

Snapshots of the Week

This week, the children have been observing and drawing motifs and patterns inspired by Indian block prints. We have learnt about the process of Indian block printing and worked really hard to create our own designs inspired by our learning.

Maths

This week in Maths, the children have been exploring the counting sequence for counting to 100 and beyond. We have also been looking at counting a larger number or group by recognising how many tens and how many ones.

Little Wandle Phonics

Year 2 have shown great confidence in phonics this week!

We have also recapped our tricky words, with a focus on:

through two improve beautiful

Looking Ahead to Next Week

Next week, the children will be learning more about **India** and exploring what the country is like. They will also identify and compare **physical features**, such as mountains, rivers and forests, and **human features**, including cities, landmarks and transport networks.

How you can help your child at home

To support your child's phonics development, we would like to encourage as much **incidental blending** during everyday activities at home. For example, instead of saying the whole word, segment it into sounds and encourage your child to blend them together: "Can you get your *f-or-k*?" or "Please pick up your *c-oa-t*." This helps children practise their blending skills in a fun and natural way.

Notices

The same reading books have been given out this week as we were very eager last week and started too early!

Please bring Reading and Homework books back on Monday
