

ST. MARTIN PARISH MAGNET PROGRAM **STEAM CONNECTIONS**

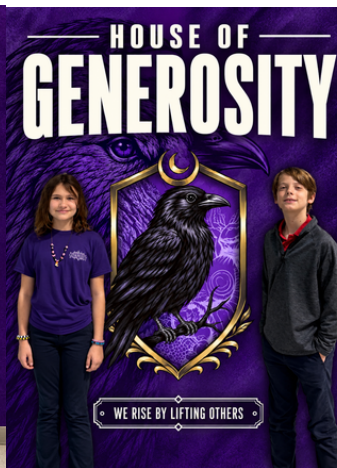

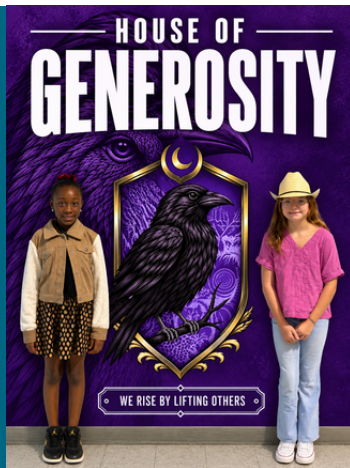

Inspiring Curiosity. Powering Possibilities. Futures in Motion.

BRINGING HISTORY TO LIFE

Kindergarten and 1st grade students took a tour of the Acadian Memorial Museum and African American Museum. For one of our

students, she saw history through the eyes of her grandfather's artwork which is a prominent featured in the museum.

----Congratulations House Chiefs!----

Thanks to the generous volunteers and donors who supported us last year, our SMESA students have the opportunity to grow and care for their Pollinator Garden. Hummingbirds can frequently be seen enjoying the flowers alongside our students and staff!

The garden provides an enriching, hands-on opportunity for students to learn about plants, how to care for them, their benefits, and the creatures they attract. It also offers a wonderful way to explore the importance of healthy ecosystems and the connections between plants, pollinators, and our environment.

Wild About Our Schools

Nova Rat

Rabbit

PeeWee

PETS **of SMSA**

**Tank,
Titan &
Turbo**

Turtles

One of the most exciting responsibilities for students at Saint Martin STEAM Academy is caring for the animals on campus. Not only do our students learn how to properly take care of these animals, but it inspires their classes to create art, stories, and learning projects around them!

Chicken

**Bearded
Dragon**

Chinchilla

Charlie

Guinea Pigs

FAMILY ENGAGEMENT CENTER CORNER

MONTHLY QUOTE

“The most important thing in the world is family and love.”
— John Wooden

OCTOBER: FAMILY TECH AGREEMENT

Create a poster together and finish these sentences:

In our family, we will...

- ✓ Ask before downloading new apps.
- ✓ Keep personal information private.
- ✓ Use kind words online.
- ✓ Take regular screen breaks.
- ✓ Have tech-free family time.
- ✓ Tell an adult when something online feels unsafe.
- ✓ Use technology for learning AND fun.

Family Challenge: Choose one tech-free time this week and one educational activity to enjoy together.

EXCITING NEWS!

We are OFFICIALLY OPEN!

**SCHEDULE AN
APPOINTMENT**

Lunch & Learn

“Empowering Learning at Home”

- Oct 22 SMSA • Oct 29 SMESA
- 11:30am-1pm

Scan the QR Code to Register for the workshop. Lunch Provided. Registration required.

Ask your child to teach you something they learned today! It reinforces their learning and builds confidence!

“Technology is a tool. When families use it wisely, it can open doors to learning, creativity, and connection.”
