

WHAT IS HSAP?

HSAP is an option for home school parents. It is our mission to support and assist parents in their chosen role as the primary educator for their students. We recognize the parent's responsibility for setting the educational goals and selecting the curriculum, materials, and techniques to be utilized for their child or children.

Each family enrolling in HSAP will be assigned a certified teacher to provide assistance and guidance. HSAP students have the opportunity to be dual enrolled for some public school courses, experiences and/or activities if they wish.

children.*

OTHER FEATURES AND BENEFITS TO THE HSAP

- HSAP children may be dual enrolled for some courses and/or school activities while participating in HSAP. Fees for materials and activities will be the same as those charged to parents who have students enrolled in the regular school curriculum.
- Davenport's HSAP includes options for enrichment classes and activities for elementary and secondary students. These offerings are optional to HSAP families and provide students with enrichment that will complement their education at home. There is no cost to HSAP families for these offerings.

PURPOSE

The HSAP supervising teacher is available for the following:

- Helping parents to establish educational goals and objectives
- Providing district textbooks and supplemental materials
- Developing lesson plans
- Assisting in teaching and learning techniques
- Diagnosing student learning strengths and weaknesses
- Planning curriculum
- Interpreting test results
- Record keeping

Communication between supervising teacher and families include emails, texts, phone calls, face to face meetings, newsletters, zoom, and face time.

ACTIVITIES AND EXPERIENCES THROUGH HSAP

Free activities and experiences are available throughout the school year. Registered families with DCSD HSAP receive monthly emails to register for events.
