to sustained, high-quality service for our students.

Staff-to-student ratios by type of school and concentration of unduplicated students	Schools with a student concentration of 55 percent or less	Schools with a student concentration of greater than 55 percent
Staff-to-student ratio of classified staff providing direct services to students	N/A - single school LEA	N/A - single school LEA
Staff-to-student ratio of certificated staff providing direct services to students	N/A - single school LEA	N/A - single school LEA

Local Control and Accountability Plan Instructions

Plan Summary

Engaging Educational Partners

Goals and Actions

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at LCFF@cde.ca.gov.

Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California Education Code [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.

- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.

- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:

    - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).

    - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).

        - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (EC Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (EC sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in EC sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023 and Senate Bill 153, Chapter 38, Statues of 2024.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

> Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

Plan Summary

Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

Requirements and Instructions

General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA. LEAs may also provide information about their strategic plan, vision, etc.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- LEAs may also provide information about their strategic plan, vision, etc.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

EC Section 52064.4 requires that an LEA that has unexpended Learning Recovery Emergency Block Grant (LREBG) funds must include one or more actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs, as applicable to the LEA. To implement the requirements of *EC* Section 52064.4, all LEAs must do the following:

- For the 2025–26, 2026–27, and 2027–28 LCAP years, identify whether or not the LEA has unexpended LREBG funds for the applicable LCAP year.
    - If the LEA has unexpended LREBG funds the LEA must provide the following:
        - The goal and action number for each action that will be funded, either in whole or in part, with LREBG funds; and
        - An explanation of the rationale for selecting each action funded with LREBG funds. This explanation must include:
            - An explanation of how the action is aligned with the allowable uses of funds identified in *EC* Section 32526(c)(2); and
            - An explanation of how the action is expected to address the area(s) of need of students and schools identified in the needs assessment required by *EC* Section 32526(d).
                - For information related to the allowable uses of funds and the required needs assessment, please see the Program Information tab on the LREBG Program Information web page.
            - Actions may be grouped together for purposes of these explanations.
            - The LEA may provide these explanations as part of the action description rather than as part of the Reflections: Annual Performance.
    - If the LEA does not have unexpended LREBG funds, the LEA is not required to conduct the needs assessment required by *EC* Section 32627(d), to provide the information identified above or to include actions funded with LREBG funds within the 2026-27, 2026-27 and 2027-28 LCAPs.

Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with EC sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

Comprehensive Support and Improvement
An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

Schools Identified

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

Support for Identified Schools

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

Monitoring and Evaluating Effectiveness

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

Engaging Educational Partners

Purpose

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (EC Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

Requirements

Requirements

School districts and COEs: *EC* Section 52060(g) and *EC* Section 52066(g) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,

- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

Charter schools: *EC* Section 47606.5(d) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the CDE's LCAP webpage.

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see *Education Code* Section 52062;
    - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).
- For COEs, see *Education Code* Section 52068; and
- For charter schools, see *Education Code* Section 47606.5.

- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

Instructions

Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Complete the table as follows:

Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.

- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.

- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.

- For the purposes of this prompt, this may also include, but is not necessarily limited to:
    - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
    - Inclusion of metrics other than the statutorily required metrics
    - Determination of the target outcome on one or more metrics
    - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
    - Inclusion of action(s) or a group of actions
    - Elimination of action(s) or group of actions
    - Changes to the level of proposed expenditures for one or more actions
    - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
    - Analysis of effectiveness of the specific actions to achieve the goal
    - Analysis of material differences in expenditures
    - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
    - Analysis of challenges or successes in the implementation of actions

Goals and Actions

Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
    - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

Requirement to Address the LCFF State Priorities

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The *LCFF State Priorities Summary* provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

Focus Goal(s)

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

(A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and

(B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school's educators, if applicable.

- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school's educators.
    - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
    - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school's educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
    - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

Note: *EC* Section 42238.024(b)(1) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

Broad Goal

Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.

- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

Type of Goal

Identify the type of goal being implemented as a Broad Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

Maintenance of Progress Goal

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

Measuring and Reporting Results:

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.

- The metrics may be quantitative or qualitative; but at minimum, an LEA's LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.

- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.

    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

- **Required metrics for Equity Multiplier goals**: For each Equity Multiplier goal, the LEA must identify:

    - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or

    - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

- **Required metrics for actions supported by LREBG funds**: To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include at least one metric to monitor the impact of each action funded with LREBG funds included in the goal.

    - The metrics being used to monitor the impact of each action funded with LREBG funds are not required to be new metrics; they may be metrics that are already being used to measure progress towards goals and actions included in the LCAP.

Complete the table as follows:

Metric #

- Enter the metric number.

Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

Baseline

- Enter the baseline when completing the LCAP for 2024–25.
    - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
    - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
    - Indicate the school year to which the baseline data applies.
    - The baseline data must remain unchanged throughout the three-year LCAP.
        - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.
        - If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
    - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.

- Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
    - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the "**Measuring and Reporting Results**" part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26**. Leave blank until then.	Enter information in this box when completing the LCAP for **2026–27**. Leave blank until then.	Enter information in this box when completing the LCAP for **2024–25** or when adding a new metric.	Enter information in this box when completing the LCAP for **2025–26** and **2026–27**. Leave blank until then.

Goal Analysis:

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. "Effective" means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

Note: When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as "Not Applicable."

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
    - Include a discussion of relevant challenges and successes experienced with the implementation process.
    - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
    - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
    - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
    - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
    - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:

- The reasons for the ineffectiveness, and
- How changes to the action will result in a new or strengthened approach.

Actions:

Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.
    - For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
    - As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
    - These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
    - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 *CCR*] Section 15496 in the Increased or Improved Services section of the LCAP.

***Actions for Foster Youth*:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

Required Actions

For English Learners and Long-Term English Learners

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
    - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
    - Professional development for teachers.
    - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.

For Technical Assistance

- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

For Lowest Performing Dashboard Indicators

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
    - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
    - These required actions will be effective for the three-year LCAP cycle.

For LEAs With Unexpended LREBG Funds

- To implement the requirements of *EC* Section 52064.4, LEAs with unexpended LREBG funds must include one or more actions supported with LREBG funds within the 2025–26, 2026–27, and 2027–28 LCAPs, as applicable to the LEA. Actions funded with LREBG funds must remain in the LCAP until the LEA has expended the remainder of its LREBG funds, after which time the actions may be removed from the LCAP.
    - Prior to identifying the actions included in the LCAP the LEA is required to conduct a needs assessment pursuant to *EC* Section 32526(d). For information related to the required needs assessment please see the Program Information tab on the LREBG

Program Information web page. Additional information about the needs assessment and evidence-based resources for the LREBG may be found on the California Statewide System of Support LREBG Resources web page. The required LREBG needs assessment may be part of the LEAs regular needs assessment for the LCAP if it meets the requirements of *EC* Section 32627(d).

- School districts receiving technical assistance and COEs providing technical assistance are encouraged to use the technical assistance process to support the school district in conducting the required needs assessment, the selection of actions funded by the LREBG and/or the evaluation of implementation of the actions required as part of the LCAP annual update process.
- As a reminder, LREBG funds must be used to implement one or more of the purposes articulated in *EC* Section 32526(c)(2).
- LEAs with unexpended LREBG funds must include one or more actions supported by LREBG funds within the LCAP. For each action supported by LREBG funding the action description must:
  - Identify the action as an LREBG action;
  - Include an explanation of how research supports the selected action;
  - Identify the metric(s) being used to monitor the impact of the action; and
  - Identify the amount of LREBG funds being used to support the action.

Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA's description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC*

Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the "minimum proportionality percentage" or "MPP." The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

LEA-wide and Schoolwide Actions

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

For School Districts Only

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Requirements and Instructions

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero ($0).

Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 *CCR* Section 15496(a)(7).

Required Descriptions:

LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

Note for COEs and Charter Schools: In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

Limited Actions

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

Identified Need(s)

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

How the Action(s) are Designed to Address Need(s)

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

Metric(s) to Monitor Effectiveness

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.

- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Additional Concentration Grant Funding

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.

- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.

- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.

- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
    - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
    - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year**: Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant**: Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

  See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 *CCR* Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover —

Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***

- **Goal #**: Enter the LCAP Goal number for the action.
- **Action #**: Enter the action's number as indicated in the LCAP Goal.
- **Action Title**: Provide a title of the action.
- **Student Group(s)**: Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
    - **Scope**: The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.
    - **Unduplicated Student Group(s)**: Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
    - **Location**: Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate "All Schools." If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter "Specific Schools" or "Specific Grade Spans." Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span**: Enter "ongoing" if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter "1 Year," or "2 Years," or "6 Months."
- **Total Personnel**: Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel**: This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.

- **LCFF Funds**: Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA's total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
    - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds**: Enter the total amount of Other State Funds utilized to implement this action, if any.
    - **Note:** Equity Multiplier funds must be included in the "Other State Funds" category, not in the "LCFF Funds" category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA's LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds**: Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds**: Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds**: This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services**: For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.
    - As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

      For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost $165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of $165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the 'Contributing to Increased or Improved Services?' column will need to be checked to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses.

Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures**: Enter the total estimated actual expenditures to implement this action, if any.

Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the 'Contributing to Increased or Improved Services?' column to ensure that only actions with a "Yes" are displaying. If actions with a "No" are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the "Yes" responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions**: Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.
- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
    - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been $169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of $169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant**: Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program,

the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 *CCR* Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 *CCR* Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
    - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
    - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**
    - This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

Contributing Actions Annual Update Table

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).
- **7. Total Estimated Actual Expenditures for Contributing Actions**
  - This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).
- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**
  - This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).
- **5. Total Planned Percentage of Improved Services (%)**
  - This amount is the total of the Planned Percentage of Improved Services column.
- **8. Total Estimated Actual Percentage of Improved Services (%)**
  - This amount is the total of the Estimated Actual Percentage of Improved Services column.
- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**
  - This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

LCFF Carryover Table

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**
  - This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**

- If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.

  The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.

- **13. LCFF Carryover — Percentage (12 divided by 9)**

  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).

California Department of Education
