

Friday 11th September 2026

Snapshots of the Week

What a fantastic week! The children have adapted well to new routines and have approached their learning with enthusiasm and curiosity. We have introduced our learning theme, 'Here We Are', and the children are excited to learn about the human body in Science, think about our own past in History and have begun to develop their sketching skills as we work towards creating our own self-portraits in Art.

Maths

In Maths, we have been developing our number skills by ordering numbers and practising counting on from a given number. The children have enjoyed exploring number sequences and using their understanding of number order to solve practical problems.

12345

Little Wandle Phonics

We have been recapping all our Phase 3 diagraphs, and the children have done brilliantly to remember them all! We have also recapped our tricky words, with a focus on:

little pure sure today

Looking Ahead to Next Week

Next week, in Science, we will be learning about the human body and identifying some of the bones that help to support and protect us. We will also be discussing the importance of good hand hygiene and how washing our hands properly helps to keep us healthy and prevent the spread of germs.

We will be sending reading books home on Thursday to be collected in the following Monday, along with an exercise book for homework activities.

How you can help your child at home

Thank you for supporting your child's reading journey at home. We encourage all children to read their reading book at least **three times each week**, as regular practice helps to build fluency, confidence and understanding. Taking a few minutes to listen to your child read, talk about the story and discuss unfamiliar words can make a big difference to their progress.

Notices

PE days are Wednesdays and Fridays.

Reading books and homework books will be handed out on a Thursday to be collected in the following Monday.
