## Information on Courses

In the Elementary school, we use a variety of delivery modes: primarily person to person; interaction between teacher and student; guided learning and research; independent discovery learning and non-supervised individual learning (homework).

On enrolment, students will be interviewed and may be asked to complete an age-appropriate test. Progression to the next grade is on successful completion of the current grade.

Formative assessments are conducted by teachers throughout the year to inform of further learning. A summative assessment takes place at the end of a significant period of learning and is used to inform parents through a biannual report.

The school year runs for 12 months for all grades commencing in January through to December, during which period there are school holidays. Students attend on a full-time basis. The school day starts at 8.00am from Monday to Friday. The school day ends at 3.00pm for all grades.

The average class size throughout the school from Prep 1 to Grade 6 is 1 teacher to 22-23 students. Prep 1, 2 and Grade 1 classes enjoy the support of a full time Teaching Assistant. Grade 2-6 classes receive shared support from Teacher Assistants.

Each classroom at SJI International Elementary School enjoys an abundance of natural light and a view of the gardens and/or the fields. All classrooms have LCD projectors installed and teachers have access to a range of ICT equipment, including Visualisers, class sets of laptops and digital cameras.

The school is very well resourced for the delivery of all aspects of the International Primary Curriculum (IPC), as well as other non-IPC modules such as Singapore Maths.

Our beautiful Library is situated right at the heart of the school and provides a vibrant environment for our students. The library is well-stocked and has ever increasing collection. In addition to the Elementary School Library, each classroom has its own class library – a very important resource to support our goal of helping every child to develop a love for literature. All classes have a 'Maths Centre' which includes a variety of age appropriate games and resources to support the children's learning.

Early Years Classes each has a full range of toys, games and manipulatives to encourage 'hands on' learning and creativity. Classes throughout the school have access to a wide range of art, craft and design technology resources and materials both in the classrooms and in the Art Room.

The School Hall is used as a Sports Hall, Performance space and also a place to gather as a school for weekly concerts, assemblies, etc.
